## DOMINION PARLIAMENT WILL MEET THURSDAY

A Great Deal of Important Legislation Will be Brought Down During the Session--The Banking and Insurance Bills Included in the List--Branch Line Railway Report Will Also be Considered.

Ottawa, Nov. 14.—The third session of the eleventh parliament of Canada, which opens on Thursday next, promises to provide some new statutes and possibly something new in politics. It is difficult to predict what will transpire between the opening and prorogation, as has been well demonstrated by Earl Grey, for, believing that his last hour had come, his excellency's final words to the departing law-makers last spring were: "It is not without many twinges of the heart that I realize that this is the last occasion on which I shall have the honor of meeting you officially."

In view of the fact that there will be an election two years hence it is certain that the opposition will endeavour to come to some sort of a harmonious understanding with themselves and that the government will strive to further entrench itself in the good opinion of the people in view of that event.

For the first time in the history of the Canadian parliament it will find that the printing bureau has ready for its consideration the annual report of every department and the voluminous work of the auditor-general. The main estimates will be laid before parliament soon after the opening, so that there will be no occasion for short sittings, or idle moments before Christmas.

The finance minister will have a bill relative to timber lands and water regulations in the railway belt of British Columbia and another bill to facilitate the removal of Indians from lands which they occupy and which are wanted for settlement to equally good lands in other parts of the country. There will be another to increase aids to Indian schools.

Sir Richard Cartwright will probably have a bill dealing with the control of terminal grain elevators, and this will likely be based on the Minnesota act.

Hon. Mr. Aylesworth will have a bill relating to the establishment of a commission to look after fishery regulations under the term of the recent Hague award. He will also have some amendments to the criminal code, and in this connection the Moral Reform Association will probably have something to say again to the further restriction of race track gambling.

Hon. Mr. Templeman will have a bill to promote safety in connection with the manufacture, transportation and use of powerful explosives.

Hon. Mr. Fisher will have a bill to amend the copyright law, so as to give Canada greater control.

**I. C. R. BRANCH LINES REPORT.**

Hon. Mr. Graham will probably introduce legislation respecting a commission to regulate rates on international traffic passing between Canada and the United States. He will also present to parliament the report of the commissioners who examined the branch lines of the Intercolonial Railway with a view to their acquisition.

He may ask parliament to make an appropriation for the deepening of the Welland canal, for the construction of the Quebec bridge, and for the building of the Hudson Bay Railway. There will be no provision this year for the construction of the Georgian Bay canal.

Hon. Mr. Lemieux may have a bill for the control of cable rates, as he has been working out this problem in connection with the British postal authorities.

Hon. Mr. Murphy will have a bill for the reorganization of the printing bureau, and will lay before the house the results of the investigation which he conducted last session.

Hon. Mr. Brodeur will ask parliament for appropriations to enable him to carry on the work of deepening the St. Lawrence to thirty-five feet.

### DEVELOPMENT OF ST. JOHN HARBOR

Hon. Dr. Pugsley will ask for funds to enable him to continue the great work of developing water terminals at Fort William, Georgian Bay ports St. John and other Atlantic ports. He will also ask for a dry dock subsidy at Montreal and possibly at St. John and Lewis.

Sir Frederick Borden will be able to give to parliament the report of Sir John French on the Canadian militia and may have a bill to enable the system of military commands to be substituted for the present system of military districts. If this bill is presented it will be necessary to make financial provision for the equipment of additional artillery and cavalry units for some of these commands.

Parliament will likely have something to say about the tariff in view of the reciprocity negotiations with the United States, which will be completed and laid before parliament before prorogation. There will also be some discussion on the Belgian and Italian trade agreements which were made since the last session.

A substantial appropriation will have to be made at the request of Hon. Sydney Fisher for the census which will be taken throughout Canada in June 1911.

Representatives from the maritime provinces can be counted upon to bring up the question of an amendment of the British North America act, which will act as a stay upon their diminishing parliamentary representation.

Contractors for cruisers and destroyers will be let before the session has far advanced and there will have to be an appropriation to provide for expenditure on that account.

The session will probably last for a full six months and prorogation will doubtless be planned to enable the government to participate in the ceremonies at the Coronation of King George on June 22, and the Imperial Conference which will follow that event.

## TELLS THE PUBLIC THE REASON WHY

Quebec Man Cured by Dodd's Kidney Pills

Of Rheumatism, Gravel and Diabetes, Says he Wants Other Sufferers to Have the Benefit of His Experience.

Rousseau Mills, Portneuf Co., Que., Nov. 14—(Special).—"Tell the public Dodd's Kidney Pills cured me of Gravel, Rheumatism and Diabetes." These are the words of Seraphin Carpentier, of this place.

"For ten years I suffered," Mr. Carpentier continues. "Then I heard of Dodd's Kidney Pills and decided to try them. Almost from the first they relieved me and now all my Gravel, Diabetes and Rheumatism have entirely left me."

"I want others to know what cured me, because I do not want them to suffer as I have suffered."

There are thousands of just such living proofs in Canada that Dodd's Kidney Pills always cure Kidney Disease. If you take the disease early they will cure it easily and quickly and you will be saved much suffering. If you have neglected it and let it reach its more dangerous stages, such as Gravel, Diabetes or Bright's Disease, Dodd's Kidney Pills will cure it. They never fail.

## RECIPROCITY CONFERENCE COMES TO AN END

Ottawa, Nov. 12.—The adjournment of the reciprocity conference yesterday until next year, and to Washington, is according to the prediction of this correspondence. The meetings at Ottawa have enabled the representatives of each country to get some idea of how far the other is prepared to go and along what lines reciprocity may be worked out. The whole thing has been largely a preliminary discussion, upon which the future negotiations will be based.

MR. CHARLES M. PEPPER.

That the negotiators are satisfied with what has been done and have hopes for the future is indicated by the statement of Hon. Mr. Fielding, that "On the re-assumption of negotiations we have strong hope that an agreement will be reached that will prove acceptable to people on both sides of the boundary line," and the statement by Mr. Zepper, "that we leave Ottawa feeling that the outlook is good for a successful issue when we resume negotiations at Washington."

For political reasons both the Canadian and American representatives were willing to take a rather substantial adjournment. In Canada there has been a good deal of opposition voiced to any reciprocity treaty at all and the government would not at all object to waiting until the members of Parliament have gathered from all over the country to ascertain what the majorities sentiment is. Much of the opposition which has developed so far is from quarters which are open to suspicion of being actuated by self-interest.

HENRY M. HOYT  
PHOTO BY MILLER

The Democratic victory in the United States on Tuesday may have had something to do with the adjournment. While the Democratic majority will not take its seat in the American House of Representatives
