PAVILION COLLAPSES BURYING SPECTATORS

One Hundred People Watching Boxing Match are Precipitated into Great Salt Lake when Floor Gives Way.

Salt Lake City, Utah, May 13.—More than a hundred men and women crashed through the floor of Saitair Pavilion in a wild panic last night and were plunged fifty feet below, into the grimy water of Great Salt Lake. Many of them were badly injured. It was on this pavilion that it was proposed to hold the Jeffries-Johnson fight.

Three thousand men and a number of women saw cyclone Johnny Thompson whip Peter Sullivan and then the rush to get away started. One hundred or more were massed on the steps when they crashed and sank to the floor of the amphitheatre. An instant later the wood broke through the floor and they dropped into the water. Many tried to jump out of the window. Struggling to get out of the water and fighting loose from the wreckage the half submerged fight fanciers, among them four women, cried for help. Ropes and boats were used in the work of rescue and one by one the victims were drawn from the bottom. At last the swinging lanterns on the bows of the boats revealed nothing but floating head-gear.

The injured were placed on the floors of the improvised hospital cars and the entire crowd were hauled back to the city.

YELLOW MEN BEING SMUGGLED INTO U. S.

A problem with which the government has to contend is the smuggling of Chinese and Japanese along these borders, the vast territory to be covered making the work an especially difficult one.

He plans to return at once to Montana in an effort to extract this amount from his copper mines. Heinze's trial lasted more than two weeks. When the jury brought in the verdict of acquittal, the throng of Heinze's friends in the court room many of them from Montana, cheered and yelled hysterically. In some instances a delay has been granted to permit a settlement of their affairs, but all those marked for expulsion must leave the city before June 14th. The order of expulsion was issued as a result of an agitation which began in the duma and originally provided that the expulsion should take place on April 28th last. Subsequently the order was suspended by Premier Stolypin to permit a further examination of Jewish claims of residence. The order applied to other cities and towns where Jews are residing without the pale and local commissions were appointed to revise the list of those affected by the order with the expectation that a large proportion would be allowed to remain undisturbed. The Jews remaining in Kiev will be allowed to occupy summer houses outside the city only on permission from the authorities.

SETTLER, WIFE AND FAMILY ENDURE MANY PRIVATIONS

Forest Fires Cause Them to Leave Home and for Five Days They Wander About Almost Without Food, and are Alternately Burned and Frozen.

Grand Manais, Mich. May 13.—John B. Elvine and his wife, with their young baby, together with their six other children, the eldest of whom is 15 years, have reached here in an almost famished condition after a thirty miles trip through the forest between here and Upper Brule Lake. It took them five days to cover the distance and they were alternately almost burnt and frozen to death. One of the smaller children was saved from drowning in the swift current of the Brule River by the family's Newfoundland dog.

When Elvine and his family were routed from their beds Sunday morning by advancing forest fires they beat a hasty retreat with a small stock of provisions. After tramping for three days in an effort to escape from the burning timber they found themselves entirely surrounded by fires. Elvine with his hand axe cut limbs from trees on the bank of the Brule River, sought a favorable place in the stream and stationed himself and his family, knee deep in the cold water beneath a wetted screen of underbrush which they saturated from time to time until the fire burned out.

C. P. R.'S BIG EARNINGS

The rise to 190 in C. P. R. is not much of a mystery when the net earnings are inspected. For the nine months ending March 31st, the total was \$21,581,665, against \$16,996,779 for the same period last year.

A factor which should not be overlooked, in connection with past operations by the Canadian Pacific, is the liberal return that has been received by stockholders in the form of rights.

Last year the amount so received was in the neighborhood of 9½ per cent.; in 1908 about 7½ per cent.; in 1906 about 12 per cent.; in 1904 approximately 4½ per cent. Therefore during the past, say seven years, stockholders of the company have received in the neighborhood of 30 per cent. in rights upon their holdings.

The steady increase in the value of the company's lands will no doubt some day result in an increase in the distribution to shareholders from the interest money.

HARRIMAN STOCKS.

Regular dividends were declared on both Southern and Union Pacific. Both are payable July 1st.

HERE ON JOURNEY AROUND THE WORLD

James Dewe of New Zealand Visiting Relatives in City—will Return Home Next Month.

Mr. James Dewe, of New Zealand, who is a brother of Mrs. James Bishop of George Street, is in the city, and on his return home in June will have completed a journey around the world. Mr. Dewe left New Zealand in February on the steamship Morayshire, which reached Avonmouth, England, in fifty-two days, the voyage being by way of Cape Horn. The Morayshires' passengers, when in far Southern latitudes, had the pleasure of passing an iceberg some seven hundred feet in height. Mr. Dewe and his wife, who accompanied him, came to Canada by steamship Dominion, making the trip from Liverpool to Montreal in ten days. After spending four days in England, the Dominion arrived at Montreal on Sunday, and Mr. and Mrs. Dewe came on to Fredericton.

This is Mr. Dewe's first visit to Canada and he has been favorably impressed with what he has seen so far. He intends to return to New Zealand by way of England and the Cape of Good Hope, thus completing a journey around the world.

Mr. Dewe has been a citizen of New Zealand for thirty-one years, and sold out his business in order to make a "round the world" trip. New Zealand is a country in which old-age pensions, women's suffrage, and other things which are regarded as experiments in other lands, have been in operation for some time with marked success. The sale of liquor is prohibited throughout the greater part of New Zealand.
