## NO EXTRADITION PAPERS YET RECEIVED

New York, July 8.—A further adjournment of the hearing of Porter Charlton today in Jersey City to August 11th, forecasts an early ending of the case. The papers demanding Charlton's extradition to Italy to stand trial for killing his wife, Mrs. Scott Castle Charlton at Lake Como, have not been received, and unless that State Department at Washington takes some action within the next few weeks, Charlton will be discharged from the custody of the Jersey City Court. Charlton is held on a sixty days warrant and the time will expire on August 22. Should Italy demand Charlton's extradition the State Department will reject the demand unless Italy agrees in the future to turn over to this country all Italians who have committed crimes here and fled to Italy. It is understood Italy will decline to do this.

## THE FIGHTING PICTURES WILL NOT BE FORCED ON UNWILLING PUBLIC

Motion Picture Syndicate Announces that if Public Sentiment is Against the Pictures of the Jeffries-Johnson Mill, They will Not Attempt to Show Them.

Chicago, July 8.—Stirred by the growing sentiment throughout the country against the exhibition of the Jeffries-Johnson fight films, George Klein, Wm. Selig and George A. Sporr, representatives of the Motion Pictures Syndicate, issued this statement last night: "No effort will be made to show the pictures in any city where contrary legislation has been taken. It will be necessary to take out injunctions for this combine does not intend to buck the law in any city or state. We do not think these pictures are any different from those which have been displayed for the Johnson-Burns and Johnson-Ketchell fights. If we find that popular sentiment is against them we will let them on the shelf and not show them at all."

New York, July 8.—The statement of Klein, Selig and Sporr as to our attitude on the exhibition of the Jeffries-Johnson fight pictures correctly represents our attitude as nearly as can be stated at this time," said Wm. T. Rock of the Vitaphone Company of America.

"I can think of nothing to add at this time to the statement these gentlemen made in Chicago," continued Mr. Rock, "unless it be to say that while opposition to the production of the pictures in certain localities is expected it is my belief that the general public sentiment of the country will never agree to their total suppression."

The people as a whole I think it will be found, want to see the reproduction of the great battle, and while we do not expect to combat adverse sentiment by legal means there is every reason to expect that the views will be very generally shown."

## YERKE'S LAWYER WANTS QUARTER MILLION FEE

Chicago, Ill., July 8.—Two hundred and fifty thousand dollars is the fee demanded and may be paid to Attorney Clarence A. Knight for services rendered in straightening out the estates of Charles T. Yerkes, the late traction magnate.

Master in Chancery Granville W. Browning, who was appointed as referee by Judge Cutting of the Probate Court yesterday, declared that the fee was just and not exorbitant. He not only gave it as his opinion that Knight was entitled to a full quarter million, but he well deserved it for honest and loyal work in recouping the dissipated properties after the Street death in 1905. Trustees and beneficiaries have been fighting through the courts for the various possessions left by Yerkes both in England and the United States.

## PARIS APPARENTLY THREATENED WITH A RENEWAL OF FLOODS

Considerable Rainfall Has Taken Place Daily for Last Six Weeks Many Streams Have Overflowed Their Banks—Crops are Suffering Very Heavily.

Paris, July 8.—Continuous cold and wet weather is beginning to cause serious alarm. There has been daily rain for six weeks and the precipitation since the first of January has already exceeded the average rain fall. A recurrence of floods is threatened. Many streams are full and some are out of their banks. The grape crops are suffering heavily and mildew has made its appearance in the champagne district. The hay crop is almost destroyed. Meteorologists attribute the rainfall to continuous hot westerly winds from America which absorb moisture in crossing the Gulf Stream that is precipitated as soon as it comes in contact with the cold land of the continent.

## TROOPS MAY HAVE GO TO SPRINGHILL

Springhill, N. S., July 7.—If the occurrences of last night are again repeated at Springhill the government will be requisitioned to send the military to the mine town to maintain order. The strike of the coal miners has been on for a year, the company has over 400 men at work in the mines, the output now being some 500 tons daily, compared with a normal output of 1,100 tons.

Last night a crowd of 500 strikers and strike sympathizers gathered at a point adjoining the company's property, making a hostile demonstration, and throwing stones. The company's police warned the crowd away and a shower of stones was hurled at the houses, smashing windows and exciting the imported workmen. Shots were fired in the air by the company's police and finally the crowd dispersed.

The mayor is said to have announced that he can do no more to maintain order than is being done. A demand for the protection of troops from Halifax is likely to be made at any moment if not through the mayor then by the county judge.

The injunction of court prohibiting picketing seems to be a dead letter. One citizen remarked that it is not contempt but ridicule of the court.

Naturally thinking it to be a dead body they thrust a boat hook in Madden's body and hauled him aboard. ## ATTEMPT TO RESTORE RACING IN MISSOURI

Jefferson City, Mo., July 8.—A bill is to be presented to the next legislature for the restoration of horse racing in Missouri, according to John D. Knapp, of St. Louis, in a communication to the secretary of state.

The original intention, Knapp says was to submit the bill through the initiative creating a state commission composed of five members appointed by the governor to supervise and regulate these sports in Missouri. Knapp says the movement "was initiated by certain sporting members of the Missouri Referendum League of St. Louis, who saw a chance of restoring horse racing in Missouri under proper conditions and safeguards both the breeders and public by putting before the voters a reform betting bill."

The betting permitted in the contemplated act would be on the part mutual style, Knapp says. If the bill fails of passage he says they will submit to the people through the initiative 1912.

## SHAM FIGHT AT CAMP SUSSEX DID NOT COME OFF TODAY

Rain Spoiled the Programme Mapped Out and Troops were Compelled to Return to Camp—On Account of Weather, Tents May Not be Struck Till Next Week.

Sussex, N. B., July 8.—(Special).—No sounds of battle, sham or otherwise, disturbed the stillness of the country air at Sussex this morning.

Nothing more exciting happened than a steady downpour of rain which fell continually throughout the morning. Every preparation had been made for the fray and at 7 a. m. the attacking party, under Lt. Col. Vince, mustered fully armed on the high ground and headed by the 67th Band, began its march from camp. They had not advanced far when, on account of the rain fall, the order was given to return to their lines, and that they would not be called upon to charge the foe. Reluctantly a retire was made to camp and a dismal stay was made in the tents by the men of each company. The rain has not only prevented the sham fight, but has put the ground in a bad condition besides making the last of camp very disagreeable. The striking of tents may have to be deferred until next week if the wet weather continues and this will necessitate a rear party being left on the grounds to make arrangements for placing the tents and other equipment in stores. The troops will commence this afternoon to entrain for their homes.

Col. W. N. Humphrey, camp commandant, has expressed openly his satisfaction at the successful manner in which the duties of camp were attended to by all ranks during the period under canvas. He has also expressed keen appreciation of the services rendered by the staff officers and officers commanding units and of the zeal displayed in camp carrying out orders and instructions.

## CELEBRATED AVIATRICE MEETS FATAL ACCIDENT

Bethany Plains, Rheims, July 8.—Baroness De Laroches, the French woman aeroplanist, was fatally injured here this afternoon by falling from a height of fifty metres. She had flown around the field once at a height of eighty metres when suddenly in front of the applauding tribunes she appeared to become frightened and confused at the approach of two other aeroplanes. She started to descend, but while still fifty metres from the ground, lost control of the machine. The aeroplane turned over and fell like a log. The Baroness' legs and arms were broken. Her mangled body was removed from the wreckage and conveyed to the hospital, where she is dying.

At the hospital it was found that her skull was fractured. This is the second fatal fall at this meeting, Wachter having been killed last Friday.

While momentarily conscious, the Baroness explained that the rush of air from a motor passing over her head had frightened her.

## RUSSO JAPANESE AGREEMENT

Berlin July 8.—The liveliest interest is felt in official circles regarding the Russo-Japanese agreement, the text of which has not been forwarded to the German government. The maintenance of the status quo of the agreement is ostensibly intended to secure most desirable. The most delicate point in the agreement refers, according to the semi-official Frankfurter Zeitung to the understanding to act mutually on the defensive against the intervention by third powers in Manchuria which still belongs to China. The agreement therefore cannot be directed against China. It is pointed out that America obtained a concession for the Aguin Chin Chow Railroad from China and the question is now raised here whether the agreement is intended to oppose America's unwelcome intrusion in the Russo-Japanese sphere of influence. If so the agreement is taken to mean the closing of open doors.
