Give your servants GOLD DUST to clean with, treat them rightly and you will have few occasions to insert a "help wanted" ad

They say a good workman is known by his tools. You cannot expect your maid to keep everything ship-shape unless you give her every modern help. To keep house without GOLD DUST is to do work by hard, old-fashioned methods. For cleaning everything and anything about the house—from cellar to attic—GOLD DUST is worth its weight in gold. It cuts grease and dirt like magic, does away with scouring and scrubbing, and saves time and tempers.

Your servant can do more and better work and keep sweet with the aid of GOLD DUST in all household cleaning.

KETCHEL LEFT \$18,000

Grand Rapids, Mich., Oct. 25.—In probate court today, Julia Ketchel, mother of Stanley Ketchel, champion middleweight pugilist, who was recently killed in Missouri filed application for appointment of James A. Lombard, of this city, as special administrator of her son's estate.

According to the petition, the estate is valued at \$18,000, of which \$8,000 is in real estate and \$10,000 in personal property. Ketchel is said to have earned about \$100,000 in the ring.

JACK JOHNSON  
WAS BEATEN BY  
BARNEY OLDFIELD

Not in The Ring But on The Auto Course—Only Two Heats Needed.

New York, Oct. 25.—The ambition of Jack Johnson, champion heavyweight pugilist, to annex honors as a racing automobile driver, received a blight here this afternoon at the hands of Barney Oldfield. Johnson showed to poor advantage in his new role and Oldfield in one heat of their five mile race at Sheephead Bay toyed with the big fighter. Only two heats were needed to settle the question of superiority.

Following his victory Oldfield gave out this statement: "I raced Jack Johnson for neither money nor glory, but to eliminate from my profession an invader who would have had to be reckoned with sooner or later. If Jeffries had fought Johnson five years ago the white man would have won and after Jeffries had retired, he would never have had to fight him again. If I had ignored Johnson for a year or so he would probably have gained my experience on the track, and bought high powered cars, while I am not getting any better from day to day. I am glad if my victory over Johnson today will have any effect on the 'white man's hope' situation."

In the first heat Oldfield ran away from Johnson. He was quicker to get away and Johnson's car never showed ahead. At the finish Oldfield led by a quarter of a mile. His time for the five miles was four minutes, 44 seconds.

The time of the second heat was five minutes, 24 4-5 seconds, or 30 4-5 seconds slower than the first, tells the story of the heat.

ST. F. X REPORTED  
TO BE VERY STRONG

A Pictou correspondent of the Sydney Record has the following about the St. F. X. team:

"St. F. X. played the pick of Pictou county here Wednesday, and defeated them by a score of 20-0. You may think from the score that it was one-sided, but such was not the case by any means. The scoring was due to the machine-like and snappy work of the halves. They certainly seized every opportunity to score. It was great to see the backfield work. The collegians have the best forward line that ever played for St. F. X. The men averaged 180 pounds and each man could handle the ball and tackle. They controlled the ball all the time. At the last of the game they did nothing but dribble for practice. The collegians were weak at quarter, but two men arrived today who will look after that. They are Dan McIsaac and Harry McDermott. McDermott was captain of St. Joseph's and will just fit in nicely. Of course McIsaac's abilities as a quarterback are well known. By the 31st the boys expect to have a team that will hold its own with anything in the provinces. They are endeavoring to arrange a game with Glace Bay for Thanksgiving Day."

The men at the head of organized baseball are probing deep to find out more about the plans of the new circuit. Agents of Fletcher in the east gave out positive information here on Saturday that Ty Cobb, Charles Street and Walter Johnson have signed optional agreements to play with the new circuit.

Abe Attell evidently does not like the idea of being accused of meeting only "lemons," for he is out with a statement that he will meet Packy McFarlane at 135 pounds and bet him \$1000 on the result.

SPORT

ALGONQUINS MAY  
NOT PLAY HERE  
THANKSGIVING DAY

Have Difficulty in Getting Team—Acadia Refuses Game With Fredericton City.

It now looks as if the St. John Algonquins might not be able to get a team to play U. N. B. on Thanksgiving Day.

The St. John Standard this morning said: "There seems to be some doubt whether the Algonquins will be able to go to Fredericton on Thanksgiving day to play the U. N. B. It is said that some difficulty is being experienced in getting enough men to form a team."

Should the Indians not play the U. N. B. it would not be an unmixed evil for U. N. B. plays Mount Allison at Sackville on Wednesday next in the first game of the Inter-Collegiate series and some of those at the head of football affairs at U. N. B. do not want to take the risk of anyone's accidents before the Mount Allison game.

CHATHAM READY.

If U. N. B. does not have a game here on Thanksgiving Day, Chatham will likely come over to play Fredericton City. The last time Chatham played here was in 1908, when U. N. B. won 4 to 0, Johnny Dolan dropping a goal for the Collegians.

The team from the North Shore should put up a lively game.

GAME SATURDAY.

On Saturday afternoon St. John High School and Fredericton High School will meet at College Field in a return game. St. John won easily in the first game between the two teams, but the local XV has been doing some hard work recently and expect to even matters.

A game between High School and Normal School is scheduled for this afternoon.

THE U. N. B. TEAM.

Capt. Kinghorn put the U. N. B. squad through a stiff workout yesterday afternoon. Jack McNair was out again and "Cap." Deedes will make the attempt to use his injured leg today.

"Wally" Jennings is able to be about again after his illness, so things are looking better for the Red and Black.

Bender was at the college field watching the workout. It will take several weeks for his broken collar bone to knit.

Young Logan of the Charlotte St. School, who also has a broken collar bone, as the result of football, was also a spectator.

ACADIA DECLINES.

Acadia has declined to play Fredericton City here the day after the U. N. B.-Acadia game. The reason given by Manager L. T. Hayward of Acadia is that the Acadia-Mount Allison game follows too closely on the game here.

FLETCHER GOING  
AHEAD WITH HIS  
NEW LEAGUE

New York, Oct. 25.—Russell Ford, the crack pitcher, has confirmed a statement of D. A. Fletcher, promoter of the proposed new major baseball league, that he has signed with that concern for next season. The salary, according to Fletcher, was \$5,000 for one year, the money to be placed to Ford's credit in a bank on February 10. When Ford was asked today whether he had signed with Fletcher he said: "Yes, I've signed with him. He's offered me more money than I'm getting here in New York, and that's what I'm after."

Ford has not asked President Farrell of the Highlanders for another contract.

The men at the head of organized baseball are probing deep to find out more about the plans of the new circuit. Agents of Fletcher in the east gave out positive information here on Saturday that Ty Cobb, Charles Street and Walter Johnson have signed optional agreements to play with the new circuit.

RING NOTES

Ad Wolgast, the lightweight champion, announces that he will be ready in February to give Battling Nelson a return bout.

The bout between Leo Houck and Frank Mantell has been set by the new Rhode Island club of Thiberton for Nov. 11.

The bout between Bill McKinnon and Bartley Connolly that was to take place in New Bedford Monday was called off.

Athletics

HOCF BEATS

The Philistine, 2:06½, has been leased to J. B. Jones of Muskogee, Ok.

Little Sweetheart, the daughter of Moko, has cut her record to 2:12½.

The purse winnings of Walter Cox's stable will foot up more than \$45,000. The Plunger, 2:07½, is one of the highest-class trotters ever sold for export.

Sirena, by The Bondsman, and Minor Eel, by J. J. Audubon, have both shown 2:08½.

Albert Moore will remain in Detroit another year, having charge of both meetings.

It is a pretty safe guess that Spanish Queen, 2:07½, will be bred to Colorado E., 2:04½.

Tommy Murphy says Longworth B., 2:17½, is about as fast a pacer as he has ever had.

Mike McDewitt goes into winter quarters at West Park, O., this week with Joan and Grace.

The new 2.10 trotters number 53, with the chance of one or two more at Phoenix next month.

ONLY ONE DANGEROUS SPIDER

Strangely enough the one really dangerous spider on the American continent is small, obscure and practically unknown to popular or journalistic hysteria. Latrodectus mactans is its scientific name. It is about the size of a large pea, black with a red spot on the back—a useful danger signal—and spins a small web in out-houses or around woodpiles. So far as is known, its poison is the most virulent and powerful, drop for drop, secreted by any living creature. Cobra virus, in the minute quantity which the Latrodectus' glands contain, would probably have no appreciable effect upon man, whereas the tiny spider's venom, in the volume injected by the cobra's stroke, would slay a herd of elephants. Were this little-known crawler as large as the common black hunting spider of our gardens and lawns, its bite would be almost invariably fatal. Happily, the 'red spot' fangs, being small and weak, can with difficulty penetrate the skin, and are able to inject venom in dangerous quantity only when the bite is inflicted upon some tender skinned portion of the body. Nevertheless, fatalities consequent upon the bite of this insect are sufficiently well attested to have rank as established scientific facts.

Only in America is there no popular fear of this really formidable little creature. Yet it is found in almost every part of the United States, though by no means one of the commoner spiders. In the past five years I have seen two specimens at my country place in Central New York, and have heard of a dozen others. It and have heard of a dozen others. If people understood generally that this rather ornamental insect is both more perilous to life and health, and rather more prone to attack human beings than the superstitiously dreaded 'deadly' copperhead, there would probably be a heavy mortality in the Latrodectus family at the hands of energetic housecleaners.

SUN YOUR HAIR TO  
PREVENT BALDNESS

The woman who sees her locks rapidly thinning lives in constant terror of approaching baldness. As a general thing she will promise to do anything to ensure a new crop of hair. But when one mentions that an hour's sunning will strengthen her scalp, ten to one that she will say, in a disappointed tone, "Is that all?"

Too much sun is worse than none, since it means sunburn of the hair, and scorching eventually weakens its texture. Sunning must be systematic to avail. Taken daily for at least half an hour, one can stop worrying about a bald future.

If the air is too chill to allow an outdoor sunning, sit in a sunny window in such a position that all parts of the scalp get the light. Hair must hang loose, for if confined with pins it will sunburn and the effect not be felt by the scalp.

To have the entire scalp feel the sunning, part the hair from the forehead to the nape of the neck and let the sun strike it directly for five or ten minutes, then make a new division and keep up the process until the whole head has been gone over.

If the hair is falling badly it may help somewhat to rub in a strengthening tonic on the scalp before sunning. This should be applied with a dropper to avoid wetting the hair. Regular sunning besides acting as a direct tonic to the scalp, is an equal tonic to the whole system. A steam-chair in which one can recline while the loosened hair is spread over the back, will prove restful.

During the sunning process occasionally lift the loose hair and draw the fingers through it from the scalp to the tips.

UPPER MAGAGUADAVIC.

Oct. 24.—The weather for the past week has been fine and the farmers are busy pulling their turnips.

Mr. Robert McCutcheon, who was visiting here all summer, has gone to his home in California. He went by way of Manitoba.

Mrs. Henry has returned from visiting her sister and daughter in Boston.

Our teacher, Mr. Lawson, paid a visit to his sister at Canterbury.

Mr. Henry Goodine, of Vermont, is visiting his parents in this place.

Mrs. Henry Saunders and Miss Annie Hamilton, have returned from a visit to McAdam and St. Stephen.

Coun. McMullin passed through here last week on his way from the Municipal Convention held at Woodstock.

Mr. and Mrs. Henry Winslow of Ashland, paid their parents and friends a visit.

Mr. David Sloan proposes having an artesian well, the men being at work boring now. We hope they will be successful and get water.

Since last writing the home of Mr. and Mrs. Roy McMullin has been gladdened by the arrival of a young daughter.

Suggestions for  
the Cook

MILKLESS AND EGGLESS CAKE.

One large cup of sugar, one tablespoonful of butter, one cup of apple sauce, freshly made and allowed to stand in two teaspoonfuls of hot water; half teaspoonful of cinnamon, a little nutmeg, one cup of seeded raisins, two cups of flour, a small pinch of salt. Mix all the ingredients, adding last of all the raisins, plentifully dredged with flour. A cup of chopped walnut meats makes it excellent. Prepare as any ordinary loaf cake and bake in a slow oven. The dough seems quite stiff, but it must be so to be right.

PRESERVED WALNUTS

Pierce young walnuts several times with a fork and boil in water until tender. Drain and when cold make a hole through each nut with a large bodkin and force into the hole a piece of lemon or citron. Make a syrup of brown sugar and water, allowing a pound of sugar to each pound of nuts. Boil all together until the sugar has penetrated to the hearts of the nuts, put into jars, fill these to overflowing with the boiling syrup and seal.

SQUASH PIE.

Into one and a half cups of boiled and strained squash beat a half cup of sugar, two eggs, whipped light, a pint of scalding milk and a pinch of salt. Add flavoring of nutmeg or spice if desired. Bake in a good open crust.

ICE CREAM CONES.

Cream together half cupful of powdered sugar and a quarter cupful of butter. When very light stir in quarter cupful of sweet milk and a teaspoonful of flour. Flavor with half teaspoonful of vanilla and turn into a lightly greased shallow pan. Spread smooth with a cake turner or bread knife. Bake to a light brown and while still warm cut into squares and roll up each square into a cone or cornucopia. Pinch the lower end of each cone tight so that it will hold the cream. If they cool too quickly set in the oven to soften enough to permit handling. When cold put the ice cream into them.

PLANKED STEAK

Select a tender thick steak. Have ready a smooth hardwood plank, such as come already prepared for this purpose. Rub lightly with butter and place the steak on it, fastening it at the corners with thumb tacks. Set in the oven, rub the meat well with butter and cook, rubbing with butter every five minutes until done to the desired point. Take from the fire, set the plank on a large platter or tray, remove the thumb-tacks, rub more butter into the hot steak, dust lightly with salt and pepper, and garnish with parsley and sliced lemon. Send at once to the table.

HOUSEHOLD IDEAS.

If a plate of sandwiches is prepared beforehand for a luncheon it is a good plan to pile them on a plate and then wrap plate and all in a waxed paper.

Soak old flour sacks in borax water over night to remove the printing and then boil for half an hour in soapy water, and they will make excellent washclothes for dishes.

It is a mistake to think that tea can be cooled by a few lumps of ice in the pitcher. There must be either finely cracked or shaved ice in the glasses to make it palatable.

If furniture has grown dull and streaked, try rubbing it with a mixture of equal parts of turpentine and coal oil. It polishes quickly and is much less expensive than prepared polishes.

When ironing pongees it is well to iron it without sprinkling. It will take longer, but the result will be more satisfactory.

A House on Your  
Hands

Did you ever figure out how small a percentage of our population pass your house where they could see a "To Let" sign, or how large a percentage read our paper? Good tenants are not the kind that have time to waste in going around looking for signs. They look in our Want Ads.

If you have a house on your hands, a "House to Let" ad. will bring them to you.

Copyright 1910 W. J. Osborne

If jellies are becoming candied, cover them with a quarter of an inch of pulverized sugar, underneath the paper, and they will remain in good condition even for years.

To take out waggon grease, if it is the kind made of animal fat, sponge with ether; if it is the kind made with coal tar, it may be removed with a cloth dipped in petroleum.
