Give your servants GOLD DUST to clean with, treat them rightly and you will have few occasions to insert a "help wanted" ad

They say a good workman is known by his tools. You cannot expect your maid to keep everything ship-shape unless you give her every modern help. To keep house without GOLD DUST is to do work by hard, old-fashioned methods. For cleaning everything and anything about the house—from cellar to attic—GOLD DUST is worth its weight in gold. It cuts grease and dirt like magic, does away with scouring and scrubbing, and saves time and tempers.

Your servant can do more and better work and keep sweet with the aid of GOLD DUST in all household cleaning.

### FIFTY THOUSAND PEOPLE SAW EL GALO LOWER HIS RECORD

Track Was Fast and Weather Ideal—  
Hayden's Horse Was Not Pressed  
Hard.

Rochester, N. H. Sept. 30.—A record breaking crowd of 50,000 persons witnessed the third day's racing at the Rochester fair at Cold Spring park yesterday. Two races required extra heats. The racing was close and many of the finishes brought the spectators to their feet.

As the day was an ideal one for racing, and the track was in fine shape, fast time was made, one horse El Galo of Frank Hayden's stable, lowering his record from 2:16½ to 2:11.

In the 2:16 class eight horses took the word. In the first heat Bon View won easily, but in the remaining heats was not driven hard. In the 2:17 class Dore uncovered the winner in Dan Dee, who won the race in straight heats, being in danger only in the last.

The feature race of the afternoon was the free-for-all, in which most of the finishes were very close. Louise G. a former Rochester horse, at one time owned by millionaire George E. Wallace had many admirers in the grandstand, but she failed to deliver the goods. Sir Alexander won the first heat by several lengths, but Bert Nuthurst carried off the honors by winning the next heats by less than half a head. The summary:

### GREAT FINISH IN 2.05 PACE AT COLUMBUS

Columbus, Ohio, Sept. 30.—What a bit of the grand circuit pronounced the most remarkable heat and finish at any point this year, occurred in the mile in today's 2:05 pace, a race which went to Evelyn W. Earl, jr., was first choice in the pool. The Cleveland mare won on the outside in 2:02½. Earl, jr., took the first heat in 2:03½, a new time for him. At the beginning of the second heat, Major Brino picked up the Cox pacer and carried him through the first quarter in 30 seconds, and to the half in 1:00½. On the far turn, Star Patchen made a break and dropped back. All the horses kept within range of the leaders and the rush at the finish was terrific. Evelyn won in 2:02½. In the next heat Evelyn won by a length from Major Brino with Earl, jr., third.

In the final heat of the 2:07 trot the officials fined Driver Nottingham \$25 for not trying to win with Hallworthy. After announcing the fine, bets on the heat were declared off, but the auction pools were allowed to stand.

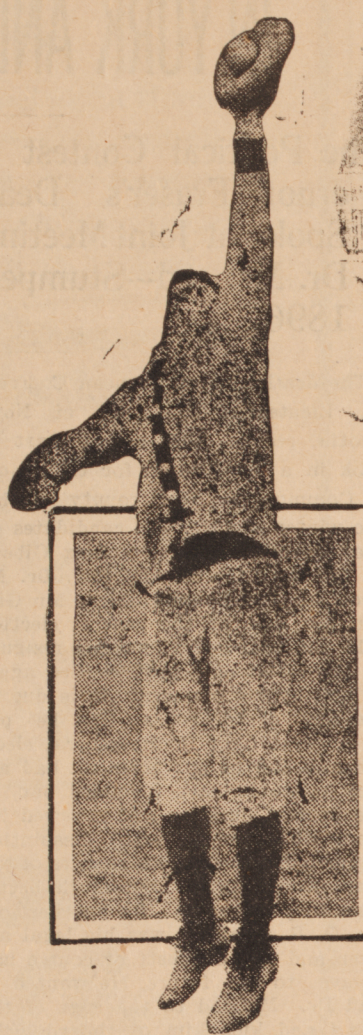

Sara Ann Patch's victory in the first race, the 2:15 pace, was one that did not yield a hard struggle. She was favorite and took all her heats, the best thing in each being the clash for the place between. On Time, Atha Boy and The Liar. The meeting ends tomorrow.

### MARE PACED FULL MILE WITHOUT DRIVER

Berlin, Conn., Sept. 30.—In the fourth heat of the 2:22 class yesterday, at the state fair here, Certainly, a bay mare owned by Kelly Bros. of Blackstone, Md., threw her driver, Joe Kelly, at the first turn of the half-mile track, paced the full mile driverless, but in splendid form, and was nosed out by only two other horses, Presiding Judge Seidler placing her fourth.

The mare won the next heat, driving wide of a collision at the spot where she dumped her driver.

## SPORT

SWEENEY

Chicago, Ill., Sept. 30.—After careful examination of his finger by a Chicago surgeon, Sweeney, catcher for the Highlanders, was informed yesterday that he might possibly be able to play ball again this year.

The fracture is such that it is out of the question to expect it to mend before the expiration of two weeks, and that means little work for Sweeney in the American League race. Perhaps he may get in a post-season series, if it is decided by the owners of the National League and American League clubs in New York to play post season games.

#### CALAIS 4, THISTLES 3

St. Stephen, Sept. 30.—The base ball game on the park diamond between the Thistles and Calais team was won by Calais by a score of 4 to 3. Battery for Thistles; Pruitt and Watt; Calais, Harrington and McGovern. Umpire, Chapdelaine.

### FLEMING PLAYING WITH TORONTO A. A. C.

The Toronto Globe says: "Fleming, the ex-St. Andrew's College boy and Dalhousie University crack half, is showing up sensationally with T.A.A.C. He is very fast, weighs close to 180 pounds, is a particularly good punter and catch and a great ground gainer. He looks like a certainty for the senior team."

Players who have grown up with English Rugby and have been able to make a name for themselves at the game can usually fit in as far as the Upper Canadian game. Charlie Babbitt who used to play here with the High School and Junior City teams and afterward as a senior with the B & B team made the Ottawa Rough Riders half-line easily some years ago. Fleming was with Dalhousie for several years and was well-known by the members of the U.N.B. teams of a few seasons past.

McKinley Mac, 2:27½, is a yearling trotter by McKinney.

### FREDERICTON RUGBY TEAM WILL PRACTICE THIS AFTERNOON

Will Line Up Against High School—  
Some Veterans Will be Out For  
Work-Out.

It is up to all lovers of Rugby to turn out this afternoon and help the Fredericton team get into shape.

Capt. Babbitt has taken hold of the team in most energetic manner and a rattling good practice should be held at Scully's grove this afternoon. The High School team will be out and will play against the seniors to give them a work out.

Some of the veterans of the grid-iron have promised to turn out this afternoon and everything looks good for a start.

The U. N. B. will be greatly benefited by the organization of a city team and will be able to get the games early in the season which will put the Red and Black in trim for the intercollegiate matches of the later season. For some years past the U. N. B. has been unable to get such games, as a result her teams have been rather unknown quantities before the matches with Acadia and Mt. Allison.

#### AT HALIFAX

Halifax, Sept. 30.—The feature of the races at the exhibition speedway today was the great performance of P. K., who captured the 2.40 pace in three straight heats, after an exciting race with Longboat.

In the first two heats of the free-for-all Simassie made things interesting, but in the third heat Frank Patch had everything his own way and Frank Adams drove his handsome stallion home an easy winner. The summary:—

## BASEBALL NOTES

Rube Waddell claims to have been stung almost unto death by Jersey City skeeters, which causes a New-ark writer to remark that Joe McGinnity was also affected in a like way when he accepted the "Rube" as payment of an old debt against the St. Louis Browns.

Chicago Tribune:—Celebrated batteries—Pitch and Toss, Edison and Westinghouse, Waymen and Burke, Sherry and Egg, Parry and Thurst, Gowen and Kommen, Hibbard and Spencer, Upwards and Atom, Williams and Walker (Cuban Giants), Coughlin and Kenna, Powers and O'Brien, You can get in on this. Terms, open.

Strange as it may seem, the Providence team proved a big attraction on the road, and in many cities it drew more than any other team. This is especially true of Buffalo where the team drew better than any other in the league, probably because of the popularity of Jimmy Collins. In the ten days in which the Greys played in Buffalo this season 36,837 fans paid to see the games, as against 34,961 for the next best drawing card—Toronto. If the Greys had played to as big crowds at home as they did on the road the owners would have enough money by this time to buy a few extra players. As it is they probably went in the hole a few thousands—Providence Tribune.

A unique record was made in the "get-away" game, the Newark first baseman, Joe Agler, going through the nine innings with only one put-out. That single killing at the initial station was made on a sacrifice bunt early in the second round. Expecting that one instance, as things broke yesterday, the Newark team might have played the game without a first-sacker. If memory faileth not this performance was equalled only once before. Jiggs Donahue first base man of the Chicago Americans had one fielding chance in a game against New York on the Yankees' grounds, May 23, 1906.—Newark Call.

## HOOF BEATS

Bingen has five sons who have trotters in the 2:10 list.

Walter Cox gave Ella Ambulator the drive of her life at Detroit.

The turf has seen few trotters of Dudie Archdale's quality.

Bert Merrill's work as starter at Detroit last week was gilt edged.

Just now it looks as if the colts at Columbus last week raced for fun.

## CHICAGO A CITY BUILT BY HUSTLE

The Montreal Star thus writes appropriately about Chicago:

Seventy years ago, Chicago had a population of less than 5,000 and was only one of half-a-dozen thriving little cities of the Middle West each of which had apparently the same foundation for hopes of ultimate greatness. In that time Chicago has grown from fifty-fourth place among the cities of the United States to second, and the reason is more a singleness of purpose than the possession of any compelling natural advantages. Chicago has never wavered from her intention of becoming great; she has been flamboyant and even hysterical in her pursuit of it, but she has "made good," to use the expressive vernacular of that section. Her leading citizens realized early in her existence that material success came to the city, as it comes to the individual, who goes out to find it, and they have kept on acting on that supposition until there are only three other cities in the world who number more inhabitants within their boundaries. Building up Chicago was worked out on the same lines as building up any purely business proposition. The city's advantages were advertised; the agencies whose co-operation were necessary were shown that it was to their advantage to lend their support; more than all, civic enthusiasm was never permitted to flag and, if other sections of the country were sometimes weary of the constant singing of Chicago's praises as a mercantile and industrial centre, they kept in mind enough of what had been done to their ears to influence their actions when the time came to lend their support. Chicago, in a word, is a shining example of what can be done by intelligent, consistent and sustained energy. That she has fallen a few hundred thousand short of the population it was hoped the census would show, is a tribute to the ambition rather than a reflection on the enterprise of her citizens. With the proper corrections and emendations, the story of her growth may well serve to encourage cities of the Canadian West to hope for commensurately great results.
