Give your servants GOLD DUST to clean with, treat them rightly and you will have few occasions to insert a "help wanted" ad

They say a good workman is known by his tools. You cannot expect your maid to keep everything ship-shape unless you give her every modern help. To keep house without GOLD DUST is to do work by hard, old-fashioned methods. For cleaning everything and anything about the house—from cellar to attic—GOLD DUST is worth its weight in gold. It cuts grease and dirt like magic, does away with scouring and scrubbing, and saves time and tempers.

Your servant can do more and better work and keep sweet with the aid of GOLD DUST in all household cleaning.

CANADIANS IN FINALS

Chicago, Ill., Oct. 13.—As the result of matches in the third round of the Women's National Golf championship at Homewood today, only one American, Miss Lillian M. Hyde, of New York, was left to compete in the semi-finals tomorrow.

The other survivors are Miss Dorothy Campbell and Miss Florence Harvey, both of Hamilton, Ontario, and Mrs. G. M. Martin of Tavistock, England. The draw brings together the two Canadian women in the semi-

finals, while Mrs. Hyde meets Mrs. Martin.

PUNTS AND DROPS

They are playing English Rugby in Montreal. Recently a McGill team won from the Montreal Rugby Club 11 to 4.

The Fredericton City uniforms of Red and White are expected in time for Saturday's game.

The High School team which plays at Rothesay this afternoon has made

JOE TINKER THINKS CUBS HAVE GOOD CHANCE IN SERIES

**Tinker Says Cubs Always are at Their Best When
Against a Strong Team—Admits That Mack's
Pitching Staff is Good.**

(By "Joe" Tinker Shortstop Chicago Cubs)

Chicago, Ill., Oct. 13.—It takes some thing more than great pitching to decide a world's championship. In looking through the dope I realize we are in for a great fight in the coming games with the American League champions, for we are going to face a heady, hard-hitting club fortified with one of the strongest pitching departments now in the game, a great bunch of individual base runners, and clever fielders. The one point above all others, however, seems to favor Mack's pitching staff.

There is no doubt as to the class of his twirlers. Still I cannot see where they have anything on Walsh and White. In the series last fall between the Cubs and Sox in Chicago White and Walsh pitched magnificent games—in fact, we have at no time before or since gone against better twirling. But we won and in a decisive manner. Fans who think the Cubs are going to weaken before Bender, Plank and Coombs will meet with some real surprises.

BEST AGAINST STRONG TEAMS.

Then there's another point to consider. The Chicago club has always beaten the star pitchers when fighting in important games. I do not had the effectiveness displayed by think there was ever a pitcher who "Wild Bill" Donovan in the Sunday game of the 1908 series between the Cubs and Tigers. The duel between Donovan and Overall, fought before one of the wildest crowds ever as-

sembled in a ball park, to my notion was the most spectacular in my playing career. We hung on and by rushing, and hammering away finally forced something like a break.

Ed Walsh, one of the greatest pitchers in the history of baseball, gave us desperate battles on two occasions last fall, and while it looked as if he might pitch the Sox to victory wasn't a member of the West Side team who ever dreamt of losing Confidence is the watchword, and this little element means worlds in the baseball game.

Now as to our pitchers. There is another thing we must look into. I do not think the Athletics will have much luck with Brown, as I am sure he will be at his best in these games. Then if Overall can keep in the condition he is at present I am not afraid, as I think the big fellow will outlast any pitcher on the Philadelphia club. Both these pitchers have been through the mill and each has emerged victorious in previous championship battles. It will be no new test for the Cubs, a point which I believe will greatly favor Chicago.

PFISTER'S WORK

I want to say a word about a pitcher who I think will do the best work of his career in these games, providing Frank Chance gives him a show. I refer to "Jack" Pfister, whom I consider the best left-hander in the country today. He has demonstrated beyond a shadow of a doubt his effectiveness while hurling against such clubs as New York, Brooklyn and St. Louis—all heavy hitting aggregations—and left-handers by the way, have been stumbling blocks for Mack's men all season. It's a toss up when form is considered with Brown the equal of Bender, Overall as good as Coombs and Pfister on the same footing with Plank.

As regards the fielding that remains to be seen, for it is beyond the power of anyone to dope that point. I won't try to discuss the catchers, as I do not think that either league has ever produced the equals of Kling and Archer. I do not anticipate much base stealing on the part of the Athletics. But two members of the club stand out the equals of fast men in the National League—these are Collins and Baker. I know it to be a fact, taking the foundation for this assertion from players who have been in both the American and National leagues, that it is much harder to steal in the National than in the younger circuit. Both leagues have great catchers but the National seems to possess the better sharpshooters.

CITY AND COLLEGE TEAMS WILL SHOW CHANGES

The line-up of the U. N. B. and City teams which will meet at College Field tomorrow afternoon for the second time this season is not definitely known yet. In fact the line-up of the city team will not be known until immediately before the game. The College team will in all probability be chosen tonight. Both teams will be considerably changed.

FREDERICTON TEAM

The Fredericton City team will have McKee as full-back. The four halves will be picked from the following—Rutter, McGibbon, Babbitt, Baird and Roberts. Sadler, McKnight and Hazlett are slated to play at quarter. The forwards will be picked from among Day, Stephens, Clark, Wandless, Clynick, Brooks, Belding, Chappell and Barker.

U. N. B. CHANGES

There will be quite a shake-up on the Red and Black XV it is expected. Binney and Balkam will be the outside halves but who the inside halves will be is not definitely known. Kinghorn will be one of them if he gets into proper physical condition by tomorrow. Kuhring who has been nursing an injured knee may also be in the game. There is some talk of putting Jennings in the half-line but nothing is known positively. There is also some doubt about who will play as full-back. Gilbert is likely to play in the forward-line and there may be other new men in the scrim.

Many of the college players are out of the game on account of minor injuries.

a change in its line-up. Jago will play quarter instead of half and Burden at half instead of quarter. Lawson is spareman and Kilburn manager.

McGill is trying out a new man named Billington at half-back. He hails from Liverpool, England, and knows the English game right down to the ground. He is said to be making good at the Upper Canadian game.

JOAN LOWERED RECORD TO 2.05 3-4 YESTERDAY

Lexington, K. Y., Oct. 13.—Joan, the Directum-Spicer mare, owned by Capt. David Shaw, of Cleveland, won the Walnut Hall farm cup today, the feature of the Kentucky trotting horse breeders association meeting, in straight heats. She established a new world's record for four year old trotters, going the third heat in 2:04½ a half second better than the record of her grand sire, Directum, which made the mile in 1893 in 2:05½. General C. C. Watts, for the association, presented the cup to Capt. Shaw, the owner. Driver McDevitt and Joan were cheered by the large crowd.

The Harvester broke the world's record for two miles, trotting the distance in 4:15½, 1½ seconds under the mark set by Crescens in 1902. Under a good drive by Geers, he went the mile in 2:04½. The last quarter of the second mile was negotiated in 31½.

Alden Wilson, owned by John W. Coackley, of Boston, paced a mile to a wagon in 2:04½ and beat the world's record made by Edith W., in 1902, by a second. She was driven by Cox.

GIANTS WON FROM THE HIGHLANDERS

New York, Oct. 13.—The New York National baseball league club overcame their opponents, the New York American league club in the first game of their post season series for the championship of Manhattan today winning a tense contest by a score of 5 to 1.

In a pitchers' duel between the old master, Christy Mathewson, and the youngster, Russel Ford who has been the sensation of the American league this season, the former overshadowed his rival. Mathewson struck out 14 Americans, which equals the American league record and excels the National league record for this season.

MT. ALLISON RUGBY TEAM WEAKENED BY ACCIDENTS

Several Garnet and Gold Players on Sick-List—Mt. A. Looking For Outside Games.

U. N. B. is not the only team of the intercollegiate Rugby League which has a big hospital list, the result of injuries during practice. Mt. Allison according to the Sackville Tribune has a number of men laid off on account of accidents.

The Tribune says:—
"The local collegians have been meeting with some hard luck in their football practices this season. They started the season with nine of last year's team available and several promising newcomers. All was going well until the hard luck began to set in. First one of the most promising half-backs was hurt and is still out of the game. Then a quarterback who was in the running for a position met with a similar injury and is not yet able to play again. Next a forward who had been showing up to special advantage was hurt, and he too will be out of commission for some time. On top of it all, on Tuesday one of the stars of the back division was given a bad fall and knocked unconscious. His injury of course, is the only one that is at all serious the others being simply little hurts that are keeping the men out of the game but while they are not serious they are bad indeed for the team as the practices are materially affected by the absence of these players. As for the man who was hurt on Tuesday it is expected that he will be around again all right in the course of a few days.

Endeavors are now being made to arrange for games with the Halifax Wanderers, Dalhousie and Moncton team. Indeed it had been intended to meet Moncton this week but this game has been called off for the present."

With St. Joseph's college not playing Rugby, Mt. Allison is likely to find some trouble in getting games previous to the Intercollegiate fixtures.

CHARLIE MILLER WON 2.15 AT WOONSOCKET

Woonsocket, R. I., Oct. 13.—Three unfinished races from yesterday, with two new events on today's card, filled a busy afternoon on the Woonsocket half-mile trotting park today.

Charlie Miller was the winner of the unfinished 2:15 pace, four heats of which were raced Wednesday. Fred W. won the fifth heat, and the sixth was taken by Charlie Miller, but the judges, believing that Gillis the driver of Fred W., had not tried his best, and all bets were carried off. Charlie Miller won the next and deciding heat easily.

The unfinished 2:21 pace was won by Arrow, with the favorite, Cecil Bryan, distanced in the final heat. The Saxon, the favorite of the unfinished 2:19 trot, won the deciding event today.

HAYDEN THREATENS TO PROTEST RACE

Topsham, Me., Oct. 13.—The free-for-all trot and pace of which four heats were raced at the fair grounds this afternoon, ended in a rather unsatisfactory manner. Of the four heats raced, one horse, Queen Annie, won two, Brownette one and El Galo the other. The track record of 2:15½, which was made in 1908 by Silk Patchen, was broken in the first heat of the race and in the second the new mark was broken and equalled in the other two.

When the last heat was finished, 5,000 people crowded into the stretch and demanded that the deciding heat be raced, that the race be put off until morning, or that the money be awarded as the race stood.

The judges finally decided to adopt the latter course, after consultation with the owners and drivers of the horses in the race. When this announcement was made, F. R. Hayden of Lewiston, one of the owners stated that he may protest the racing of an other heat.

CHATHAM TALKS ABOUT FOOTBALL

The Rugby enthusiasts in Chatham are beginning to talk football. St. Thomas' College, the new Roman Catholic institution in that place, will have a team and it is likely that the old Chatham team will be revived. Joe Wood, J. D. K. McNughton and others are taking the matter in hand. U. N. B. has written to Chatham, asking for a game. It is possible that Chatham may come here.

MORE ABOUT THE HAZEN ROADS AND BRIDGES

The following communication appeared in a recent issue of the St. John Telegraph:

To the Editor of The Telegraph: Sir: In your issue of Friday, the 7th inst., I notice where "An Independent Kings County Voter" is giving Mr. Erb a few facts from the Auditor General's Report. Without looking at that report we feel that the statements made about the Ribbon and other bridges are correct, because they correspond exactly with conditions here in York. Just as last November they were turnpiking roads up here in York, so I learned from reliable men, they were turnpiking roads down in Albert and Westmorland during the same month; and just as we had mud almost knee deep to wade through on account of this unreasonable time of turnpiking, so they down there had similar discouraging conditions.

Here on the great road on the east side of the river St. John in the parish of Southampton, we have three consecutive bridges not more than two miles apart that are not only a shame and disgrace on a great road in New Brunswick, but are positively dangerous to the travelling public. The first, known as Fox Creek bridge, has been held up by "shores" or props ever since a freshet tore away the end support. I was wishing all summer, when you had the pictures of those other bridges that you could get one of this. It would put far in the shade any you displayed. The second is Farnham Creek bridge. Let any man (and at least one Tory did) go underneath this bridge, and he will find that the south side is entirely unsupported except by the hardened earth that holds the wheels up on that side. Mr. Pinder, a member of the local, lives in this parish. Word was got to him through Mr. Young, another local member, of the dangerous condition of these two bridges. But, he has taken offence at Mr. McLeod, saying in a store the other day, that, "anything Pinder had to do with there was always a steal." Then Mr. Pinder gets at Mr. McLeod by certain observations which are now public property in portions of York county. And through all this hair-pulling these bridges remain in a condition that calls loudly for competent men. They must either remain the way they are, or be done by day's work by Tory heelers, costing many times what it's worth to do the work.

Then, the third is known as Patterson Creek bridge. A year or two ago it was expended—would have saved this a very few dollars—properly and hon-bridge for many years. But there was no one to apply the "stitch in time." Now accidents (?) are beginning to happen. Only last week one man nearly upset into the gulch below. The next day Mr. John Akerley's horse went through this bridge, and injured one of its legs so that it has been laid up ever since. To complete the farce of this "fake" government, not eighty rods above where this happened, the Tories are "shifting" the road-side just as the leaves are falling—and will no doubt be turning falling—and will no doubt be turning it next month.

Not being cut in August these bushes will grow up again and make another job for the faithful a year or so hence—unless something happens.

Thanking you, Mr. Editor, for valuable space in the interest of the public, and hoping your kodak man may take a run up here on Hazen's trolley line, or come up to Millville and in on Pinder's "Air line," I am,
Yours, etc.,

Grand View, York County, N. B., Oct.

EPISCOPAL CHURCH MAY CHANGE NAME

Cincinnati, Ohio, Oct. 13.—The question of changing the name of the Church to the Holy Catholic Church was on the programme to be brought before the General Conference of the Protestant Episcopal Church today. It was expected that the matter would come before the house of deputies through the report of the committee on the title page of prayer books of the church which was scheduled to make its report. Majority and minority reports were presented by the committee. The majority report refused and the minority favored the change of the name.

CAUSE FOR INDIGNATION.

St. Andrews Beacon.—The Chatham World is punished for its independent attitude towards the provincial government by getting a very small slice of "bulk of the Local Government printing goes to a company in which the members of the Government are stockholders. The insiders get the plums." The Gleaner of Fredericton, is one of "the insiders" that captures the greater part of the provincial printing plums. The auditor's report shows that nearly \$7,000 of government printing fell into its lap last year. Most of this was handed out, without tender, too. Its righteous indignation when any one attacks the provincial government is easily explained.
