HEALTH MUCH IMPROVED.

Mr. James Lowell, M.P.P., returned yesterday to his home in Lancaster, after a visit to a Boston hospital, in greatly improved health.

LIGHTNING AT BOLESTOWN.

During the heavy electrical storm of Thursday afternoon, lightning struck near the mill at Bolestown. Little damage was done, however, by the bolt.

GOING TO MCGIVNEY

Mr. Aubrey Hetherington, night operator at the I. C. R. station, Gibson, has been appointed station master at McGivney Junction. He will enter upon his duties in the course of a few days.

BARK PEELERS ARRIVE.

A large crew of men who had been employed by Mr. John S. Scott peeling bark at Routh, arrived in the city by C.P.R. last night. The work is pretty well completed and the men are returning to their homes.

MOTHS INVADE CITY.

During the past few days the hot weather has brought out myriads of moths which at night have been attracted by the electric street lamps, and fly about them in dense clouds. The coming of the moths seems to indicate heavy thunder storms.

RETURNED FROM WEDDING TOUR

Mr. and Mrs. Robert B. VanDine returned last night on the St. John train from their honeymoon, during which they visited many of the principal cities of the United States and Canada. They will begin house-keeping.

TO SELECT CANDIDATES.

A convention of Kent county Liberals is called to meet at Richibucto on July tenth to nominate a candidate for the House of Commons and three candidates for the Legislative Assembly. Hon. Wm. Pugsley and Hon. C. W. Robinson will be among the speakers.

NEW HYDRANT INSTALLED.

A crew of men of the water and sewerage department was engaged last night in installing a new two-way hydrant opposite the entrance to Wilnot's Alley on Queen street. The installation was made preparatory to the laying of Tarriva pavement on Queen street between Carleton and York streets.

AWAY ON VACATION.

Rev. J. E. Wilson, pastor of the George Street United Baptist Church, is away on his vacation, which will continue throughout the present month. During his absence Rev. J. H. MacDonald, pastor of the Brunswick Street United Baptist Church, will conduct the united services of the two congregations.

BANQUET FOR MR. EMMERSON.

On Tuesday, July 11th, the town council of Shediac will give a banquet in honor of Hon. H. R. Emmerson, M.P., at the Weldon House in Shediac. The committee in charge are Mayor Patourelle, chairman; Messrs. E. R. McDonald, E. A. Smith, D. J. Doiron and James McQueen, secretary.

JUDGE WELLS ILL.

Judge Wells of Moncton, was booked to sail from Liverpool on July 4. His Honor for three weeks was quite ill and confined to his home, being unable to bear the pressure of his foot on the ground. The attack passed away just in time to enable him to be present in Westminster Abbey and witness the coronation. His health is now very much improved.

THROWN BY HORSE.

Mr. Donald B. Winslow, while riding on horse-back last night, had a narrow escape from serious injury at the corner of Regent and Queen streets, his horse slipping and falling when attempting to turn the corner at a gallop. Fortunately the rider did not fall under the animal and escaped with nothing more serious than a few bruises.

VALLEY RAILWAY.

Hon. J. K. Flemming of Hartland, arrived in the city on Thursday night and registered at the Victoria Hotel. Speaking of the Valley Railway project today he said that since the conference with the minister of public works the project has been moving forward as rapidly as they expected. Owing to the size of the undertaking it will take some time to complete the arrangements, but he had no reason to feel disappointed over the progress made—Globe.

SASKATOON'S
PUBLICITY AGENT
IN THIS CITY

Official of Much Importance in West—Eastern Towns Could Well Follow Example.

Mr. F. McClure Scollanders of Saskatoon arrived in the city last night accompanied by his wife and child. Mr. Scollanders was formerly a resident of St. John but some years ago went to the bustling Saskatchewan town from which he now hails and took the position of publicity agent. That office is one peculiar to the West and one which has played and is playing a great part in the development of Canada's last great to establish industries. In many cities of that region.

THE OFFICIAL'S DUTIES

The publicity agent by means of an adequate fund advertises the town in which he may happen to be located, together with the country surrounding. His efforts are directed mainly toward the attraction of population and capital, population to make the number of the people in the town increase, capital to make it more easy to establish industries. In many cities and towns in the West the publicity agent has been found worth every dollar that has been expended on him and Eastern towns might well take a leaf out of the book of their Western sisters and make use of a similar official to advance their interests. In many places in the West it is the Board of Trade which supports the publicity agent, the members of that body believing that his attempt to benefit the town as a whole would benefit them individually.

NEWSPAPER ADVERTISING

The agent devotes part of his attention to the use of printer's ink. Saskatoon is one of the places which is kept before the public eye through the medium of the press and the advertisements of that town which appear in the leading dailies of the Dominion are very striking. The publicity agent also has to keep his eye on new industries that may be induced to come to his town, to watch the railroads and to obtain from them the best terms possible, in short to do everything that he may be able to advance the interests of the town in which he is employed.

THE EAST MIGHT COPY

The West finds it worth while to use such means toward advancement. Why should not the east? It is well known that this part of Canada has never been properly advertised and that to a large portion of the world it is an unknown land. Any attempt toward making it better known to the world at large should be welcomed. The appointment of an official similar to the publicity agent might not be deemed advisable but the adoption of his methods would certainly not be amiss.

GEM THEATRE

The Coronation Pictures are driving the crowds at this Popular Place of amusement. Tonight is the last time you will have a chance to see them. 3 other good Films.

CORRECTION

The report which reached the city from Sunbury yesterday that a barn belonging to Mr. George Briggs had been struck by lightning, and destroyed was not correct. The chimney in Mr. Briggs' dwelling house was struck, but no serious damage resulted.

CAVALRY OFFICERS' BALL.

The officers of the 28th New Brunswick Dragoons and the 8th Princess Louise's Hussars are planning to hold a ball at "The Bungalow," Camp Sussex next week.

INSTRUCTOR AT SUSSEX.

Sergt. Major Wm. J. Duncan, formerly of No. 3 Regimental Depot of this city, but now of Chatham, is at Camp Sussex with the 73rd Northumberland Regiment as its instructor.

TO REPRESENT MONCTON.

A Moncton despatch says:—Amos O'Brien, school inspector, Moncton, has been appointed a delegate from the Moncton Canadian Club to the annual conference of the Association of Canadian Clubs to be held in Winnipeg July 18-20. Inspector O'Brien leaves for the west in a few days, and will take in the Dominion exhibition.

BEAUTIFUL GIFT.

The St. John Globe says:—The members of the staff of the Bank of New Brunswick head office here on Thursday presented to their former associate employee, Miss Sadie H. Lindsay, who was married to Mr. P. J. O'Rourke, at Fredericton, on Thursday, a handsome case of silver, which was sent to the popular bride by Mr. Chas. S. Tompkins, in behalf of the bank employees.

HIGHWAY ROADS
WERE NEVER WORSE
AT THIS SEASON

This is the Verdict of People Who Travel in the Country—How Road Work is Done.

It is the universal opinion of autoists and others who travel in the country districts that the roads of York County were never in a worse condition at this season of the year than they are at the present time. There would have been some excuse for this state of affairs if it had been a wet season but there has been very little rain since early in the month of May so the bad roads cannot be blamed on the weather. One of the worst roads reported is the main highway between this city and Springhill. It is full of dangerous holes, the culverts are in a neglected condition and it is not too much to say that it is a positive disgrace to the government and its officials. The same may be said of the roads through the Parishes of St. Marys, Douglas and Bright except that in many cases they are even worse than the Springhill road.

ROAD WORK?

Road work under the up-to-date system prescribed by the Hazen Highway Act is now being performed through the county. Many of the officials in charge seem to lack experience in such work and are making the roads worse instead of better. Some idea of the condition of the roads may be gathered from the fact that a physician who went into the country recently in an auto, to attend a patient was ten hours covering one hundred miles. After arriving at his destination he sent the auto home in disgust and after attending to his patient made the return trip by train.

HOW IT IS DONE

A citizen who recently visited the country had a good chance to study the Hazen highway act in actual operation. He saw a crew of men with several teams at work on a piece of road and they all seemed to be trying their level best to see how easily they could kill time. The conclusion he arrived at was, that there never was a bigger fraud perpetrated on the people of New Brunswick than the Hazen Highway Act.

A gentleman from Sunbury County who was in the city recently told The Mail that he had always paid his road tax in cash previous to

FOUR HUNDRED
WILL ATTEND
SUMMER SCHOOL

First Session at Normal School on Wednesday Next—Most Successful Session is Expected.

From present indications it looks as if the 1911 session of the Summer School of Science which opens here on Wednesday evening next, will have a record attendance. A number of Nova Scotia teachers will be here and Prince Edward Island will also send her contingent. A good number of entries have also been received from the United States. In all there will probably be four hundred in attendance.

MANY SCHOLARSHIPS

The chance of earning a scholarship of ten or twenty dollars has attracted many teachers. His Worship Mayor Thomas, has taken a very great interest in the school, and through his efforts twenty scholarships have been donated by leading citizens of Fredericton and neighborhood. From outside points, about thirty more scholarships have been given, and while some few are offered for students from certain specified localities the majority are open for competition amongst all students of the school.

PUBLIC MEETING

The government has granted the use of the Provincial Normal School for classes and lectures, and the city School Board has also kindly offered rooms in the High School Building. The opening meeting will be held in the assembly hall of the Normal School on Wednesday evening next, and the public will be welcomed.

TOURIST ASSOCIATION AIDS

The Fredericton Tourist Association has co-operated heartily with the Mayor in making the attractions of Fredericton known amongst American teachers.

It is likely that some form of public entertainment for the visiting teachers will be devised. It will probably be an excursion to some place not far distant from the city. The work of the school itself includes daily excursions to places such as Curries' Mountain, where practical lessons in Natural Science may be given.

Mr. W. A. Ewing of St. John is in the city. Mrs. C. N. Clark left this morning for Browns Flats to spend a few days.

SPECIALIZATION

If you think you can do something BETTER, don't think about it. Do it. That is SPECIALIZATION.

My Speciality is Refraction, and the proper and scientific fitting of Spectacles and Eyeglasses.

Graduate of the Spencer Optical Institute, New York, in 1895. Since that year I have fitted and given satisfaction to thousands of patrons. Lenses required for the relief of Defective Vision adjusted and ground to order. Spectacles furnished at a moderate cost, consistent with the requirements of the case.
