

"Hawes" Von Gal Hats

THE
SMARTEST
SHAPES
FOR
SPRING
AND
SUMMER

The preferred shapes for the present season, still show the flat and medium-flat set brims. In soft hats the style differences are rather more in evidence.

Of course good form and taste dictate the avoidance of extremes, in hats as in clothes. Individuality is of course desirable, and it is this attribute combined with Style, Quality, Superior Workmanship, Finish and Fit, that has placed HAWES, VON GAL HATS first in the favour of smartly dressed men.

PARLIAMENT PUTS THROUGH THE NAVAL ESTIMATES

And Sir Wilfrid Laurier Announces that
Tenders for Ships Will Soon Be Invit-
ed--Halifax to Have Naval College--
Prorogation on Wednesday.

Wednesday is now practically a certainty. Extraordinary progress with business in the house and senate during the last few days, and particularly in the commons Saturday night assured this result. During the evening in the commons Saturday practically the entire estimates of the marine department and the militia department put through in the four hours between 8, when the speaker took the chair, and when the hands of the clock showed that midnight and Sunday had arrived. At the opening of the session the passing of these votes would not have been accomplished in less than six weeks.

On the naval estimates, Sir Wilfrid Laurier stated that the tenders for the ships to form the new navy would be called during summer.

During the day the leader of the opposition stated that he was not sure that the intercolonial rates were lower than those on the Ontario government road, and the minister of railways promised to have a statement prepared for next session.

The senate gave the naval bill its third reading.

The naval and marine estimates were put through under the guidance of Sir Wilfrid Laurier, in the absence of Hon. Mr. Brodeur, with a minimum of talk and comparatively little criticism from the opposition.

Sir Wilfrid, in asking for the vote for the naval service aggregating \$3,676,000, gave some additional details as to the government's plans for the current year. A large part of the expenditure will be in connection with the Niobe. The cost of the vessel is \$1,075,000. The Niobe will be manned by twenty-seven officers and 324 men, and the total salary list for the crew is \$175,000 for the year.

In reply to a question by Mr. Blain the premier stated that Captain MacDonald, of the royal navy, a son of Senator MacDonald, of British Columbia, will be in command of the Niobe although the appointment had not yet been officially put through. The Niobe was to be stationed in the Gulf of St. Lawrence, while the Rainbow was to be stationed off the coast of British Columbia.

The cost of the Rainbow was \$250,000, of which \$215,000 had already been paid. And there would be six-

teen officers and 163 men with a pay list for the year of \$95,000.

R. L. Borden asked how much would be spent in building operations in connection with the new navy this year.

TENDERS CALLED SOON.

Sir Wilfrid replied that there would be no expenditure for actual construction until the next fiscal year, although tenders would be called for in the near future.

The sum of \$590,000 was voted for the establishment of a naval college and the repairing for the dockyards at Halifax. Although the naval college would probably be located at Halifax, this, said Sir Wilfrid, had not been definitely decided. Meanwhile the cadets would receive all their training on board the Niobe.

The age for the admission of midshipmen the navy was fourteen to fifteen years as compared with twelve to thirteen years in the British navy.

Dr. Daniel questioned the premier as to what flag would be unfurled at the mastheads of the vessels Niobe and Rainbow the first two vessels of the Canadian navy.

"That is a question which has not been considered at all yet," replied Sir Wilfrid. "It has been suggested, however, that the Canadian navy fly the British naval white ensign with the Canadian coat of arms upon it. "As to uniforms it is suggested that a maple leaf replace the laurel wreath of the British naval uniforms."

The marine estimates included an appropriation for two years' supplies and one year's salary for Captain Bernier for his next trip to the Arctic. The estimates referred to "steamers" that might be required for the expedition.

Dr. Sproule asked Hon. Wm. Templeman, acting minister of marine, why the plural was used.

Hon. Mr. Templeman—"Well, you know, we might have to send up another to bring him back."

The commons passed the insurance bill practically as it went through senate. The only change was one which makes the deposit of all companies, American and foreign, into the finance department \$50,000.

The discriminating clause which makes the deposit of outside companies \$100,000, is left out.

PERSONAL

Mr. William Gunter of Campbellton spent Sunday in the city.

Mr. Thomas Bailey left for St. John this morning. He will spend a few days in the winterport.

Mr. J. Stewart Mavor has returned home from Halifax, where he recently received the degree of B. A. from Dalhousie University.
