Give your servants **GOLD DUST** to clean with, treat them rightly and you will have few occasions to insert a "help wanted" ad

They say a good workman is known by his tools. You cannot expect your maid to keep everything ship-shape unless you give her every modern help. To keep house without **GOLD DUST** is to do work by hard, old-fashioned methods. For cleaning everything and anything about the house—from cellar to attic—**GOLD DUST** is worth its weight in gold. It cuts grease and dirt like magic, does away with scouring and scrubbing, and saves time and tempers.

Your servant can do more and better work and keep sweet with the aid of **GOLD DUST** in all household cleaning.

# MILLION DOLLAR DEAL TO GIVE WEST CANADA FRESH DAINTIES

Outright Purchase of Big Winnipeg Organization by W. J. Mooney will Result in Dominion-Wide Improvement in Baking and Candy Industry.

The influx of settlers into Canada, the extraordinary demands from distant sections for fresh bakery and candy dainties of high grade and the necessity for a revision of trade conditions have brought about a big industrial deal, involving an outlay of \$1,000,000, which has just been consummated by W. J. Mooney of Stratford, Ont., in the outright purchase of Foley Brothers, Larson & Company's entire organization, the largest in Western Canada, for the purpose of merging it with the Mooney Biscuit and Candy Company.

This far-reaching move brings the bulk of Canada's production in the baking and candy industry under a single organization. Announcement of the purchase and impending consolidation were made today by officials of the newly formed organization. The merger will take effect immediately, the Winnipeg plant of Foley Brothers being placed completely under the supervision of W. J. Mooney, who formerly superintended the operations of the Stratford plant of the Mooney Biscuit and Candy Company.

Rapid and economical delivery of food products will be effected by the move, it being considered in absolute necessity in the face of trade conditions which have been brought about by the invasion of thousands of settlers and the growing demand for Mooney products fresh from the ovens.

The organization will be under the supervision of W. J. Mooney and W. C. Mooney, the former assuming complete managerial duties of the Stratford plant.

It has been pointed out by officials of the organization that the demand for Mooney products from Western Canada had been growing at such a rate that greater facilities were needed to take care of the business in a satisfactory manner to comply with the Mooney policy of fresh goods for the trade.

Under conditions previous to the consolidation from two to three weeks time was necessary to reach some of the outlying districts within the large trade circle over which control was exercised by the organization. With the plant at Winnipeg running in full blast, it is now possible for the organization to supply with ease large demands for goods at less than a day's notice, so that the demands of Western and North-western Canada for fresh dainties from the famous Mooney plants will be complied with in a gratifying manner.

Additional land adjacent to the Winnipeg factory has already been purchased with the certainty in view that large extensions will be necessary to take care of the increasing

necessity for larger productions.

With the announcement of the merger comes the news that the new organization will make an extensive trade invasion into Western Canada, where the many alluring features of the famous Mooney products will be prominently set forth by an advertising campaign, said to be the largest campaign ever promulgated by a like industry.

The idea of this advertising campaign will be to acquaint the public of that section with the deliciousness and freshness of the delicacies which the name Mooney has made famous in Canada. The western invasion means that the entire Dominion will be blanketed by the trade development of the new organization and the sterling business methods that in years past have been the property of the Mooney Company, will be promulgated into the new territory in the same manner that the organization has gone into other territories with a view to intelligently telling Canadian homes of the goodness of Mooney products.

Improvements in methods of producing fresh dainties will also be brought about by the merger, this being made possible by the development of Mooney processes and general improvements in the industry.

W. J. Mooney in an interview said: "This consolidation of the largest concern in Western Canada with the Mooney Company, I believe, is a long step in the work of Canadian development and the benefits to the parts of the Dominion in which the new organization does business will be felt in no uncertain manner. It means quicker deliveries of the Mooney products to all points within a wide circle and means, eventually, a far-reaching stride in the development of the industry, generally."

"The placing of W. J. Mooney in charge of the Winnipeg plant is evidence of the earnestness of our intention to greatly improve industrial conditions in the section into which we have just gone. Mr. Mooney will have entire charge and the results which will come from his efforts can best be forecasted from the exceptional work that achieved the place reached by this company in the commercial world."

"As to the invasion of Western Canada, a large advertising campaign will be the initial move, undoubtedly, although plans have, as yet, not been materially shaped so that we can foretell just what will result. We look forward to an astonishing success as a result of the consolidation for, with a meritable product that is constantly in demand wherever introduced, there is little opportunity for any other than steps forward by earnest men working together."

## THE MAIL'S MARKET REPORT

BUTTER TENDING TO LOWER LEVEL

Montreal, July 28—The butter market is slowly but steadily tending downwards, owing to the large quantity offering which is likely to be greatly increased in the near future on account of decline in the demand for cream for shipment across the line to points in the United States.

Exporters state that there is no business doing with Great Britain at present prices, only twenty-one boxes being shipped out last week, and the prospects for the trade are not at all encouraging unless prices get down to a lower level.

## NEWSPAPER "AD." BROUGHT FORTUNE

Kingston, Ont., July 26—A small advertisement in a city newspaper has brought fortune to William Newman of the city. Mr. Newman a few days ago received from Dublin, Ireland, a draft for a very handsome sum, amounting to some thousands of dollars, from Solicitor E. S. McNab, who is administering the estate of Letitia Newman, cousin of William Newman, who died in Dublin in June, 1909, just about a year ago. The story reads almost like a romance. A New York advertising agency caused to be inserted in a local paper some months ago, an advertisement telling of the death of Letitia Newman, and calling for heirs and next of kin. The advertisement was seen by William Newman and his family, and they got into communication with the Dublin solicitor, with the result that last week the draft arrived.

When the Government of the United States declared war on Great Britain in 1812 Gen. Wm. Hull was governor of the territory of Michigan to which position he had been appointed in 1805.

For 26 days ending on Saturday last the temperatures at New York averaged 77 degrees, which means is three degrees higher than July normal, and has very rarely been exceeded in summer records here.

10 1/2c., and the balance, which were colored, fetched as high as 10 1/2c. per lb. There was a good demand, most buyers being active at the price.

Sterling, Ont., July 27—There were about one thousand boxes of cheese all white, sold here today, the bulk of them at 10 1/2c., and about two hundred boxes at 10 1/2c.

Receipts of butter were 192 packages, against 881 a years ago. The local market is easy, with choice quality quoted at 22 1/2 to 22 3/4c. lb.

## CENTRAL RAILWAY CASE UP FOR HEARING YESTERDAY

Dr. Pugsley's Demand for an Account is Resisted by Other Directors—Judge Reserves His Decision.

(Telegraph.)

At the sitting of the Chancery Division here yesterday morning, His Honor Chief Justice Barker presiding, argument on the demurrer of Charles A. C. Bruce to the plaintiff's bill in the case of Hon. William Pugsley vs. the New Brunswick Coal & Railway Company, was presented. M. G. Teed K. C., appeared for Mr. Bruce, and Dr. A. O. Earle, K. C., and Dr. W. B. Wallace, K. C., for Mr. Pugsley.

In presenting the case for Mr. Bruce, Mr. Teed argued that, as Mr. Pugsley had ceased to be attorney general, he had no interests in the company, and that therefore he could not bring any suit against the company; secondly, that Hon. Mr. Pugsley had no interest anyway, even as a director of the company, as according to law a director cannot bring suit against a company, only the company itself or the government being allowed to do this; thirdly, as the bill alleges that the monies were all expended for the purposes of the company, and that no person is charged with fraud, the application will not stand.

Dr. Earle, for Dr. Pugsley in reply, contended that the wording of the bill did not include successors; secondly, that the act by which the company was formed contemplated a supervision of the governor-in-council over the affairs and expenditures of the company, and that the attorney general and provincial secretary were appointed directors of the company ex-officio, without stock, for the purpose of the act, and were therefore trustees, and although out of office, were entitled to an account; thirdly, that as a commission had been appointed under the statute to investigate the affairs of the company and report to the provincial secretary and as such commission had reported a deficiency to the plaintiff, this entitled him to an account so as to perpetuate testimony.

Dr. Earle also contended that the company could not bring any action as it had given all its rights and franchises to the government under the act of 1905; the present government could not take any action as they had paid the monies to the company.

Judgment in the case will be delivered later.

## PRESCOTT LUMBER DEAL AT LAST PUT THROUGH

Charles T. White, Sussex, the Purchaser; Price Said to Be \$80,000

Hopewell Hill, July 27—The big West River lumber property of G. D. Prescott, M. P. P., has been sold to C. T. White, of Sussex. Negotiations for the sale of this property, consisting of timber lands, mill and store, have been in progress for some time, and the deal was recently completed, the purchase price being, it is understood, in the vicinity of \$80,000. The timber area includes about 10,000 acres, besides a large acreage held under permit from the government.

Mrs. Nathaniel Peck has bought the residence and lot at the Hill for some time owned by Jos. D. Newcomb. The latter is now residing on the property that he recently bought at Hopewell, formerly belonging to Perley Peck.

Miss Mattie Tingley is recovering from an attack of fever.

## STOP OVER PRIVILEGES WILL BE CANCELLED

Chicago, July 27.—Railroads covering nearly every section of the country have decided to discontinue after October 1, the practice of granting stop-over privileges on limited tickets whenever such stop-over operates to extend the original limits of the tickets etc. The roads have been trying to reach an agreement on this point for more than a year for the reason, they say, that the practice has increased by leaps and bounds, until the prescribed limits of the tickets have been exceeded for all sorts of trivial causes.
