GENERAL ASSEMBLY CONSIDERS FUTURE OF QUEENS COLLEGE

The Time of the Presbyterian Parliament was Mainly Occupied Yesterday in Discussion of the Desire of that University for Independence--Next Year's Place of Meeting.

Halifax, June 6.—The Assembly resumed, in large numbers, at ten o'clock this morning.

The Business Committee brought in a recommendation that speeches on the Queen's Commission Report be limited to ten minutes in length. This brought out strong objection from the Clerk and the Principal of Queens and the recommendation was not adopted. The fullest liberty was demanded and accorded.

The minutes of the Commission were reported as regularly and correctly kept by Mr. Orr Bennett. The report of the Commission was then given by Dr. Lyle. He felt the grave responsibility of his position. The Commission met October 5th, 6th and 7th, but insufficient data deterred the Commission from any definite action. They recommended a joint meeting of the Board of Trustees and the Commission. This was held and in April 26th and 27th the Commission again met. The Commission numbered forty. Some were not present, but of those who sat in the Commission, six were against the decision reached. He spoke very briefly and moved the adoption of the report of the Commission, which recommended the separation of the University from the Church. Before he could again begin to explain it, Rev. Dr. Macleod, of Barrie, asked if this was the time to receive a minority report. The Moderator thought so. Prin. Gordon did not think so. He quoted Parliamentary procedure, and said that no minority report is regarded in England and Canadian parliaments.

After some exciting conversation on the part of Dr. Macleod, the Clerk and the Moderator, Dr. Herdridge moved that the minority report be heard. This carried, and Dr. Macleod read the minority report. The sum and substance of it is the retention of the present relations between the Church and the University. He desired to add some words of explanation but the Moderator ruled this inadmissible.

Dr. Lyle then explained in detail the Report of the Commission.

1. It is proposed that the Corporation shall consist of the members of the Board of Trustees, the Professors, the graduates and the benefactors.

2. The Board of Trustees shall be instituted as follows:—

The Chancellor, the Rector, the Minister of Education for the Province of Ontario, an Assessor, appointed by the Minister of Education, two members from City of Kingston, six members to be elected by the University council; two shall retire annually. Similarly with those elected by the graduates of those elected by the members of the

Board, three shall retire annually. Retiring trustees shall be eligible for re-election.

At noon Dr. Lyle was still dealing with the details of the Report of the Commission, and the house listened to him with eager and strained attention, as the whole church is roused and divided on the Queen's matter.

THE SENATE.

The Senate shall continue as at present constituted subject to the following provisions, viz—The Board of Trustees acting in consultation with the Senate shall have power to enact any statute that they may from time to time think proper to add to the Senate professors of any school or college that may be connected with the University change the present constitution of the Senate.

THE THEOLOGICAL FACULTY.

The Theological Faculty of the reconstructed University shall be known as "Queen's College," and shall be governed by a Board of Management of twenty-five members appointed by the General Assembly.

THE PRINCIPALSHIP.

This position should be separated from that of Premier Professor of Divinity and laymen as well as ministers should be eligible for it.

MAINTENANCE OF FACULTIES, OF ARTS AND THEOLOGY.

In the event of the proposed constitutional changes being carried into effect, the whole facts of the case be set before the subscribers to the least endowment fund enquiring what change, if any, they desire to have made in the disposal of their contributions.

The Faculty of Theology would be dependent on revenue from Endowment contributions.

Dr. Lyle elaborated these suggestions of the Commission at some length.

Mr. Hamilton Cassels followed Dr. Lyle, treating the legal side of the questions involved in the Commission's Report in an extended exposition address.

NEXT PLACE OF MEETING.

The order of the day arrived and Assembly turned from Queen's to decide next place of meeting of the Assembly. Rev. Dr. Ramsay invited Assembly to Ottawa to meet there in Knox Church in 1911 and so moved. He dealt on the improved condition of the Capital and praised the work of the Government in beautifying the Washington of the North. Rev. Dr. Herdridge seconded the motion, which was carried unanimously.

BENEFITS OF YAWNING

Dr. Emil Bunzi of Vienna, Austria, in speaking of diseases of the throat and remedies, said that yawning had its great value. Yawning has recently been recommended, independently as a valuable exercise for the respiratory organs.

"According to Dr. Naegeli, of the University of Leutich," said Dr. Bunzi "yawning bring all the respiratory muscles of the chest and throat into action, and is, therefore, the best and most natural means of strengthening them. He advises everybody to yawn as deeply as possible, with arms outstretched. In order to change completely the air in the lungs and stimulate respiration. In many cases he has found the practice to relieve the difficulty in swallowing and disturbance of the sense of hearing that accompany catarrh of the throat. The patient is induced to yawn through suggestion, imitation of a preliminary exercise in deep breathing.

Each treatment consists of from six to eight yawns, each followed by the operation of swallowing. It should be added, however, that it is quite possible for deep breathing to be overdone, particularly by persons with weak hearts, and it is at least open to question whether the obstacles to free respiration, which the yawning cure is alleged to remove, are not useful in preventing the entrance of germs and other foreign bodies.

TAYMOUTH

June 7.—The Zion church which has been undergoing extensive alterations was re-opened on Sunday. A large congregation was present, and listened with pleasure to an instructive discourse, from the pastor, Rev. D. Chown.

Mr. William Young, who has been suffering with a gathered head is somewhat better.

CANADA'S GREAT FOREST RESERVE

Many Thousand Square Miles Set Aside Will Preserve Supply of Livers That Water Prairies.

Ottawa, June 6.—The eastern slope of the Rocky Mountains in Canada is now a government reserve of forest, and will be held for the growth of timber and the conservation of the snow-holding areas which form the source of the streams leading to the prairies.

Already Canada has reserved a considerable area in the Rocky Mountain park, the Jasper forest park and the Waterton lakes park with an area of over 9,000 square miles. Now some 5,000 additional have been added to the north, bringing the area under reservation up to 14,400 square miles.

There is a continuous strip from the international boundary to a point 100 miles north of the Grand Trunk Pacific under reservation and varying in width from ten miles in the south to fifty miles in the north. To the south the United States has a smaller area under reservation. The area reserved in Canada is two-thirds as large as Nova Scotia.

TO MAKE EXPLOSIVE FACTORIES SAFER

The department of mines has appointed Joseph E. Henderson, a local mining engineer, to visit all the plants in Canada where explosives are manufactured or stored with a view to ascertaining the precautions taken to insure safety in handling.

His report will be used in connection with legislation to be introduced next session of parliament by Hon. Mr. Templeman looking to a more adequate and stringent regulation regarding explosives.

Captain A. H. P. Desborough, an imperial government expert at Woolwich arsenal, has also been engaged, with the consent of the colonial office to come to Canada for a couple of months and advise the department of mines as to the best regulations to have adopted in Canada respecting the manufacture, storage and use of explosives. He will also give the department the benefit of his experience in connection with a government explosive testing station to be established here.

MONCTON MAN'S TERRIBLE DEATH

Moncton, June 6.—Mr. Henry Steeves, a Moncton man resident at the North End, Boston, was on Thursday night electrocuted while showing a friend through the electric light station. The news of the accident was received by his father, Mr. William Steeves, of the I.C.R. Blacksmith shop, at his residence on Waterloo Street late on Thursday night, but it did not say it was fatal. The young man, however, was dead at that time.

The deceased, who was married, leaves a widow but no children and was well known in Moncton and the news of his death will be heard with deep regret. The funeral will take place from the parents' residence, 42 Waterloo street, Tuesday afternoon.

Mr. Steeves was an electrician and has been employed by the S. B. Conduit Co. He left here about nine years ago and has since been employed in Boston.

So far as can be learned from news sources the accident occurred in the following manner.

"While showing a friend through the Edison power station at Prince and Salem streets, North End Thursday evening, an employee at the station, whose name and address the police give as Henry Steeves, 147 Brookline street, was instantly killed by touching a live wire. The man was about 28 years old and married. It was nearly 5 p.m., about the time when the power is turned on for the night lighting, when Steeves, with William N. Dunn, an electrician, of 125 Capen street, Dorchester, began to look over the plant. Steeves was explaining the operation of the machinery when he accidentally placed his hand upon a live wire. In an instant his body became rigid and before he could put out a hand to assist him, Dunn saw Steeves fall to the floor. He called for help, and other employees at the power house came to the scene. Dr. B. G. Wernick of 259 Hanover street was called, and at the same time an ambulance from the city hospital relief station was summoned, but Steeves was dead. Medical Examiner McGrath was notified and the body was removed to the North Grove street morgue."

Amgus Urquhart on Friday, and had a very profitable meeting.

The student who is to preach in St. Peter's Church here during the summer months, arrived on Saturday. He is staying with Mrs. John R. Buchanan.
