Ribbed Hose and Saturday, August 6th.  
we will place them on sale at 2 prs. for 25c.

## PETER FARRELL & CO.

## NOTWITHSTANDING THE MANY REAL SIGNS OF CANADA'S PROGRESS

To Be Seen on Every Hand, Mr. R. L. Borden is Still  
Going About with the Tale that the Country is  
on the Road to Ruin, and Can Only be Saved by  
Putting Him and His Party into Power at Once.

(Acadian Recorder)

Statistics generally are monotonous, but yet it is difficult to tell the tale of a nation's progress without resorting to the same. And those of Canada are interesting to anyone who cares to observe the sum total of the result of the visibly changing conditions from year to year under a progressive regime. Last year for instance, made a record in the matter of our trade with the outside world, yet the returns of the first three months of the current fiscal year show a gain of \$35,000,000 over those of 1909. That is to say, that the foreign trade of Canada during the three months of April, May and June 1910, increased by an amount which is more than half the total gain during the eighteen years of Conservative rule between 1878 and 1896. This is a point which the public should keep in mind, nor is it the only point. The end of June showed deposits in the chartered banks of \$798,000,000, as compared with \$242,000,000 when the Liberals assumed power fourteen years ago. During the single month of June, the savings deposits increased by nearly \$10,000,000, and since these deposits are almost entirely made by the working classes and small traders, it means that the poorer classes of the country are now prospering to an amazing degree. In the month of May, building permits amounted to \$11,250,000, an advance of four millions over the same month in 1909. June and July show still more striking gains, and what all this means to the carpenter, the mason and the plumber is manifest. All the railways show gains in earnings over last year, the Canadian Pacific for the month of June showing a betterment of not less than

\$1,500,000; while such progress has been made with the Grand Trunk Pacific that the line is expected to handle 9,000,000 bushels of the crop of 1910. Such are few of the current statistics significant of Canadian progress. Yet in face of the development thus manifest to every intelligent man; in spite of the fact that he heads a party whose record for eighteen years was one of national stagnation; despite the fact that the most blaring scandals marked almost every month of that party's term in office, and despite the fact that the historic sharks of that party still continue in the cut-throat, the people of Nova Scotia are about to be treated to the spectacle of one Mr. R. L. Borden going from place to place declaring that Canada is on the rapid road to ruin while Laurier remains in power; that genuine progress is only possible through the return of a Conservative regime; that the Government gave three thousand dollars for an alleged sawdust wharf, and that purity of Administration can only be secured by the return to place and power of the "old gang" of '96. Truly this is a bold part to be acted by the man who opposed the building of that portion of the Transcontinental Railway which will enter the Maritime Provinces; who opposed a naval programme bound to result in the construction of ship-building plants in his own province, in order to suit Tory sentiment in Toronto and Winnipeg, and who "sat still and smiled" while the chairman of a banquet, given in his honour, expressed his scorn at the idea that the leader of a party should take any interest in the industrial condition of the workmen of his constituency. In truth, Mr. Borden is acting a bold part indeed.

## BAD WEATHER INTERFERES WITH THE SHOOTING AT RIFLE MEET

Sussex, Aug. 11.—Rain this morning prevented the marksmen from doing full justice to themselves. The light was very good however, and a few good scores were made. The tie for the Association Cup match, the Prince of Wales match and the Domville Cup match were shot off. In the Association Cup the match was very exciting, F. H. Price of Grand Falls, finally running out with a score of 32. L. P. Clark of the 67th came second with 31. Each man was allowed five shots and Clark tied with 22; two extra shots were necessary to decide the winner, Price making two bulls and Clark a bull and an inner. Capt. Forbes, the other competitor, made 21 in his five shots. Lieut. A. B. Maggs, of the 74th, won from Lieut. D. R. Chandler in the shoot off for the Prince of Wales match, with a score of 23 to 21. Sergt. E. F. Gladwin, of the 62nd, was the tie in the Domville match with a total of 22 points. E. B. Hagerty, of Moncton, was second with 21 points, and H. Crandlemire third with 20. The ladies' match at 600 and 800 yards was also shot this morning. This match was also close and exciting. Sergt. Sullivan, of the O. S. C., St. John, won with the remarkable fine score of 68. Several others of the St. John men put on good scores. The match was shot at 600 and 800 yards range.

## PROMINENT N. Y. OIL BROKER COMMITS SUICIDE

New York, Aug. 11.—Henry Werleman, an oil broker, committed suicide today in his office on Broad St., by shooting himself in the head with a revolver. Business troubles are believed to be responsible for his act. The shooting caused much excitement in the financial district.

**TOURIST PARTY HERE.**  
A Beekman tourist party consisting of eleven members with A. W. Curtis of Boston as conductor arrived here from St. John by steamer yesterday afternoon. They returned to St. John by rail last evening. While in the city they stayed at the Queen.

**TEST OF WATER SYSTEM**  
It is expected that the test of the city's water system will be made next week. City Engineer Feeney has communicated with Mr. Peter Clinch, secretary of the Board of Fire Underwriters concerning the date of the test but has received no reply from him.

**INVESTIGATING SYSTEM**  
Dr. Harold Murray professor of classics at Dalhousie University and Mr. Willard of Kempton, supervisor of schools at Yarmouth arrived in the city last night for the purpose of investigating the system of vending school-books now in vogue in this province. Today they interviewed officials of the education department and other government officials. In St. John yesterday they interviewed the premier and Dr. Bridges superintendent of schools. This evening they will leave for Toronto where they will interview representatives of the Gage Publishing Company.

Life is full of trials, but there are not half enough convictions.

## SIR WILFRID SAYS HE WAS NEVER IN MORE PERFECT HEALTH

Has Many Good Words For Canada's  
Climate Notwithstanding Kiplings  
Description of it.

Red Deer, Alta., Aug. 10.—Red Deer gave Sir Wilfrid Laurier and party an enthusiastic welcome today. A procession, headed by bands, wended its way under a canopy of arches to the city park, where the civic addresses were presented. Alluding to its congratulations upon his health, Sir Wilfrid said:

"I thank God that I am in perfect health. I do not know that I ever felt better in my life. The only thing of which I can complain is that I am growing older, but that is a very prevalent complaint. But if I am growing older in time I am growing younger in spirit these days. I fancy I am imbibing something of that spirit of perennial youth, buoyancy, courage and hope which belongs peculiarly to this country. The west is doing me good in many ways."

The premier rested tonight and will address a meeting here tomorrow. Sir Sir Wilfrid assisted by the minister of railways, drove the first spike in the construction of the Alberta Central railway. The company is operating under its own charter and plans to connect with the Pacific.

A reference in the civic address to the climatic conditions in the winter elicited from the premier a sparkling eulogy:

"For my part" said he, "I have no fault to find with the Canadian climate. Some few years ago, Rudyard Kipling, imperial poet, referring to Canada as Our Lady of the Snows, caused some critics to find fault with the title. I approve the appellation. The climate of Canada is the glory of Canada. It is the climate of Canada which makes No. 1 hard wheat. It is the climate of Canada which puts bloom upon the cheeks of the better half of the audience before me. When I rise on a winter morning and see smoke rising in the atmosphere 100 feet above the chimney perpendicularly in the cold, clear air, I know what it is that makes our men strong and our women beautiful."

"This country has not been made by God for the effete, timorous or laggard, but the strong and willing find their labor rewarded as in no other part of the world."

Speaking from his car Ponoka, Sir Wilfrid briefly reiterated his welcome to the newcomers, of whom there are many in that district and urged them to contribute by energy and effort to the future of their Canadian homeland.

At Lacombe where a stop was made to enable the party to visit Alberta's experimental farm, the premier addressed himself especially to the women. He also found no agitation for woman suffrage, but he had been proud to notice the important part the women of the west were performing in making a country of happy and contented homesteaders. He appealed to them to keep the standard of Canadian life high and to inspire their husbands and brothers to take an active and intelligent interest in civic and national affairs.

## HUNTING PARTY SHOT A STEER

Hopewell Hill, N. B., Aug. 10.—The case against Ralph Steeves of Elgin, who was charged by Alexander Hawken with illegally shooting a two-year-old steer belonging to the latter, came up today before Magistrate E. E. Peck, and was settled by the parties concerned, the defendant paying for the steer and also the costs.

Mr. Steeves explained that if the animal had been killed by him it was through a mistake, and was the result of a stray shot from long range shooting at other game. He and three others, he said, were hunting at the time and were all firing at wild game the shot of some one of them probably killing the steer. It was not known who was to blame, and the parties were not aware that the steer had been killed. Mr. Steeves said, until the body had been discovered.

The explanation, with the paying of the damages, was satisfactory to the complainant and his attorney, A. W. Bray, and the case was accordingly dismissed.

## MONCTON BRIDEGROOM MYSTERIOUSLY DISAPPEARS

Moncton, Aug. 10.—Albert Melanson a young man employed in Lea's wood working factory, has mysteriously disappeared and his friends here are anxious as to his whereabouts.

Melanson had made all arrangements to be married Tuesday morning last at St. Bernard's Church, at

## Lemont & Sons Ltd.

7 o'clock. He left his boarding place, Lower Main Street, about 6 a. m., ostensibly to get a rig from H. S. Steeves' livery stable, but he failed to put in an appearance there, and has not been seen or heard of by his friends here since.

His brother, Andrew Melanson, has been making inquiries at different points, but so far has failed to get any trace of the missing young man. His bride to be, Miss Mamie Gogan, fears some mishap has befallen him. Melanson belongs to Cocagne. He had his wedding clothes ready and wore part of them on the morning he so mysteriously disappeared.

Henry Algernon George, Earl Percy, is the eldest son of the seventh Duke of Northumberland. He was born in 1871, and was educated at Eton and at Christ Church, Oxford, where he took first class honors and a prize for English verse. He represented South Kensington in Parliament for many years and under the Balfour administration filled the posts of Under Secretary for India, and Under Secretary of State for Foreign Affairs. He is a trustee of the National Portrait Gallery and a well known authority on Asiatic and Turkish affairs.

Mrs. J. McKnight, of this city, was in Florenceville Sunday.
