

## "Hawes" Von Gal Hats

THE  
SMARTEST  
SHAPES  
FOR  
SPRING  
AND  
SUMMER

The preferred shapes for the present season, still show the flat and medium-flat set brims. In soft hats the style differences are rather more in evidence.

Of course good form and taste dictate the avoidance of extremes, in hats as in clothes. Individuality is of course desirable, and it is this attribute combined with Style, Quality, Superior Workmanship, Finish and Fit, that has placed HAWES, VON GAL HATS first in the favour of smartly dressed men.

Owing to the death of Mr. James Farrell the store of Peter Farrell & Co. will be closed until Thursday, April 21st.

## FRINK ELECTED MAYOR BY ENORMOUS MAJORITY

St. John Civic Elections Passed Off Quietly—Four Aldermen Among the Slain.

St. John, April 20.—Alderman Jas. H. Frink was elected mayor by a majority of more than three to one over Douglas McArthur, and four of the present board of aldermen met defeat in yesterday's civic contest. The victims were: W. E. Scully, alderman-at-large; James Frederick Belyea, who has represented Guys ward for one year; Howard E. Codner, alderman for Dufferin ward, and A. O. H. Wilson, Lansdowne's representative.

The new men in the council will be James V. Russell, Rupert W. Wigmore, Harry G. Smith, John B. Jones, William H. White and John Willet, who returns after an absence of one year.

Mayor-elect Frink led the poll with 3,379 votes, against Douglas McArthur's 997, a majority of 2,382. Among the aldermen John W. Vanwart was high man with 3,100 votes a lead of 1,759 over his opponent, G. Herbert Green. His nearest competitor was Ald. Potts, with 2,385 votes to his credit. Ald. Scully was just 143 votes behind Rupert W. Wigmore who was the fourth successful candidate, at large.

Harry G. Smith, the new representative for Guys ward, was early indicated a winner and he had nearly 500 of a lead over Ald. Belyea.

In Sydney ward, John B. Jones has been chosen to succeed the veteran Ald. Lewis, who voluntarily retired. Mr. Jones led his two opponents all along the line and had a plurality of nearly 2,000 votes.

**ALDERMAN KELLEY.**  
John H. Burley, who last year came within twenty-two votes of Ald. Elkin, was this year given a severe beating, being more than 700 votes behind the representative for Queens.

In Dufferin ward ex-Ald. John Willet turned the tables on Ald. Codner. Last year Mr. Codner defeated him by almost an even 1,000, while this year Willet in a four-cornered fight, had a lead on him of about 300, with Steiper and Coholan trailing along 600 votes in the rear.

Ald. Wilson, after one year's service in Lansdowne, has been relegated to private life and William H. White, an entirely new man in politics, will sit in his stead with the substantial majority of 552 to fortify him.

George E. Day, who last year got within 350 votes of Ald. Holder in Lorne ward, fared even worse this year, being defeated by almost 500.

Alderman Baxter for Brooks ward, Likely for Kings, McGoldrick for Stanley, Sprout for Prince and Hayes for Victoria, were elected by acclamation.

**ABOUT 4,500 VOTED.**  
The number of ballots cast this year was about 600 short of last year but considering the disagreeable weather and the large number of names struck off the lists for non-payment of taxes, it is considered very good. There is no doubt that the ward workers did their best to induce as many as possible to go to the polls. In all there were about 4,500 votes polled, though apparently more than 100 of these did not vote for mayor.

## HERBERT W. READ WAS SHANGHAIED

Montreal, April 19.—Herbert W. Read, who disappeared from the streets of Montreal Nov. 3, arrived in New York today and is again joined to his anxious family. From that date till a month ago not the slightest trace of him had been found, although a large reward was offered, and the best detectives available were hired by the distracted father.

Then he was heard of at Buenos Ayres, where he was not able to explain clearly how he came there, although he said it, was by a sailing vessel. The British consul there, at his father's instructions, helped him, and he took the first boat for New York, which he reached today. The despatch from New York says:

New York, April 19.—On board the steamship Byron which arrived today from Buenos Ayres, was Herbert Read the young man from Stonehaven (N.B.) who disappeared Nov. 3 in Montreal under peculiar circumstances. Mr. Read refused to discuss his trip to South America or the manner in which it was made, but he did not deny the story which was circulated at the time, that he had been shanghaied and carried south against his will.

He was met at the pier in Brooklyn by relatives and friends, who greeted him warmly and who took him away with them. They declared he was going home immediately. The purser of the Byron said that no one on board had heard anything unusual concerning the way Read reached Buenos Ayres and that beyond the statement that he had been to Brazil on a vacation Read had not disclosed anything connected with his presence there. He added that Read

## GREAT ADVANCE IN POSTAL DEPARTMENT

Offices Have Been Increased in Number and Since 1896 Large Deficit turned into Surplus of \$809,236.

(Toronto Globe.)

The Dominion Minister who escapes charges of maladministration in the management of his department, may consider himself fortunate. This is the happy position of Postmaster-General Lemieux. Mr. Armstrong of Lambton, Mr. Barker of Hamilton, and others who have been criticizing him as unprogressive and illiberal; that is a charge too vague and pointless to do him any injury, but it is not difficult to show that it is also quite groundless. The work the department has been expanding rapidly within the past few years, and it is difficult to keep pace with its requirements, but much has already been done in the way of improving the service, and more will be undertaken without needless delay.

The Laurier Administration has been in charge of the public services of the Dominion since 1896. In that year the Postoffice management had a deficit of \$781,152; in 1909 there was a surplus of \$809,236. During the same fourteen years the number of postoffices increased from 9,103 to 12,479; the number of money orders and postal note offices from 1,310 to 10,317; the number of postoffice savings banks from 755 to 1,102; the number of miles travelled yearly from 30,551,683 to 45,298,222; the number of letters carried from 116,028,000 to 414,301,000; the total number of articles carried from 177,178,136 to 542,507,440; the amount transmitted by money orders and postal notes from \$13,081,860 to \$57,740,623; and the number of postal savings bank depositors from 136,442 to 155,895. These statistics show conclusively that the Postoffice has been extending rapidly to meet the requirements of an expanding country.

One of the complaints often made is that the employees of the Postoffice in the outside service are both underpaid and overworked. If the implication is that nothing has been done for them the suggestion is false. The salaries of postmasters were substantially increased less than three years ago, and last year both the letter-carriers and the clerks received increases. Some years ago the rate of payment to railway mail clerks was changed for the better, and it has already been announced in Parliament that when the salaries of the whole outside service comes up for revision next year those of the railway mail clerks will be dealt with. The members of the Opposition have not made reasonable allowance for the difficulties that have prevented still more rapid progress, but so long as their criticisms go no farther than they have gone no one is likely to feel much aggrieved about them.

## SUICIDE IN ST. JOHN

St. John, April 19.—Leaving behind a wife and three small children, John Condon, of Brussels street, took leave of life yesterday by swallowing the contents of a carbolic acid bottle. He killed himself in Rockwood Park being found lying on a boat landing near the foot of the amusement chute.

had made himself popular with both officers and passengers on the trip north.
