THAT HAVE NO EQUAL FOR THE MONEY.

## MONCTON SUFFERS CONSIDERABLE DAMAGE BY VIOLENT STORM

Severe Electrical Storm Accompanied  
by Heavy Rain Turns Streets into  
Rivers and Floods Cellars—Two  
Persons Struck by Lightning.

Moncton, June 22.—Moncton's main street was turned into a small river and the side streets into swift flowing streams by a deluge of rain between 4 and 5 o'clock this afternoon.

The city was virtually flooded for about three-quarters of an hour and a cloud-burst over the city was the only explanation of such a terrific down-pour.

During three-quarters of an hour two inches of rain fell, more than fell all last month. Terrifying lightning and thunder accompanied the storm, which was the wildest seen in Moncton in many years.

Lightning struck in several places, but did no material damage. D. W. Wilbur's house, occupied by his mother, on the Mountain Road, was entered by the fluid and George Wilbur was struck. A child of Leslie Chappell in the same house was stunned. Beyond being shocked and slightly dazed Wilbur and the Chappell child were not seriously injured. Lightning seemed to enter through the cellar, damaging the floor slightly and ripping up the oilcloth. The people in the house regarded it as a narrow escape.

The chimney on Dan Madden's restaurant, corner of Main and Bonaccord Streets, was struck by lightning, going down the chimney and knocking down the stove pipe. The damage was only slight.

The business portion of Main Street was practically under water during the storm, and many cellars were flooded. The catch basins could not begin to carry off the water. The water rushed down the side streets like rivers, gully out the roadway in many places.

Moncton was the centre of the storm, and reports indicate there was little north of Moncton or to the east.

### A SECOND STORM.

Between 9 and 10 o'clock this evening the storm was renewed. The rain fell in torrents and there was a repetition of the floods on the streets. Another inch of rain fell, making a total of three inches for the day. The electric storm tonight at intervals was little less severe than the afternoon. One of the dynamos in the city electric light station was struck by lightning and badly damaged, while other damage was done to transformers about town.

The school board tonight took steps to bring into operation the compulsory act in Moncton, in accordance with a resolution recently passed by the city council. Isaac C. Burden was appointed truant officer and census taker at \$50 a month and enters upon his duties at once. The St. John truant officer is to be brought here to instruct the Moncton officer.

## COMMISSIONER FARRIS IMPOSES HEAVY FINES

Edmundston, June 22.—Fines amounting to \$250 with costs in all five cases, were imposed by Commissioner L. P. Farris yesterday upon parties found guilty of selling liquor within the fifteen mile limit of the construction line of the National Transcontinental. Henri Soucy was the star defendant. Mr. Soucy must pay two separate fines of \$50 a piece, with costs in each case. Joseph Leveque, Frank Chasson and Noel Oullette were each fined \$50 and costs. Mr. Farris left for St. John today.

Mr. H. P. McLean of the Toronto Construction Company is a guest at the Queen.

## VANDERBILT OFFERS TO PROVIDE FREE AVIATION PARK

Says Flying will be Gentleman's Sport  
in Future, Willing to Spend \$20,-  
000 to Improve Site Near the  
Grand Stand for Motor Speedway.

New York, June 22.—William K. Vanderbilt, jr., yesterday visited the aviation colony at Mineola, and offered on behalf of himself and some associates to spend \$20,000 on sheds, fences and other conveniences if the aviators would move their community over to the Hempstead Plains section near the grandstand on the motor speedway.

Young Vanderbilt spent some time with Captain Thomas S. Baldwin and later motored over the territory that is to be set aside for an aeronautic park in company with Clifford B. Harmon and A. R. Pardington.

If the young millionaire's ideas are carried out the entire community now on the Plains back of the Mineola Fair grounds will soon move over to the meadows adjacent to Hempstead. According to present plans, more than a dozen sheds will be erected and luxuriously furnished, with little apartments as living quarters, equipped with gas and electricity and with all conveniences. Provision will be made to bring visitors from surrounding towns by omnibuses, automobiles and street cars.

NOMINAL ADMISSION FEE  
In order to protect the aviators while flying, a fence fifteen feet high is to enclose the flying ground. A nominal admission fee is to be charged to the grandstand half of which will go to the aviators and the other half to the syndicate providing the money for the improvements. When these are paid for all the profits are to go to the aviators.

By this move it is intended to establish a permanent aviation park in the neighborhood of New York. It is to be similar in character to the motor speedway. Mr. Vanderbilt and his associates intend to make it an absolutely free place, where young bird men may try their wings without fear of colliding with an over curious public. They disclaim any intention of making money, and offer to turn the management over to the aviators themselves.

The park is to have an affiliation with any of the various aeronautic associations. It is to be simply an experimental station for any active worker, who will get shelter for his machine without cost and the public that watches him go through his paces, will be asked to contribute to his expenses by paying the admission fee.

### AVIATORS ARE WILLING

The aviators are very favorably inclined to the proposition. Captain Thomas S. Baldwin, Joseph Seymour Clifford B. Harmon, Harry S. Harkness, Phillip W. Wilcox, Lewis Strang Frank Van Anden and others will hold a meeting late this afternoon to form some kind of an organization to direct their activities.

"I am deeply interested in the sport of flying," said Mr. Vanderbilt yesterday while watching Seymour fly. "I think it is the coming sport. It has the wonderful attraction of speed, and I am convinced it will be the gentleman's sport of the very near future. It is probable that flying will be as common ten years hence as automobiling is today."

"One is inclined to compare it with other sports like polo and motoring, but it really has no parallel. Its very novelty and exhilaration is the thing that makes it so fascinating. I have no aeroplane, and don't expect to get one in the near future, but I should not be at all surprised if I did fly some day."

"Our idea in starting the aviation park on the motor speedway is merely to give the workers a chance to practice under better conditions. They are worried by the crowds here, and their facilities are primitive. We hope to make this park a per-

## FOSTER GETTING "BACKHANDERS" FROM ALL QUARTERS

Borden Orators Make Nasty References  
to Tainted Reputations and Em-  
phasise Fact that Foster's Suc-  
cessor is an Honest Man.

Tronton, Ont., June 22.—Hastings gave R. L. Borden, the Conservative leader, the biggest reception of his Ontario tour today. The town was in gala attire.

Sir MacKenzie Bowell spoke first. The ex-prime minister of Canada, the veteran victim of the nest of traitors, extended congratulations to Mr. Borden on his selection of ex-Judge Doherty as his lieutenant. "He is in every sense worthy of the position," declared Sir MacKenzie, with significant emphasis. "He is an honest man, whose public and private actions are prompted by the highest ideals. He is one of the same class of men as Sir John Thompson. He will be loyal to his leader and loyal to his principles. He abhors trickery and duplicity. The Conservative party gains by his association with Mr. Borden, a leader of whom it is proud."

Then came J. W. Johnson, M. P. P., who was the closing speaker. He endorsed the tribute paid to Hon. Mr. Doherty and proceeded:

"When Mr. Borden is called upon to form a cabinet, we shall require from him that it shall contain no man whose record is tainted. No matter how eminent his services to the party may have been in the past. No Conservative party can afford to carry any man who has used time or money to his own advantage, that he owed to the business in which he was employed or from the management of a company to promote his own interests. The Conservative party have carried that burden too long."

Both declarations were greeted with vigorous applause.

## CHIGNECTO MINE EXPLOSION VERDICT

Amherst, N.S., June 22.—The enquiry into the death of William Stephens and Thomas Wood, who were killed in an explosion in the Chignecto mines early on Monday morning, was held by Coroner Avarad at Chignecto Mines this afternoon. A number of witnesses were examined, and the trend of the evidence went to show that every precaution had been taken to safeguard the lives of the employees. John McKinnon, one of the examiners, testified that he had been examining the mines previous to the employees going to work, for four months, and had never detected the presence of gas or fire damp. It was also proven that Stephens and Wood took safety lamps into the mine with them. The verdict of the jury was to the effect that the deceased came to their deaths by an explosion in the mine, and that no blame could be attached to the officials or management.

### International Chambers Commerce

London, June 22.—The International Congress of Chambers of Commerce today accepted by acclamation an invitation to hold the session of 1912 at Boston. Mr. LaFlamme, on behalf of the National board, of trade, of the United States, introduced a resolution commending the establishment of a permanent court of arbitration as proposed to the powers by secretary of state Knox. The resolution will be discussed tomorrow.

manent institution, which will be the first great aviation field in America. "At present the whole arrangement is tentative. We hope the aviators will accept our offer. They have not had an opportunity to discuss it yet."
