

SHE CURED HER HEART DISEASE

When She Cured Her Kidneys With Dodd's Kidney Pills.

Mrs. Henry J. Jacques Found a Speedy Relief
For All Her Troubles, and Now Enjoys
the Best of Health.

St. Rose du Lac, Man., Jan 13—
(Special)—That Heart Disease is one
of the results of disordered Kidneys,
and is consequently easily cured by
Dodd's Kidney Pills, is the experience
of Mrs. Henry J. Jacques of this place.

"My heart troubled me all the
time," said Mrs. Jacques in an inter-
view. "And I knew what terrible re-
sults might follow. The fact that my
limbs would swell and my back ache
led me to believe that I also suffered
from Kidney Disease, so I determined
to try Dodd's Kidney Pills. I bought
four boxes, and before I had finished
the third box the swelling was gone,
my back was well, and my heart no
longer troubled me. I am now in the
best of health, and I owe it all to
Dodd's Kidney Pills."

Heart Disease is one of the troubles
that come from unhealthy Kidneys.
They fail to strain the impurities out
of the blood, and those impurities are
bound to affect the heart, which is
the engine that propels the blood
through the body. To cure Heart Dis-
ease cure the Kidneys with Dodd's
Kidney Pills; to prevent Heart Dis-
ease keep the Kidneys toned up and
healthy by using Dodd's Kidney Pills.

THE NATIVITY OF CORN

Corn, generally believed to have
originated in South America, has
been found growing in China; but the
Chinese corn is of a unique species,
and it is not a native of the Chinese
region in which it was discovered.
Researches show that it must have
been brought to China long before
the voyage of Columbus, for it could
not have acquired its distinctive
character in the comparatively few
years that have lapsed since that
period.

Chinese corn is a dwarf plant and
its starch is very different from that
of American corn. The leaves grow
on either side of the stalk so as to
protect it from the hot, dry winds of
the desert. They form a sort of horn
for the accumulation of pollen.

Chinese corn is excellent for plant-
ing in hot countries where common
corn does not flourish.

CARVELL'S BILL OF IMPORTANCE TO FARMERS

(Special Correspondence.)

Ottawa, Jan. 12—When the House
resumed business Tuesday afternoon,
the Standard Carvell Bill was intro-
duced by Mr. Frank Carvell, was given
a third reading and adopted
without discussion. Several of the
leading men of the opposition took
occasion to speak on the question. The
general attitude of the House was
most favorable, western and eastern
members alike taking advantage of
the opportunity to express their
hearty approval of the Bill and to
congratulate Mr. Carvell on having
secured the passage of a measure so
important to the agricultural inter-
ests of the country at large.

In explaining the Bill, Mr. Carvell
stated that, according to old custom
prevailing throughout eastern and
western Canada generally, merchants
invariably exacted 180 pounds of po-
tatoes, whereas the standard barrel
should contain only 160 pounds. He
explained that throughout the east-
ern provinces the majority of mer-
chants used the 180 pound barrel in
buying potatoes from the farmers
and then turned about and sold po-
tatoes in Cuba and the United States
at the 160 pound barrel rate. This
Mr. Carvell claimed was an injustice
to the farmers of the country.

"I trust," continued Mr. Carvell,
the agricultural classes will avail
themselves of this federal law and see
that they are given fair play in mat-
ters of this character. I realize that
the standardization of the potato
barrel is in a measure a small thing.
I realize too, that however small a
gain it may mean to the farmers of
this country, they are in every way
entitled to all that is coming to them.

The trend of comment following
Mr. Carvell's speech made it clear
that the eastern provinces will re-
ceive the greatest measure of benefit
by the institution of the new law.

Any average man is easy-kidded.
It's keeping them kidded that calls
for the deep thought.

Danny Webster and Young Rivers
will meet in Los Angeles next Satur-
day night.

Jim Flynn and Montana Dan Sulli-
van have been matched to box in Los
Angeles Jan. 21.

Suffered Greatly From Heart Trouble

NERVES WERE VERY WEAK

Mrs. John Farrell, Rose Hill, P. E.
I., writes: "It is with the greatest
of pleasure I write you stating the
benefit I have received by using Mil-
burn's Heart and Nerve Pills.

"About five years ago I suffered
greatly from heart trouble, and my
nerves were very weak. After seeing
several doctors and using their medi-
cine, I got no relief until a friend
told me of your Heart and Nerve
Pills. I took two boxes and they
effected a complete cure. I can re-
commend them highly to all nervous
and run down women.

"I have advised many others to
try them, and they have all been
cured of the same trouble."

The proper action of the nerves, so
important to the well-being of the
heart depends entirely upon the gen-
eral condition of the nervous system.
If there be nerve derangement of any
kind, it is bound to produce heart
derangement.

In Milburn's Heart and Nerve Pills
is combined a treatment that will
cure all forms of nervous disorders,
as well as act on the heart itself, and
in this is the secret of their success
in curing so many cases of heart and
nerve trouble.

Milburn's Heart and Nerve Pills
are 50c. per box, or 3 for \$1.25, at all
dealers or mailed direct on receipt of
price by The T. Milburn Co., Limited
Toronto, Ont.

Lives of anarchists remind us
in a manner far from tame.
If we're looking out for trouble
We shall surely find the same.
Central America produces other
things beside revolutions, but not
many.

PRESCRIPTION BY WIRELESS SAVED CAPTAINS LIFE

Portland, Me., Jan. 13.—As remark-
able proof of the value of the wireless
telegraph, Capt. Arthur N. McGray,
master of the tramp steamer Fernan-
Frasch of New York, which arrived
here today with a cargo of sulphur
from a gulf port, told how he had
been saved from death by ptomaine
poisoning by a prescription wired
him 800 miles when the Frascas was
two days out.

Just after the Frascas left Sabine
Pass on the gulf on Jan. 2, Capt.
McGray was taken ill from eating
canned salmon. His malady grew
worse so rapidly that thirty-six
hours later he was writing in his
bunk, and realizing that he would die
without prompt treatment, as there
was no surgeon aboard his vessel, he
sent a wireless message to the physi-
cian at the government naval sta-
tion, at Dry Tortugas, which was
then about 100 miles distant. This
message was intercepted by the oper-
ator on board the Ward line steam-
ship Merida, which was then at Pro-
greso, on the coast of Yucatan, 800
miles away, and the surgeon on that
ship wired a prescription and rules
for treatment over an hour before
the message from the naval station
was received. Capt. McGray was in
terrible agony, and believes that the
timely intervention saved his life.

The turkey who finds himself alive
and well at this period has ample
cause for self congratulation.

Yes, I am constable of this town.
But I don't depend on that alone for
my livin'. I am also the town under-
taker and my brother is the town
doctor, so we get them coming and
going.

ABSOLUTELY CURES STOMACH TROUBLE AND INDIGESTION

The question as to how long you
are going to continue a sufferer from
indigestion, Dyspepsia or out-of-order
Stomach is merely a matter of
how soon you begin taking some
Diapiesin.

If your Stomach is lacking in di-
gestive power, why not help the stom-
ach to do its work, not with dras-
tic drugs but a re-enforcement of di-
gestive agents, such as are natu-
rally at work in the stomach.

People with weak Stomachs should
take a little Diapiesin occasionally,
and there will be no more indiges-
tion, no feeling like a lump of lead in
the stomach, no heartburn, sour ris-
ings, Gas on Stomach or Belching of
undigested food, Headaches, Dizziness
or Sick Stomach and besides, what
you eat will not ferment and poison
your breath with nauseous odors. All
these symptoms resulting from a sour
out-of-order stomach and dyspepsia
are generally relieved in five minutes
lived in five minutes after taking a
little Diapiesin.

Go to your druggist and get a 50-
cent case of Page's Diapiesin now,
and you will always go to the table
with a hearty appetite, and what you
eat will taste good, because your
stomach and intestines will be clean
and fresh, and you will know there
are not going to be any more bad
nights and miserable days for you.
They freshen you and make you feel
that life is worth living —6.

It brings a smile when one thinks
of the owner of Dan Patch protesting
the 1:59 of Copa de Oro, as not be-
ing made in the open.

INTERESTING NOTES ON TEMPERANCE

Dr. William Osler, Regius Profes-
sor of Medicine in Oxford University
in a valuable article on the fight
against tuberculosis in the Woman's
Home Companion for February, says
there are three great causes that
"prepare the soil" for the tubercu-
losis germ—"three bads": bad air,
bad food, and bad drink—alcohol.

Prof. Taav, Laitinen, M. D., Uni-
versity of Helsingfors, Finland, in
Eorman Kerr Lecture, Lond. N. July
20, 1909, speaking from three years'
experiments on 225 persons and many
animals, says: "Alcohol even in com-
paratively small doses, exercises a
prejudicial effect on the protective
mechanism of the human body."

What science teaches of the deadly
effect of all intoxicants gives force to
the following story: After some
search among boxes and trunks, the
baggage master dragged out a demi-
john of whiskey. "Anything more?"
asked the man. "Yes," said the bag-
gage man, "here's a gravestone.
There's no name on it, but it ought
to go with the liquor."

Edison, the great inventor, says:
from the dog stage. Society will
out as we emerge more and more
have to stop this whiskey business,
which is like throwing sand in the
bearings of a steam engine."

A British speaker, calling atten-
tion to the proposed extra tax on
whiskey, amounting to a penny a
glass, noted that was just the cost
of each rivet in a battleship, and
that every additional glass that his
countrymen tossed down their
throats meant a rivet. But from the
standpoint of new experiments on al-
cohol, every glass of intoxicants
means a rivet in one's coffin. Two
men who started out with equal her-
edity, one a moderate drinker and
the other an abstainer, will differ by
seven years in average length of life
in favor of the abstainer.

It is a great mistake to suppose
that a man is not drunk until he is
staggering or stupid. An Indiana
judge, V. S. Reiter says that a man
is drunk when he shows the effect of
liquor in any degree in his walk or
conversation or whenever his "com-
mon sense is disturbed." It would
seem that a man with common sense
would let liquor alone, which goes
first of all to the highest parts of
the brain, so much so that President
Elliot has declared that in the light
of modern experiments on alcohol it
is "inexpedient for even a self-con-
trolled gentleman to drink the mildest
and purest beer or wine at his
home."

"Bronchitis"

This is an acute inflammation of
the mucous membrane lining the air
tubes in the lungs.

The disease begins with a tightness
across the chest, difficulty of breath-
ing, hoarseness, and there is a dry
harsh, croupy cough.

After a few days mucous begins to
be raised. This is at first white, but
later of a greenish or yellowish color
and is occasionally streaked with
blood.

Cure the first symptoms of Bronchi-
tis by the use of Dr. Wood's Norway
Pine Syrup and thus prevent it be-
coming chronic and perhaps turning
to Consumption.

Mrs. D. J. McCormack, Cleveland,
N. S., writes: "My little boy, two
years old, caught a bad cold which
developed into Bronchitis. He was
so choked up he could hardly breathe.
Reading about your wonderful medi-
cine, Dr. Wood's Norway Pine Syrup,
I decided to try a bottle, and with
such good result I got another which
completely cured him, without hav-
ing a doctor. I cannot say too much
in its praise and would not be with-
out it in the house as I consider it a
sure cure for Colds and Bronchitis.

Dr. Wood's Norway Pine Syrup is
put up in a yellow wrapper; three
pine trees the trade mark; price 25
cents.

Manufactured only by The T. Mil-
burn Co., Limited, Toronto, Ont.

THE PSYCHOLOGY OF WALKING

(December Atlantic)

Walking is not merely moving two
rhythmically over certain intervals
of ground. It is the primal and the
only way to know the world the de-
liberate entering into an inheritance,
whose parts are wind and weather,
sky and prospect, men and animals,
and all vital enjoyment. The bicycle
has some advantages in point of
speed, and gives a deceptive sense of
power; but it is a foe to observation.
All carriages, whether propelled by
horse or motor, insulate the traveller
from the ground steal his attention
from the world through which he
passes, and utterly destroy all feel-
ing of achievement. The very word
"mile" is a walker's word—mille pas-
sus—a thousand double-paces. So
the Roman legions measured their
conquering advances; so the legion of
pedestrians estimates its conquests
of the day. "So many thousand buf-
fets have mine own feet given the re-
sisting soil 'twixt sun and sun; so
so many thousand times have the
good muscles of calf and thigh lent
their elastic force." What has the
dusty reader of figures on a dial to
match with that?

WILLIAMS' EXTENSION SALE

A Cannonade of Savings throughout the Entire Store beckon you here

WEDNESDAY, JANUARY 18th.

AND THE NEXT TEN DAYS

Read this carefully. Every Item quoted here is a Money Saving one. This will be the BIGGEST VALUE GIVING EVENT of the Season.
Your Savings Will Please You. Be Sure and Come.

SHAKER FLANNEL	SHAKER & GINGHAM BUNDLES	LACE CURTAINS	SPECIAL DISCOUNT	HOSIERY AND GLOVES	TABLE LINENS
Only people that can sell you Shaker at these prices.	During this Sale we will have a small lot of bundles each day. 2 pound for 25c.	At Prices that can't be beat.
