## MORE HOPEFUL OUTLOOK FOR STRIKE SETTLEMENT

**Representatives of Express Companies to Meet Men This Afternoon at Jersey City and Endeavor to Arrive at an Understanding--Both Sides Said to be Ready to Make Concessions.**

New York, Nov. 3.—The movement for a settlement of the strike of express company drivers and helpers which has practically tied up express business in and around New York City for a week, past, took more definite form today with the announcement that representatives of the companies would meet representatives of the men this afternoon to discuss plans for ending the strike. The meeting was scheduled to be held in Jersey City at 3 o'clock. Indications are that both sides will enter the conference with a willingness to concede something and prospects for a looked bright.

Earnest effort to adjust grievances and a resort to arbitration if the joint conference failed of agreement, seemed to be the programme. Pending the proposed meeting, this afternoon, no developments were looked for in the arbitration proposition made by the men through the National Civic Union mayor Gaynor yesterday.

The companies seemed to prefer meeting the men's committee first and trying for a direct adjustment before placing their interests in the hands of arbitrators.

The companies claimed considerable progress toward clearing up the congestion as a result of yesterday's movement of wagons. They planned yet more extended operations today under the usual police protection. No early disorders of moment were reported.

the endeavor of the daring New York aeronauts had been successful, and mingled with the shout of joy for the safety of the men were acknowledgements from other competitors for the coveted prize that they were defeated. The spot where the America II. came to earth is, according to a

## NEBRASKAN LAND GRABBERS CHARGED WITH CONSPIRACY

**Federal Grand Jury Returns Indictments Against Nine Ranchmen For Attempting to Drive Out Homesteaders at the Point of Guns--In One Case a Home was Destroyed and Family Turned Out.**

Omaha, Nov. 3.—Indictments returned by the Federal Grand Jury against nine ranchmen of Western Nebraska were made public today. The indictments charge conspiracy to drive from their claims at the points of guns, homesteaders who took sections of semi-arid land under the Kincaid Homestead Law. Several ranchers, Yeast and his associates among them, depended on this land for their hay. These indicted are Perry S. Yeast of Hyannis, Neb., his son Frank W. Yeast, Leslie E. Ballinger, W. G. Habbell, Emil Anderson, Wilmot Z. Emmerson, Harry Sutton, Bonne B. Hawthorne and Dr. Harry H. Huff. Dr. Huff, a prominent physician and Mr. Sutton, a county attorney of Garden County are members of the Insanity Board. Yeast, one of the largest ranchers in the state was convicted two years ago of fraudulently securing title to homestead land and paid a fine and served a jail sentence.

According to the charges made in the indictment Yeast and his associates carried their efforts so far as to secure the incarceration in the insane asylum at Hastings, Neb., of one of their alleged victims. The indictment charges that a band of about thirty persons, headed by Yeast went to the homes of many of the homesteaders and by intimidation and threats of taking their lives and those of their families, forced them to leave their claims.

The specific case of J. Davisher is mentioned in detail. It is charged that Yeast and the other defendants

accompanied by a band of cowboys, visited Davisher's, and after threatening the family with death if they did not leave the country, destroyed his home, broke up his machinery, cut his harness to pieces and in other ways mistreated him. Later, according to the indictment, Yeast conspired with the members of the county insanity board and secured Davisher's incarceration in the asylum.

This latter act, according to the indictment, was committed in a high-handed manner. The insanity commissioners, it is alleged, went through a mock examination, declared Davisher insane and issued a warrant for his arrest. This was served on the spot and within an hour he was rushed off to the asylum without being permitted to have the advice of counsel.

Davisher's case was brought to the attention of the superintendent of the institution, who conducted an examination into the case. He at once decided that Davisher was not insane and the latter was released by habeas corpus proceedings.

According to an official order from the department, the present indictment covers one of the most remarkable attempts at land grabbing that has recently been brought to the attention of the department. A letter written by one of the victims to President Taft is said to have caused the investigation which resulted in the indictments being returned.

A special grand jury was summoned to consider the evidence.

## REVOLUTIONARY OUTBREAK IN HONDURAS

New Orleans, Nov. 3.—Cablegrams were received last night from Honduras, confirming the Associated Press dispatches of the revolutionary outbreak at Amapala. That the United States will, within the next few days, take an active part in ousting General Jose Valladares, the leader of the rebellion, from his entrenched position on the little Island of Amapala, is the belief of the business men of New Orleans, who are more or less interested in Central American trade.

The Honduran government has a very small army and as Valladares has several machine guns, it is thought that President Davila will ask the assistance of the United States government in its efforts to get rid of the trouble maker of Amapala.

The friends here of former President Manuel Bonilla assert that he has no connection with the revolt of Valladares.

Noted for his hatred of foreigners, Valladares recently publicly announced that he had named his dog "Taft" in order to show his contempt for the American government.

Washington, Nov. 3.—Martial law has been declared in Honduras, as a direct result of the revolt of General Jose Valladares, the deposed commandant of Amapala, against the government, according to cable advices to the state department today, from Minister McCreary at Tegucigalpa. The port of Amapala has been closed and the island is in a state of siege.

President Davila is preparing to send an armed force against Valladares and in the event of the government's failure to restore order on the island, the United States government will probably be asked to interfere. Commander telegraphed as follows:

"The commandant at Amapala, has informed the United States that he has no intention of injuring foreign subjects or foreign property. There is no disorder at present."

Little faith is put in Valladares' promises by official of the United States government and the Princeton has instructions sufficiently liberal to permit her commander to meet any situation that arises.

The Canadian wheat crop is now estimated at 122,785,000 bushels.

## ADVOCATES FREE TRANSPORTATION FOR HOBOS

Chicago, Nov. 3.—Several of the oldest traditions of trampdom were shattered last night by James Eads Howe, the "Millionaire Hobo," and National organizer of the Brotherhood Welfare Association. In an address before the members of local branch of the association, he advocated shower baths, fumigation, work for the unemployed and "cushions" to ride on.

Howe reported the association to be flourishing in St. Louis, Kansas City, Cincinnati and New York. He secured a unanimous vote on a resolution to appoint a committee to confer with railroad presidents, regarding free transportation on the passenger coaches to hoboes en route to points where labor is in demand.

The committee also was empowered to start a movement toward a National Free Employment Bureau.

## JACK JOHNSON WAS STUNNED BY A BRICK

Chicago, Nov. 3.—In riding to the depot yesterday in a non-union taxicab, Jack Johnson, heavy-weight pugilist, was struck by a thrown brick and a large gash cut in his forehead. The champion, who received a message from his attorney in New York, urging him to hasten east, summoned the first cab he could find and started for the station.

As the cab turned into Vanburen street from Clark, where a crowd of union drivers had congregated, someone threw a brick through the window, which struck Johnson and stunned for five minutes.

The driver of the cab hastened to the depot under police protection and Johnson had his wound dressed in a drug store.

Johnson was called to New York by his attorney to appear in court tomorrow as defendant in a suit which a theatrical concern has brought against him for \$5,000 for alleged breach of contract.

## PROFIT SHARING SCHEME HAS BEEN DISCONTINUED

Washington, Nov. 3.—Antagonism on the part of trade unions to the profit sharing idea of co-partnership relations between employer and employee, has resulted in the discontinuation of an interesting departure in shipbuilding, undertaken in 1908 by Sir Christopher Furness with about 3,000 employees, according to a report received here from the United States Consul General at London. Though guaranteed a four per cent. return on their investment in addition to a five per cent. share in the profits the members of the co-operative organization by a majority vote recently dissolved the system. The idea was conceived as a possible solution for trade disputes. In its stead there has now been established what is known as the work council, a board whose function is the promotion of friendly connections between the firm and the employees.
