2.75 " " 1.95	.65 " " .49

We can show you the largest stock of Hosiery to be found in any one store in the city, the same to be cleared out at a great reduction.

PETER FARRELL & CO.

BIG DISPLAY OF CANADIAN GOODS AT THE EXHIBITION

(Telegraph)

Professor R. B. Miller, of the faculty of the University of New Brunswick, is one of the busiest men to be found on the exhibition grounds. For over a year he has been preparing the provincial forestry exhibit which will be shown at the exhibition September 5 to 15 as one section of the magnificent showing of woods, minerals, game, etc.

Professor Miller told The Telegraph yesterday that he has collected prepared and arranged over 100 specimens of Canadian woods, also leaves, and, whenever possible, the fruits. This comprehensive array of forestry resources will be supplemented by a gallery of fully 100 photographs kindly loaned from the geological survey collection at Ottawa. These pictures illustrate Canadian trees both singly and in groups and were taken specially for the World's Fair in Paris some years ago. They were exhibited at Toronto last year. St. John is the third public display of which they have formed a part.

Some highly interesting photographs of Canadian lumbering scenes are to be shown in addition to the features already mentioned, several of which will be recognized as characteristic of New Brunswick. The energetic teacher from the U. N. B. is most sanguine as to the attractiveness of the display over which he will have supervision, and will spend a great deal of time at the fair personally explaining to sightseers its absorbing features.

THE NEW STAMPS FOR THE DOMINION

Ottawa, Aug. 24.—During his coming visit to London, Eng., while en route to South Africa, Hon. Rodolphe Lemieux will consult with the Imperial authorities in reference to the new issue of postage stamps which will be necessary as a result of the accession of King George V.

It is not likely that the new issue will be made until next summer, when a simultaneous issue may be made the whole Empire over.

Mr. Lemieux has, it is understood, taken over with him some designs for the new Canadian stamps which will be personally submitted to the King for approval.

It is announced in London that notice has been sent out to all the dominions and dependencies of the Empire that no stamps will be approved unless they bear the King's photograph. This will do away with such stamps as have been issued in the past by Newfoundland and some of the Australian States.

Mr. J. B. Carruthers of Ottawa is in the city.

THE INTENSE HEAT IN BOSTON HAS FATAL EFFECTS

Boston, Aug. 25.—One death and nine prostrations were recorded today during one of the most uncomfortable spells of the summer. The mercury rose to nearly 90, and the sky was overcast, and genuine dog day weather prevailed. Montville Flagg, aged 55 years, a member of the board of assessors of Boylston, was overcome while riding home on an electric car and was removed to the office of a Columbus Avenue physician, where he died of heart failure. Several of the prostrations were of unusual seriousness, and one or two patients in the hospital are on the dangerous list.

THE ANNEXATION OF KOREA BY JAPAN

Tokio, Aug. 24.—The text of the convention under which the "Hermit Kingdom" is annexed to Japan, was communicated at eleven o'clock this morning to the representatives of the powers.

The document which according to now established facts was signed August 22, will be effective when officially promulgated.

This will occur according to some of the ministers, August 29 or 30, when the independent existence of the little kingdom, the struggle for whose control started the Russo-Japanese War, will cease.

Baron Hirata, minister of the interior, summoned the proprietors of all the Japanese newspapers to his cabinet today and requested them to publish no unauthorized information regarding the situation in Korea. He pointed out that such publication under existing conditions would only make the task of the Japanese government in carrying out the annexation more difficult. The newspapers agreed to his advice, and nothing regarding the annexation, beyond official statements will be published here before the publication of the promulgation of the convention. The Japanese government, which has a large number of representatives already in Korea, will be prepared to take over the machinery of administration in Korea without any delay.

Considerable uneasiness is reported at Seoul owing to the calculation of threats of disorder following the annexation. These emanate according to the view here, from malcontents who have not received the consideration which they think is their due in the provision made by the convention for the future of the Korean Royal family, nobles and officials. Outbreaks in protest against Japan are anticipated, but serious rioting or even widespread objection from the Koreans to the annexation are not expected.

THE WEST INDIES SHOULD GRANT REIPROCITY

As a Means of Fostering Trade with Canada—The United States is the Stumbling Block However.

London, Aug. 25.—The Canadian Associated Press understands re the Canada West Indies trade that the royal commission's recommendation is mainly of a permissive nature. One question was how far in framing any reciprocal trade arrangements it might be desirable to deal with the West Indies collectively, or whether it might not be well to make the application of such an arrangement permissive in individual cases, so that colonies not desiring to adhere at once might have the option of doing so at a later date.

The commissioners found it impossible for them to recommend the adoption of any general scheme embracing all the colonies, and they consider a uniform tariff out of the question.

Jamaica, for instance, will do nothing to impede her fruit trade with the United States; Trinidad, which sends half her cocoa crop to American ports, will incur no risk, and the other colonies are in a similar position.

Great stress is laid on the advantages which the West Indies have derived from the Canadian preference of thirty-three per cent. and in order to prevent the withdrawal of this concession the commissioners strongly recommend the granting of a reciprocal preference by the West Indies to Canadian products. They recommend that any trade advantages which may be given Canada should also be conceded to products coming direct from the mother country. They make no recommendation, however, as to the form which the preference to Canada or the United Kingdom should take, whether by a reduction of existing duties or increased duties on foreign goods.

It appears that threats of retaliation from the United States have been received in some quarters, but the commissioners attach no importance to this. The question of steamship and telegraphic communication between Canada and the West Indies was discussed and the commissioners strongly urge the adoption of greatly improved service.

MILLVILLE--HAWKSHAW BRANCH RAILWAY

(Woodstock Sentinel)

There is an insistent rumor that negotiations are about complete for the beginning of work on this road. It is reported that the Hon. Mr. McLeod, who for a time did not see why the road should be built, has at last received light on the subject and now agrees with Messrs. Pinder and Young that this road would be an excellent thing for York Co. We have no objections, as was intimated through this paper once before, to the people of Hawkshaw having railway privileges, rather we would be pleased to see the section opened up larger and more important section. But the difficulty is that when a railway is run into Hawkshaw it will give those opposing the Valley Road more footing for opposition than ever before. Hawkshaw is about half way between Fredericton and Woodstock. Half way from Hawkshaw to Fredericton or Woodstock is about fifteen miles. The opponents of the Valley road, and there are many, will say why a new road when a short drive of fifteen miles will place these people on a railroad. More especially will this argument be put forward if the road, also proposed from Prince William to Harvey should be built.

When the Valley Road was proposed the controlling idea was that of competition. Conservatives and Liberals alike were willing to sacrifice their political convictions for the obtaining of a favorable railway competition in these river counties. The proposition for L.C.R. control was put forward and the Ottawa government was willing and is still willing to take over the Valley railroad and run it as a part of the L.C.R. system. This will give a satisfactory competition. Bit with the Haven Government giving support to such a line as this Millville spur which is but a branch and feeder of the C.P.R. it is made evident to the most casual thinker that Mr. Hazen is simply handing out a sop to those to whom he has promised an opportunity for a competing line of railway.

A hedge, 200 feet long, composed of spruce trees 30 feet high, at the front of the residence of J. R. Hatch, in Greenland, N. H., is thought to be the heaviest hedge in New England. The hedge is so thick that no view of the road is to be had from the house and wayfarers also get no glimpse of the house.

SHIRTWAIST BARGAINS

SWEEPING REDUCTIONS

On the balance of our Summer Waists, including White and Colored.

THEY MUST BE SOLD

We need the room for our new Fall Goods which are arriving daily. We have marked some of them as low as .39c.
