SIX YEARS IN THE PENITENTIARY

General Manager Travers of Wrecked Farmers' Bank Sentenced

Prisoner was Dejected When Brought Into Court—Government Inspection of Banks Urged.

(Canadian Press)
Toronto, Ont., Jan. 16.—W. R. Travers, who wrecked the Farmers' Bank, was today sentenced to six years' imprisonment. Magistrate Denison in passing sentence, made some pertinent comments on the need of government inspection of monetary institutions. If Travers had received the limit for the three offences to which he pleaded guilty, he would have got twenty-one years. The magistrate remarked on the serious nature of the offences to which Travers confessed his guilt. Many trusting people through his criminal acts had lost the savings of a life time. "There is one thing in your favor," said the magistrate, "you did it under great temptation." The system under which banks were allowed to carry on business without any proper government inspection was criticised. With an efficient system of government inspection such a condition of affairs could not have existed. Travers was very dejected when he came into court and looked relieved when he heard the penalty which is generally regarded as being reasonably light, although the prisoner is 57 years of age.

CANADA AND AUSTRALIAN STEAMSHIP SERVICE

Melbourne, Australia, Jan. 16.—Premier Fisher, of Australia, made a statement today, concerning the cablegram which he received from Sir Wilfrid Laurier, in which the latter expressed regret that Australia had declined to renew the Vancouver and Australia mail service with calls at Auckland and Sydney. In his message Sir Wilfrid added that as a consequence of the commonwealth's attitude, Canada has decided to enter into a contract with the Union Steamship Company of New Zealand, for five year term of service between Canadian and New Zealand ports. President Fisher stated that the Australian government did not decline to permit the New Zealand call, but that Australia was unable to enter an arrangement under conditions that might have the effect of subsidizing a trade competition. He said that the shipping companies, for their own profit, must establish a service between Canada and Australia, providing for calls at Honolulu, and the Fiji Islands.

MONTREAL CADETS FOR THE CORONATION

Montreal, Jan. 16.—If the plans of Major Lyden, commandant of the Highland Cadet Battalion materialize, the regiment, two hundred strong, with pipe and bugle bands, will attend the coronation ceremonies which are to be held in London next June.

If the permission of the federal government for the battalion to leave the country is obtained, he believes it will be possible to raise sufficient money for the expenses of the trip by public subscription. Already several large sums have been promised by prominent Montrealers in the event of the trip being undertaken.

SASKATCHEWAN MAY HAVE A FUEL FAMINE

Regina, Jan. 15.—Grave fears of a fuel famine in many parts of the province prevail. In Regina some of the coal dealers have already exhausted supplies, while others will soon be out. At Qu'Appelle scarcity of fuel has resulted in cutting down the output of light plants.

AYLESWORTH AND BRODEUR WON VICTORY FOR CANADA

Settlement of Atlantic Fisheries' Dispute a Great Diplomatic Triumph—Practically all of Canada's Contentions Have Been Confirmed at Washington—Sunday to Remain a Day of Rest in Treaty Water—U. S. Fishing Vessels to be Licensed.

(Canadian Press)
Montreal, Jan. 16.—A Washington special to the Herald says: If the reciprocity negotiations come out as favorable to Canada as the fishery negotiations did, the people of Canada will have reason to bless the day that Messrs. Fielding and Paterson came to Washington. The final terms of the fishery agreement were not made public here on Saturday night before Sir Allen Aylesworth and Hon. L. P. Brodeur left, but the Herald has the best of reasons for believing that practically all of the Canadian contentions were confirmed. It was contended that Sunday should be regarded as a close season on the fishing grounds, and to this the Gloucester fishermen objected on account of the loss of time. It finally agreed that Sunday should remain a day of rest in treaty water. The United States objected too, to the right of search of the vessels and the Canadians won this point as well. It was pointed out that somebody must do the necessary policing and that it was impossible that the United States should do it in Canadian waters. The right remains Canada's.

The use of purse seines will be discontinued, contrary to the wishes of the United States and finally, Canada will retain the right to licensing United States fishing vessels through the word "Licenses" will be changed to "Permit" which is that of a discrimination than a difference. In exchange for this big win certain minor concessions have been made with the view of improving the lot of the Gloucester fishermen. These concessions have not been made public either, but they will operate as much for the benefit of the Canadian fishermen as for that of his rival.

MISSING BALLOON FOUND IN A LAKE

Berlin, Jan. 16.—The German balloon Hildebrand which has been missing since its ascent at Schmargendorf on December 19, was found in a lake in Pomerania province Prussia today. The bodies of both aeronauts were in the gondola. It had been believed that Dr. Rheolers and companion had met death in the Baltic sea, the balloon having taken direction on rising. The aeronauts had planned a forty eight hours aerial voyage and nothing was seen after the start, though an airship thought to be the Hildebrandt was sighted passing over Hoegaens Sweden on the night of January 4.

Mr. R. P. Allen, who was called to Amherst last week by the death of his mother, returned home this morning.

Washington, D. C., Jan. 15.—Diplomatic negotiations have scored a victory over arbitration in the fisheries dispute between Canada, Newfoundland and the United States, a statement being issued Saturday by the state department here disclosing the fact that a complete agreement on all details involved have been reached between Canada and the United States, and likewise sufficient adjustment of difficulties with Newfoundland has been effected to make unnecessary any recourse to the mixed commission of The Hague tribunal.

The negotiations between the United States and Newfoundland will be continued; Sir Edward Morris, premier of Newfoundland having returned home to confer with the members of his cabinet, but enough ground already has been covered to warrant the belief that a complete settlement of disputed points soon will be effected. Sir Edward Morris' departure to Newfoundland was made possible on Thursday, when negotiations reached the point where it became obvious that it would not be necessary to take the question up again with the Hague tribunal.

As far as Canada and the United States are concerned, Sir Alan Aylesworth, Minister of Justice and L. P. Brodeur, Minister of Marine and Fisheries, the Canadian representatives in the conference, will return to Ottawa on Monday and submit the agreement that was reached Saturday to Lord Grey, the Governor General, when it will be made public.

INSURANCE SCHEME FOR THE BENEFIT OF INVALIDS

(Canadian Press.)
New York, Jan. 16.—A special cable to The Tribune, today says:

It is doubtful whether the British Nation has yet recognized the vast importance of the government scheme of invalid insurance. Invalid insurance must be carefully distinguished first from old age pension and, second, from unemployment insurance. There is no idea of changing the basis of old age pension as they are at present administered.

Invalid insurance is an extension only of the old age pension. Five shillings a week will still be granted on a non-contributory basis to qualified persons over the age of seventy. For this reason the insurance scheme will come to an end at the age of seventy, and there will be no overlapping contributions to invalid insurance, which will begin at the age of not lower than sixteen, and now higher than eighteen. Invalid insurance is quite distinct from unemployment insurance, as outlined by the Board of Trade. Unemployment insurance is intended for men and women who are able and willing to work, but cannot find jobs. Invalid insurance is meant for men and women who are delarded from working through continued illness. Invalid insurance will involve, roughly, an expenditure of ten millions of pounds. David Lloyd George's scheme is still a cabinet secret.

INTERESTING CEREMONY IN SICILIAN TOWNS

Messina, Sicily, Jan. 16.—The rebuilding of Messina in durable masonry was inaugurated today, when the corner-stone of the group of public buildings to be erected in the municipality was laid by Signor Sacchi, Minister of Public Works, Signor Ciuffelli, Minister of Posts and Telegraphs, and other members of the government.

The ceremony was witnessed by a great assemblage, and aroused much enthusiasm and new hope for the future. The weather was spring-like, the sun bright and the city the gayest since it was destroyed by the earthquake of 1408. The new city will be built of stone and concrete. The ministers go from here to Reggio, where there will be a similar ceremony, formally opening the work of reconstruction.

OUTLOOK BRIGHT FOR RECIPROCITY AGREEMENT

(Canadian Press.)
Washington, D. C., Jan. 16.—That with the fresh knowledge and more elastic powers conferred through the emergency visit of one of Sir Wilfrid Laurier's emissaries are now engaged in drawing to completion an actual agreement of reciprocity trade negotiations is the best information in the capital today. This agreement will ultimately be along the lines of a miniature of model application of the principles of free trade in the course of negotiations between the two countries. It will not touch in any drastic way upon the manufactured products of either nation, nor will it likely affect the industrial world. Pulp wood and lumber is believed to have been wiped off the Canadian slate, and coal also has been withdrawn, so that it is only upon a minor list of articles that the negotiations are being centred.

ACQUITTED OF MURDER CHARGE

Finton Trial at Hamilton, Has an Unexpected Ending on Saturday

Jury, Under Direction of Judge, Render a Verdict of Acquittal Without Leaving Their Seats.

(Canadian Press)
Hamilton, Jan. 16.—The Finton trial came to a very sudden and somewhat unexpected end on Saturday evening, unexpected that is, in the way the end was reached, rather than in the result attained. After Crown Prosecutor Blackstock had finished putting in rebuttal evidence, Justice Teetzel asked him if he thought the case was strong enough to go to the jury. Mr. Blackstock spoke for about an hour in which time he recounted the vital points of the evidence, in justification of the crown's action. His Lordship at the close of Mr. Blackstock's address instructed the jury to bring a verdict of not guilty, without leaving their seats, which they did. His Lordship then informed the prisoner that he was free.

SALE OF COCAINE TO BE STOPPED

The Dominion Parliament will Make Enactment Against Growing Evil

Hon. McKenzie King Will Incorporate Cocaine Clause in His Opium Bill—Heavy Penalties Provided.

(Canadian Press)
Montreal, Jan. 16.—Legislation of the cast iron description, setting an absolute ban on the sale of cocaine in the Dominion of Canada, except for medical purposes, and providing heavy punishment for violators of the law, will be introduced into the House of Commons this week by the Hon. Mr. MacKenzie King, G. M. G., in an effort to stamp out the cocaine snuffing evil which recent revelations have shown to be practiced to a fearful extent in the Dominion. It is expected that the bill will be passed without opposition.

MacKenzie King is incorporating the Cocaine Act in the act to prohibit the sale of opium and morphine which will be presented to the house this week. Mr. King has obtained the permission of the Senate to the inserting of cocaine clause in the bill, and during the past five days Mrs. Henderson of Montreal, prominent member of the W. C. T. U. has been in Ottawa consulting with the minister on the proposed legislation, and also interviewed the Governor General and Lady Grey at the latter's request. Their Excellencies expressed the deepest interest in the proposed legislation.

The new bill will provide a fine of \$500 for the first offence as a punishment to the illegal sale of the drug and imprisonment for a second conviction. Buyers will also be liable to punishment and careful watch will be kept over them. The new law will make it impossible for anyone to obtain cocaine except by a medical certificate and a new certificate must be presented with every sale.
