Zam-Buk is a skin food; and complexion is purely a matter of skin health. Zam-Buk smeared lightly over the face each night acts as a skin tonic. It stimulates the cells beneath the cuticle to healthy action, makes the capillaries and blood vessels work, and the vigorous circula tion thus started carries away secreted impurities. Waxy, sallow deposits are thus removed. Hard, pimply growths are softened and disappear. That yellow tinge gives place to the pink of health and the white, velvety 'look" and "feel" which healthy skin
