

## AMERICA'S FASHIONABLES TO SUMMER IN EUROPE

### Unprecedented Rush of Leading Notables of American Society to British and European Resorts, Where they Expect to Find Unusual Attraction.

New York, N.Y., May 21—The tide of wealth and fashion toward Europe reached its spring flood today when a fleet of outgoing liners carried nearly 3,000 cabin passengers bound for the pleasure cities and the resorts of England and the continent. The seven steamers that set forth had on board in exact number 2,695 cabin passengers and the list of notables sailing was unusually large. The rush Europewards has never seemed more general among the people of means and leisure than this year. Not only did the number of passengers sailing constitute the record for a single day but on other recent sailing days the passenger lists of the liners have been of unusual length and the outward tide of travel promises to continue until unusually late. Whatever the reason the facts are uncontrovertible. The summer season in Europe is believed to have held out unusual attractions,

for one thing. The aviation meets and other big amusements planned on the other side as a rule have not only the pleasure and education of the home people in foreign countries in view, but the profits made out of visiting foreigners. The aggregate of wealth represented on the steamers leaving here today was tremendous. Names that figure in the lists of the millionaires colonies in and about New York were numerous on the steamship books, while every part of the country has seemingly contributed its quota to the heavy aggregate. Many millions of dollars will be left on the other side by the outgoing travelers of this and the other big sailing days of the spring season, when people of wealth generally elect to go abroad. The Celtic for Liverpool took numerous notables, prominent among whom was William Jennings Bryan, who goes to attend a temperance conference to be held in Edinburgh.

## TORNADOES DEAL OUT DEVASTATION AND DEATH

Paule Valley, Okla., May 21.—Tornadoes and hail and rain storms traversed parts of Garvin, McClain and Pontotoc Counties last night, killing one person, injuring 20 others and devastating a large rural area. The village of McCarty, 11 miles southwest, was wiped out. Mrs. George Dowberry, wife of a preacher was fatally injured. The town of Maysville was reported blown away and communication with that point has not been established. Considerable damage was done at Oauli, seven miles north of Paule Valley and a report said the town was blown away. A report from Nadill that one man was killed and several houses were wrecked, was later denied.

## BODY OF BERTON M. GARVIE FOUND

The body of the late Berton M. Garvie of this city who was drowned near Moosehead Lake Me., about a fortnight ago was found a few days ago. The body was taken to Greenville yesterday and brought to Fredericton today. Mrs. Thomas Garvie, mother of the deceased and a brother and sister accompanied the body to this city. The funeral will take place tomorrow, afternoon at two o'clock, Rev. A. A. Rideout will conduct the service and interment will be made at the Rural Cemetery. The deceased who was twenty-eight years of age is survived by a widow and two young children. His parents and several brothers and sisters also survive. The body was found underneath the wing of the rolling dam of the Great Northern Paper Company by which deceased was employed. The

## THE LATE KING LEFT BULK OF HIS WEALTH TO ALEXANDRA

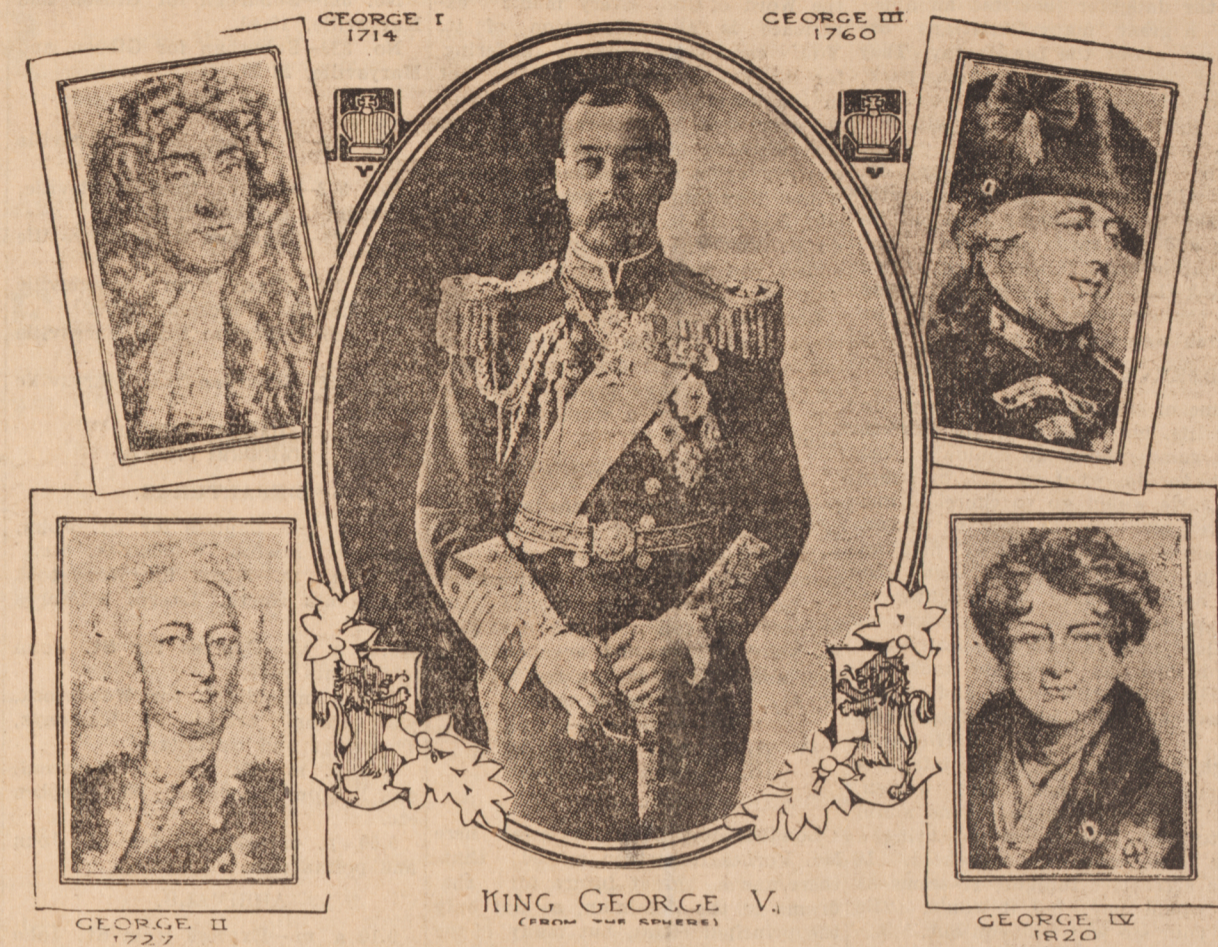

London, May 20—Sir Ernest Cassel was the last person outside the members of the royal family and the household and attendant physicians who had an audience with the late King, and the object of his visit was to receive King Edward's instructions respecting various testamentary dispositions of a personal nature. It is understood that the King left a will by which the bulk of his possessions will go to Queen Alexandra. His Majesty was not a rich man, and the personality at his disposal was considerably less than that left by the late queen. The King has forgotten none of his personal friends, and to the

body of Edward Shirley of Harcourt who was drowned at the same time was found nearby shortly after the accident.

Princess Royal and Sir Ernest Cassel has been confided the trust of seeing that his wishes in this respect are carried out. Sandringham becomes the property of Queen Alexandra, but it is understood that the many pictures and curios now housed there are to pass into the possession of the nation at her death, while she will also be allowed to exercise her discretion regarding the assignment of other objects to the nation. Failing the Queen, King George becomes heir of his father's possessions, ample provision being made, however, for Princess Victoria, who, although nearly forty-two, is still unmarried.

Mr. W. J. Patterson, of St. John, is at the Queen. Mr. C. M. Lawson, principal of the Sussex High School, is in the city. Mr. W. B. Dickson, M. P. E., is at the Barker House.

## THE FIVE GEORGES

## SPAIN'S KING AND QUEEN MEET WITH SAD DISAPPOINTMENT

### The Queen's Illness Took Place Prematurely

### But was not Unexpected Owing to the Trying Events of the Past Few Weeks—King Alphonso Still in England.

Madrid, May 21—Queen Victoria was delivered of an infant still born at 4 o'clock this morning. The sex was male. The unhappy outcome is attributed to a premature accouchement which however was otherwise natural. The body will be buried without ceremony in the royal pantheon of the Beccurial monastery. When told of her loss the mother wept bitterly. King Alphonso is still in London, where he attended yesterday the funeral of the Queen's uncle, the late King Edward. The past few weeks had been most trying for her Majesty. Early in the present month the approachment of the confinement was noted by the royal physicians, and twice during the days that followed the officials of the court were summoned under the impression that the birth was imminent. While this state of doubt existed, his Majesty was obliged to go to London for the royal obsequies. According to custom, premier Canale-jasy Mender bore the body to a room adjoining the queens chamber for the official inspection by the members of the royal family and court functionaries who had been waiting there. The present is the first instance of a still birth in the Spanish royal family although a child of Queen Isabella II. lived only long enough to receive the lustral water. Queen Victoria is the mother of two boys and a girl surviving.

## TO TAKE UP FORESTRY.

Three forestry students at the U. N. B. will leave next week for the West. Mr. H. C. Belyea of St. John, and Mr. P. Z. Caverhill will go to Calgary, and Mr. H. C. Kinghorn of this city, will go to the Coast. Mr. Caverhill will take charge of a party in the Dominion forestry reserve on the eastern slope of the Rockies. Mr. Belyea will also work on the reserve. Mr. Kinghorn will work in British Columbia. He will leave for Montreal on Monday evening and will visit his brother in that city. The others will leave on Tuesday evening, meeting Mr. Kinghorn in Montreal.

Mr. W. J. Patterson, of St. John, is at the Queen. Mr. C. M. Lawson, principal of the Sussex High School, is in the city. Mr. W. B. Dickson, M. P. E., is at the Barker House.

## A DECIDED BULGE IN MANY STOCKS

### C. P. R. Fell Off Slightly from Yesterdays Closing—Activity in Crown Reserve—Trading Brisk

New York, N. Y., May 21—Wall Street—Buying orders appeared in the Stock Market at the opening in considerable volume. Prices were carried along quite briskly throughout at running quotations varying a fraction in Union Pacific, Reading and U. S. Steel and Chicago Northwestern and Great Northern Ore certificates showed a gain of one. Brooklyn Union Gas 1 1/2, and Union, Ont. and Western, Louisville and Nashville Consolidated Gas, Interboro Net pfd., and American, large fractions. (Quotations from direct private wires of J. M. Robinson & Son, Bankers, St. John, N. B., Members Montreal Stock Exchange)

## AFFAIRS RUNNING MORE SMOOTHLY FOR THE BIG FIGHT

### 'Frisco Gratified at Being Chosen For Fight

### Special Arena will be Built to Accomodate 35,000 Spectators for which a Site has Already been Leased.

San Francisco, Calif., May 21—Safely over the trouble caused by an forced change of scene for the big fight from Emeryville to San Francisco, affairs are running along smoothly once more. If there are any other breaks ahead, promoters Rickard and Gleason who constitute the outlook, can't see them. The cry is "All's well." Definitely reassured by the district attorney who says the law rears no apparent obstacle against the staging of the great contest in this city the promoters are busying themselves today with the details for the combat. The fight will take place in an arena to be built especially for the purpose at Eighth and Market streets, close to the heart of San Francisco. A year's lease of the property has been secured and the building to be erected will be constructed along the identical lines proposed for the Emeryville structure. Thus no change in the seating of spectators will be entailed, a fact that is giving much satisfaction to the early purchasers of tickets. It is estimated that a million feet of lumber will be used in the construction of the gigantic structure. The arena is 525 feet by 350 feet. Rickard says that if necessary a seating capacity of 35,000 can be provided. Because of the dissatisfaction engendered by the Papke-Thomas fight Thursday night, chief of police Martin has announced that hereafter he will personally supervise all fights held in this city.

## FRENCH AVIATOR FLYING ACROSS ENGLISH CHANNEL

Calais, France, May 21—Count Jacques DeLesseps, the French aviator, started at 3.30 o'clock this afternoon on a flight across the British Channel. The weather was magnificent. He expected to land at Dover.

## HE LIKES FREDERICTON

Mr. John Devine, who appeared before the Police Magistrate a short time ago as a witness in a Scott Act case and later on a charge, paid a twenty dollar fine this morning. The magistrate gave him the option of getting out of town by this morning, paying a fine or going to jail. He likes this town sufficiently to pay up.

## HAS THE COMET LOST ITS DREADED TAIL?

### Aerial Vagrant is Again in Sight, but Observers Fail to Find the Tail, with Reference to Which Such Dire Disaster was Predicted.

New York, May 21—The comet has returned. It appeared as bright as a star last night in the western heavens and was sighted by the astronomers at the Yerkes Observatory. No tail was observed. All that was seen according to the reports made, was a continuous spectrum which was probably due to the reflected sun light. The gaseous constituents were less conspicuous than when the comet was in the morning sky and appeared faint. The comet was visible to the naked eye from 8 to 9 o'clock in spite of a bright moon. Whether it will again appear remains to be seen. Professors of the Lick Observatory report that the mysterious heavenly visitor was visible yesterday in the eastern sky. They report having seen the tail and said it extended from the horizon up to the milky way, making its observed length 15 degrees. It was only one third as intense as yesterday morning's tail and it is judged from this that we have either passed through or passed by one side fully two thirds of the tail. An endeavor to secure data on Hal-

ley's Comet, Prof. David Todd of Amherst and three companions are now in the heavens in a balloon and will not descend until some time today. The party ascended at Northampton last night and they took with them a number of scientific instruments among which was a portable telescope. Another balloon ascended from Philadelphia having as its occupants Prof. Dolittle and others of the University of Pennsylvania. They landed later at Milford Del. having been unsuccessful in their attempt to catch a glimpse of the comet. Just how long the vapor monster will be in view seems to be a speculation on the part of the astronomers. Some say it will appear each night in the western heavens for the next three or four weeks, while others claim it will not be visible for more than a week at the most. After it finally disappears from sight it will go travelling on its journey millions and trillions of miles into space until it finally at the end of 75 years again reaches the point where it can again be seen by the inhabitants of the earth.

## CONCERNING PUBLIC MOURNING AND FLAGS

There has been much conjecture concerning the propriety of flying flags at half mast now that the funeral of the late King has taken place and also concerning the period during which mourning is to be worn and buildings draped. Several inquiries were made at The Mail office today concerning the flags. Mr. R. S. Barker, private secretary to His Honor the Lieutenant Governor, when asked about this said that all flags should be raised to the mast-head or lowered altogether. Several flags are still flying at half-mast in different parts of the city. With regard to mourning the following telegram received some time ago is self-explanatory. Ottawa, May 14, 1910. With reference to my telegram of eleventh May, public mourning will continue to twenty-ninth July. Half mourning after seventeenth June. CHARLES MURPHY, Secretary of State. In accordance with this public buildings will remain draped until July 29th.

## HARRY WAUGH'S DEATH

The news of the tragic death of Mr. Harry Waugh at Chicago was a great shock to his friends and relatives in Douglas, and they are loathe to believe that he committed suicide. It is known that Mr. Waugh had over \$1000 in his possession when he left here about three weeks ago, and his friends say that unless he had been robbed, he would have no reason to pawn his personal effects. It appears from information to hand that Mr. Waugh hanged himself from a bedpost, using two neckties as a rope.

## ASYLUM INMATE MAKES A SAVAGE ATTACK ON COMPANION

Charlottetown, P. E. I., May 21.—A week ago Geo. White, aged thirty a patient at Falconwood Insane Asylum, was severely wounded in the head by another patient, who stealthily approached and struck him several times with an old hinge, while they were taking out-door exercise. The assailant imagined he was persecuted by White. The wounds apparently healed, but the injured man developed pneumonia and died on Thursday. The Government held an investigation, but decided that the

## GALLANT RESCUE BY YOUNG LAD

Cornwall, Ont., May 21.—Frank Hunter, son of John Hunter, of this town, made a daring rescue here last night, when he jumped into the canal and saved from certain death a young girl named Margaret Kinghorn, who had fallen in from the stone coping. His friends will endeavor to secure the Royal Humane Society's medal for him, in recognition of his brave act.

## USHERS FOR TORREY MEETINGS NEXT WEEK

The following are the names of the ushers for next week for the meetings being held in the Arctic Rink: Sunday afternoon—Mr. Pickard, H. V. VanWart, William Stone, Walter Jackson. Sunday evening—Geo. Harper, C. A. Hall, George Clark, C. A. McVey Cecil Burt, Chas. McCutcheon. Monday evening—John Veness, J. Chappell, Jacob Estey, Walter McKay. Tuesday evening—Harry Harrison, John Bolster, Byron Estey, Samuel Mackay. Wednesday evening—George Haviland, John Vradenburg, R. B. Wallace, Fred Segee. Thursday evening—Wardlow Kilburn, Allan DeLong, George Jonah, C. W. Hall. Friday evening—C. S. Creed, W. M. Burns, J. K. Estey, Harry Hayward. The condition of Mr. W. J. Edgecombe, who is ill from pneumonia, is considerably improved.
