Help Wanted

We Want Help to Get Rid of More

Dry Goods, Clothing and Furnishings

Each week than we have ever sold before and that is saying a good deal.

The best help possible is prices, which cannot be overlooked by careful buyers.

Our Stock of Clothing is by far the largest ever carried by us. The Suits we can sell you for \$7.50, \$8.50, \$9.50 and \$10. will cause you to wonder what you have been doing with your money.

Ask to see our Oxford Pants at \$1.89, sold everywhere for \$2.50.

PETER FARRELL & CO.

AGRICULTURAL COMMITTEE MAKES RECOMMENDATIONS

Resolutions to Make Societies of
Greater Value to Farmers and for
Experiments with Commercial
Fertilizers.

The last meeting for the present session of the Committee on Agriculture was held yesterday.

At the opening of the meeting Mr. Burgess moved, seconded by Mr. Sheridan, that the Department of Agriculture should provide for adequate supervision and encouragement of agricultural societies and inspection of their work and accounts, to insure careful and systematic work by all societies, and the accurate and prompt accounting of the monies they handle.

This resolution was unanimously adopted and precipitated a general discussion about the wisdom of the societies holding annual or semi-annual Fall Fairs. Although no formal resolution was presented the following suggestions were approved by the committee:

That the dates and prize lists of all proposed exhibitions be submitted to the Commissioner of Agriculture. In case of male animals or birds no prizes be given to other than pure breeds.

At least one judge to be furnished by the department of agriculture, whose hotel expenses should be paid by the society holding the exhibition.

Facilities to be afforded visitors to see the judging of all live stock classes and the judges to explain their awards.

All cheese and butter exhibits judged by the score card system.

Prizes should be given to encourage school children in the growing of vegetables and flowers and in selection of seed grain.

An evening meeting should be held when the judges should give addresses and point out the lessons to be learned from the exhibition.

Mr. Pinder suggested that there should be sale days in each parish at least twice a year, where live stock, seeds, etc., could be brought together to the mutual advantage of buyer and seller, and that pamphlets upon different topics of agricultural information should be frequently printed and distributed by the department of agriculture.

Mr. Hubbard stated that it was the idea of the commissioner for agriculture that an assistant be employed in the department who can speak French, and part of his duties will be to visit, instruct, advise and encourage the agricultural societies in the French districts and the deputy commissioner would do likewise among the English societies.

The following resolution was adopted on motion of Mr. Pinder, seconded by Mr. Leger (Gloucester).

Whereas, the various agricultural societies of the province in importing and placing live stock, etc., frequently desire to sell such importations among their members by auction; and,

Whereas, these societies as well as private individuals who import or deal in live stock find it essential to success to employ auctioneers who have knowledge of the breeding and special value of live stock:

Resolved, that it would be in the interest of the live stock industry to have legislation enabling agricultural society officers, or a man employed by them, to legally sell such stock by auction, and also to make it legal to employ special live stock auctioneers to sell, irrespective of where they may be registered in Canada.

Mr. Leger, (Westmorland) thought that a start should be made by the department upon an experimental or model farm for the province. He moved the following resolution, which was seconded by Mr. Sheridan and passed unanimously:

Resolved, that the department of agriculture be recommended to make use, as far as possible, of the splendid facilities at the Provincial Institution at Fairville for agricultural experimental purposes, with special reference to increase of soil fertility, and that experiments be made during the present season in the application and use of chemical fertilizers.

Only the unlearned man ever boasts of his learning.

HOUSE PROROGUED

(Continued from page 1)
premier's assurance that there was nothing objectionable in the bill, it might go.

Mr. Copp objected to the idea of giving the county council the option of appointing a health officer. It would open the door for unnecessary expense and it would be better that such an appointment should be made only on the recommendation of the provincial board of health. Hon. Mr. Hazen thought the council might safely be left to decide for themselves. If no such appointment were necessary it would probably not be made.

Mr. Tweeddale regretted that so important a bill had not been brought down in time to be thoroughly considered as in matters relating to the public health members should be able to give their constituents information. He might say that the same remarks applied to a good deal more of the legislation brought down by the government. Mr. Tweeddale was proceeding to state his objection to the proposal to give the municipal councils power to appoint a public health officer.

Hon. Mr. Hazen offered to strike the whole clause out for the whole of the province except St. John county.

Mr. Tweeddale said he would accept the premier's assurance that if by next session the bill should not be found satisfactory it should be amended.

Mr. Sweeney referred to the fact that the printers of the bill had not been able to spell properly. The bill was agreed to.

The bill relating to the winding up of companies act not having been printed and circulated the premier moved to report progress on it.

Hon. Mr. Flemming moved that the bill to make further provisions for permanent bridges and permanent works be passed.

The bills relating to the town of Dalhousie and amending the public health act were given a third reading and passed.

The house went into committee, Mr. Murray in the chair, and amended the bill to make further provisions for permanent bridges and works of a permanent character so as to include Cocagne and George S. Sharpe bridges, on motion of Hon. Mr. Flemming. The bill was then given a third reading in its amended form and passed.

Mr. Copp drew attention to the laxity in suspending rules for the introduction of private legislation and said that it should be made necessary to give all legislation the advertising required by the rules.

Hon. Mr. McLeod said that as chairman of the standing rules committee he concurred in what had been said and assured the house that next year the rules would be strictly adhered to.

Hon. Mr. Maxwell thought that the rules might well be amended. It was now necessary to advertise in some counties where there were daily papers for four weeks daily, while an advertisement inserted in a weekly paper four times in other counties was sufficient. It ought to be arranged so that insertions in a daily paper one or two weeks should do as well as four insertions in a weekly paper.

The speaker left the chair to resume at 12.45 p. m.

The House resumed at 12.45 p. m., when the presence of the Lieutenant Governor was announced.

His Honour having taken the throne, Mr. Speaker asked his assent to the appropriation acts when His Honour had through the Clerk given his assent, the Clerk Assistant recited all the further acts to which assent was asked.

After assenting through the Clerk to the several acts named His Honour gave the following address.

Mr. Speaker and Gentlemen of the legislative assembly:

I desire to thank you for the close attention which you have given to the general business of the session, as well as to those special matters which I have submitted for your consideration, and I also thank you for the liberal provision which you have made for public works and the other important services of the provinces.

In now relieving you from further attendance upon your legislative duties, I have to congratulate you upon the conclusion of your labours, and I take leave of you with the most sincere wishes for your individual happiness and prosperity.

The Clerk announced that it was His Honour's pleasure that the legislative assembly be prorogued until Thursday, the 28th day of April next.

For sweet afternoon sandwiches, grind fine an equal quantity of raisins and nuts and moisten with whipped cream. Spread between very thin slices of white or brown bread.

Small faults are little thieves that let in greater.
