OUT ON DEPOSIT
Two drunks arrested last night obtained their liberty this morning by making the usual deposit.

INVITED TO REMAIN
Rev. W. R. Robinson, formerly of Gibson has been invited by the congregation of Ludlow street Baptist Church St. John to remain another year.

WILL PREACH TOMORROW.
Rev. H. R. McGill, a U. N. B. graduate, now of Rochester, N. Y., will occupy the pulpit at the George Street Baptist Church at both services tomorrow.

Y. M. C. A. REPRESENTATIVE.
Mr. Chas. W. Bishop, student secretary of the International Committee of the Y. M. C. A., will be at U. N. B. Monday. Mr. Bishop has already visited Acadia, Dalhousie and Mt. Allison.

UNFORTUNATE ACCIDENT
Prof. Stephens of the U.N.B. faculty yesterday had the misfortune to trip and fall down stairs at his residence, Charlotte street. He sustained injury to his back but is expected to be about in a few days.

OFFICIALLY NOTIFIED
His Worship Mayor Thomas has received official notice that the Organizing Committee of the Imperial Order of Daughters of the Empire will be in Fredericton on Thursday, October 20. This committee is making a tour of the Dominion for the purpose of strengthening and extending the order.

NATURAL HISTORY SOCIETY.
The October meeting of the Fredericton Natural History Society will be held on Monday evening next at 8 o'clock in the Assembly Hall of the Normal School. Dr. Bailey will address the meeting on "What the Rocks have to tell us." All persons interested are cordially invited to be present.

GOING TO STRATHCONA.
Prof. Dyde, for twenty years a member of the faculty of Queens University, Kingston, has been appointed principal of the Presbyterian College at Strathcona. Prof. Dyde was at one time a member of the faculty of the U. N. B., and delivered the alumni oration at the last convocation.

HALIFAX EXHIBITION.
The total number of paid exhibitions at the Halifax exhibition, closed on Thursday, was 43,215, against 39,248 for the previous year. In each case the show was kept running eight days. The Chronicle announces a deficit of \$16,000, which amount will have to be made good by the City and Local Government.

DONATED A CLOCK.
Mr. G. E. Wade, of Gibson, has presented the Fredericton Business College with a valuable school clock. His son, Eldon, recently completed a commercial course at the institution and has returned for the short-hand course. His daughter is also a student at the institution. The high opinion Mr. Wade entertains for the College as a place where young people may obtain a training to fit them for the battle of life, prompted his act of kindness.

OF INTEREST HERE.
Mr. Thomas Martindale, of Philadelphia, has recently published a book entitled "With Gun and Guide in New Brunswick," a copy of which has been received here. It is a volume of 225 pages and contains a most entertaining account of a three weeks' hunting trip to the Miramichi woods, made in company with Mr. Henry Braithwaite, the veteran guide of this city. Mr. Braithwaite's views on religion and various other topics are also set forth in a very interesting manner.

AROUND THE MARKET
Although weather conditions have not been favorable during the past few days, there was a good sized market this morning. The variety of produce was large and good prices obtained. Eggs were on the scarce side and brought 27 and 28 cents a dozen. Butter sold at 24 cents per pound. Other prices were about as follows: potatoes per bbl., \$1.00; apples per bbl. \$2.50 to \$3.00; lamb per lb. 10 to 12 cents; chickens per lb. 75c to \$1.00; pork per lb. 11 and 12 cents; beef per lb. 8 cents; turnips per bbl. 50 cents; carrots per bbl. 50 cents; onions per peck 25 cents and cabbages per dozen 30 cents.

Mrs. Birdsell Estabrooks, of St. John, is spending a few days with friends in this city.

CHANGES IN I. C. R. TIME TABLE WILL BE VERY SLIGHT

Proposal to Alter Train Service on Fredericton Branch Will Not be Carried Out.

It has been announced that there will be no radical change in the I. C. R. train service as far as Fredericton is concerned. It had been reported that the proposal to keep the Ocean Limited on during the winter and take the Maritime Express off, would entail the running of a train out of Fredericton in the morning and another at night, thus reversing the service. No change will be made this year, however, and the announcement has been received with joy by local merchants, as it is recognized that the I. C. R. trains bring a large amount of trade to this city, a trade which would be seriously interfered with by the proposed change.

The new time-table, which is to go into force on the I. C. R. on Sunday, October 23rd, has been received here. The morning express from Loggieville will arrive at 1.10 p. m., instead of 11.25. The express for Loggieville will leave at 6.30 p. m., as at present.

Mr. George Y. Diblee, secretary of the Transportation Committee of the Board of Trade, has been in communication with officials of the I. C. R., and was informed that any changes to be made in the time-table of the Fredericton Branch would be very slight.

MR. EVAN PRICE HERE.
Mr. Evan Price, of Campbellton, divisional superintendent of the I. C. R., is among the visitors to the city today. When asked if it was proposed to make a radical change in the train service on the Fredericton Branch, he said he had no information to give out. The matter he said, was one for the Board of Management to deal with, and he understood that a meeting was being held in Moncton today.

PROGRESS MADE AT CAMPBELLTON.
Mr. Price said that the work of re-building the round house, power station and machine shop at Campbellton was being rushed along with all possible speed. At the present time there are 175 men on the job. The buildings are to be substantial structures of concrete and brick. They

LOGS WILL HARDLY COME OUT THIS YEAR, WATER LOW

Intention is to Hold Logs at Van Buren After Sorting Them Out.

The only thing which will make a fall-drive possible on the St. John River is heavy rain which will continue for some time. There is little hope for that now but Contractor John S. Scott who was in charge of the Corporation Drive this year is ready to make the attempt to bring more logs out if there is the least chance.

At present 15,000,000 feet of lumber is hung up on the upper river. Part of this is in the neighborhood of Edmundston and part is at Grand Isle. At present the intention is to put on large crews of men and bring the logs out to the St. John Lumber Company's booms and sort them there. The logs of that company will be retained and the others driven to Van Buren with the intention to hang them up for the winter.

The mills in and about St. John are expected to stop sawing shortly the scarcity of logs being the cause. It is thought that the logs now hung up will come out safely next spring.

PHILADELPHIA SPORTSMEN ENJOYED HUNTING TRIP

Mr. Thomas Martindale, author, merchant and civic reformer of Philadelphia, has completed a successful hunting trip on the Nepisiguit River. He had Mr. Chas. Cremin, of this city, as guide, and was successful in getting a nice moose. In a letter to The Mail, written from his camp at Moosehead Lake, Mr. Martindale says: "I had a very pleasant and satisfactory trip, with Charley Cremin, and when I get settled in my own camp I intend writing it up. Deer are plentiful here but moose quite scarce. Some people think the latter are migrating to New Brunswick. Next fall I expect to take a trip to the upper Yukon, 275 miles above the White Horse Rapids."

Miss Helen Morrison has gone to Philadelphia on a visit.

hope to have the round house ready or use by the middle of next month. In regard to a new station, work on it would not begin until next spring.

Amatite ROOFING

No more paint for me! I've now covered every roof on my place with Amatite.

To buy a roofing that requires painting is inviting trouble. Painted roofings are as out of date as the harvester machinery of thirty years ago.

The roofing of to-day needs no painting. That's one of its great features.

If you are still using the "old rubber kind," the kind that requires painting every year or two to keep it tight, we want to tell you about Amatite; why it needs no painting; why it wears longer than the "smooth surfaced" roofings, and why it costs less.

First—Its chief ingredient is Coal Tar Pitch—not a "secret compound" but a well known, long tested material, recognized by engineers as the greatest waterproofing material known. Two layers of this material are used in every sheet of Amatite.

Second—We use two layers of the best grade of wool felt to hold the pitch in place. This wool felt gives tensile strength to the roofing, and is the best material known for that purpose.

Third—On top of these four layers is a real mineral surface. This surface requires absolutely no painting, and adds materially to the life of the roofing. It is fire retardant. It is permanent.

We want to send you a sample so that you can see what a solid, substantial waterproof roofing Amatite really is.
