

Why not Get The Best?

You will realize this season more than ever before what an advantage we offer you in the style and quality of our Clothing. Few Men underestimate the importance of careful dressing, but a large proportion entertain mistaken views as to the Cost. Good Clothes depend neither upon luxurious fabrics nor expensive linings to achieve individuality.

A BROADWAY SUIT at \$15

is identical in its details of tailoring with those at \$30 or more, the difference exists only in the relative cost of materials, but the \$15 garments are fashioned by the same designers, and will pass the criticism of any man, no matter how particular he may be.

SUITS FOR MEN, \$10 to \$25
in all the favoured colourings of the spring season and our own exclusive models.

MAY CROP AND LIVE STOCK REPORT OUT

Ontario and West Well Ahead With the Spring Seeding, but Maritime Provinces Somewhat Backward.

Ottawa, May 12.—The census and statistics office yesterday issued its May bulletin on the condition of crops and live stock for Canada. The reports made at the end of April show that good progress had been made with spring seeding in Ontario and the Western provinces, but that in Quebec and the Maritime Provinces little more than a beginning had been made. Ontario and Alberta are in the lead with spring wheat and oats, the former with 89.34 per cent. of the spring wheat and 74.74 per cent. of the oats in the ground, and the latter with 97.50 of the wheat and 73.13 of the oats. Ontario had also 72.94 per cent. of the barley seeded, and Alberta only 38.17 per cent. Manitoba and Saskatchewan had nearly equal proportions of the wheat land finished, the former with 90.68 per cent., and the latter with 92.60 per cent. But both were slow with oats and barley. British Columbia had a showing of 78.33 for spring wheat sown, of 81.66 for oats and 39.17 for barley.

Ontario and Alberta are the only provinces with a substantial showing of fall wheat, and whilst in the first named the condition at the end of April was 95.47 per cent., Alberta also showed considerable loss by winter killing and drought, the proportion of the area shown being 27.46 per cent., as compared with 6.42 per cent. in Ontario. In British Columbia the loss by winter killing was 5 per cent. of the area sown, and the condition at the end of April was 100.

The hay and clover meadows suffered by winter killing 12.80 per cent. in British Columbia and 11.65 per cent. in Quebec, but in all the other provinces the loss was comparatively slight. The condition of these crops was good in all the provinces, ranging from 81.85 in Quebec to 100 in Prince Edward Island.

An excellent report was made for all classes of live stock, their condition for all Canada at the end of April, compared with a standard, being 94.49 for horses, 91.09 for milch cows, 89.95 for other cattle, 93.70 for sheep, and 95.10 for swine.

TOWNS ENDANGERED BY FOREST FIRES

Milwaukee, Wis., May 12.—The entire northeastern part of Minnesota's forest lands is smouldering, vast regions in Wisconsin are swept by flames, several villages are threatened with destruction, and large losses seem inevitable from forest fires, according to despatches last night.

Reports of vessel captains and train crews entering Superior, Wis., seem to indicate that the fires are scattered over an area of at least 500 miles. The densest pall of smoke seen in a score of years is hanging over Lake Superior, and fires appear to be burning in all directions.

Reports from Washburn, Wis., say flames have entered the largest tract of standing timber in the state. High winds are fanning the flames, and the entire crews of the Hines Lumber Company are fighting it. Thousands of dollars damage is reported from Washburn. The fires have been raging for two days and the homes of farmers living in Four Mile Creek Valley, along the Northern Pacific Railway, west of the city are threatened.

GRAND MARAIS THREATENED
Duluth, Minn., May 12.—A wireless from Grand Marais, Minn., received last night says that forest fires were bearing down on the village and it seemed doomed. The operator said that it was his last message, as the fire was getting so close that he would have to abandon his tower.

Grand Marais is situated on the north shore of Lake Superior on the north shore of Lake Superior, and is an old trading post. Steps were taken last night to send a relief boat to the village. So far as is known no lives have been lost. Wild animals are running to the lake shore before the fires.

TRAINS RAN THROUGH FIRE

With the sides of the coaches blistered by the terrific heat, passenger trains which passed through the northern forests reached here yesterday carrying passengers terrified with the experiences through which they had passed.

SETTLERS ARE THREATENED
Port Arthur, Ont., May 12.—Bush fires are raging in the district surrounding Nalatu, on the Duluth extension of the C. N. R. The fire is reported as making considerable headway, and though no damage has yet been done to settlers, it is seriously threatened. Other bush fires, less serious, are reported from other parts of the district and the heavy smoke can be seen from the city. Rain is needed.

Mr. P. A. Logan of St. John, formerly mechanical superintendent of the I. C. R. shops at Gibson, is in the city.

TAFT HAS BAD COLD; TAKES TO HIS BED

Goes to His Room After Dinner Party—Leaves Orders Not to be Disturbed.

Washington, May 12.—President Taft is suffering from a bad cold and after giving a dinner party tonight he felt so ill that he went directly to bed and gave orders that he was not to be disturbed by anyone.

The President contracted his cold on his recent trip to New York. He isn't sure whether he inhaled the first microbe in the breezy atmosphere of the Actons' Fund Fair or whether it overtook him on his hurried trip across Thirty-fourth street to get to Passaic in time for the banquet he attended there. One thing is certain; he sneezed before he crossed the Hackensack.

During the Kosciuszko celebration here today he stood on the reviewing stand watching the parade, and an enthusiast passing on a street car "Oh, you Bill Taft! I hope you are well!"

The President coughed his thanks.

KING GEORGE'S HEAD FOR NEW GOLD COINS

Ottawa, May 12.—The head of King George will not appear on coins or Canadian postage stamps before the end of the year. The likeness of Edward, the Peacemaker will continue on the currency and stamps for another six months at least.

In the case of postage stamps any design may be used, but it is the custom to have the Monarch's head on the two cent stamps. The Department has a six month's supply on hand, and these will be used up while dies are being prepared for the new issue of stamps bearing the likeness of George V.

The changing of the design of the metal currency is also a matter of time, designs have to be prepared and approved in both Canada and Great Britain. When the head of the King appears on a coin his special approval of the portrait has to be obtained.

The Finance Department has for some time been looking into the question of designs for the new gold coinage of Canada and on these the head of King George will appear the first of January which will probably be the date of the inauguration of Canadian gold coins.

MONTREAL GRAIN BROKER IS TO RUN BIG FARM

Montreal, May 12.—Mr. H. J. Stevens, of Stevens & Miller, grain merchants, Board of Trade building, leaves tonight for Medicine Hat, near which town he proposes going into farming on a large scale. He will have associated with him his brother, Mr. William Stevens, late manager of the Canada Flour Mills Company, Chatham, Ont. Messrs. Stevens have purchased five thousand acres of land within five miles of the C. P. R. main line, and are preparing to work it in a most business-like manner.

They have already installed a steam plowing plant which is capable of breaking the ground, rolling it and seeding it at one operation, at the rate of three and a half acres per hour. This machine is now at work, and is expected to plow four thousand acres during the present spring. Most of this land will be sown with flax. A large threshing outfit has also been purchased. The Messrs. Stevens and their families will reside in tents during the summer, and in the fall will move into Calgary, where they will spend the winter. Mr. H. J. Stevens has been residing in Montreal for five years, and his many friends in this city will wish him success in his enterprise.

Mr. W. H. D. Miller will continue the wholesale grain and feed business, in which he and Mr. Stevens have been partners.

U. S. BATTLESHIP LAUNCHED TODAY

New York, May 12.—The battleship Florida, the biggest of the American Dreadnoughts built thus far, was successfully launched at the Brooklyn navy yard today in the presence of the vice-president of the United States, the secretary of the navy, the naval attaches of all the powers and a crowd of 500,000 enthusiasts. The 21,825 ton fighting ship, built to carry the thunder of ten 12 inch guns glided down the ways to the strains of the Star Spangled Banner, while the crowd cheered and hundreds of river crafts tooted their noisy welcome.

Mr. Ray McGibbon, who has been studying at Baltimore Dental College, is home again.
