

WE LIKE TO TALK KODAK

We are always best satisfied when our customers are best satisfied. That's one reason why we like particularly to talk about the goods in

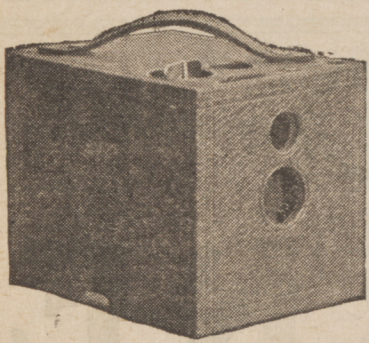

our photographic department. The Kodak goods have quality written all over them.

They are our kind of goods because our kind of customers, the quality kind, can appreciate them.

KODAKS made and popularized amateur photography. They have always led in improvements, in new ideas. But what is of equal importance is the careful workmanship and the superb lens and shutter equipments. Yet they are not expensive - - \$5 up.

F. B. CARVELL, M. P. WAS HONORED BY CONSTITUENTS

Woodstock, N. B., July 29—Frank B. Carvell, M. P., the member from Carleton county, received a cordial reception upon his arrival home today from his visit to the coronation. He came down by River du Loup, reaching Woodstock by the 5.15 train accompanied by his wife and daughter. As the train drew into the station the band played Home, Sweet Home.

Mr. Carvell was greeted warmly by Mayor Ketchum and the town council, Warden Stevens, of the county council and a large number of political and personal friends at the station.

He was presented with an address of welcome signed by the Mayor and members of the town council and the Warden of the County.

Mr. Carvell in responding to the address, said that he was more than pleased at the nature of the reception, and particularly as it was a non-political character. He joined cordially in the sentiments expressed in the address and said he thought it would be a good deal better for us all on both sides of politics, if there were more of such occasions as this.

With regard to his recent visit to England he wished to say that nothing could have exceeded the kindness and hospitality which was accorded to him and the other Canadian delegates by all classes in England. He came home more proud than ever of being a British subject and more impressed than ever of the greatness of the British Empire. People here were very much mistaken if they thought the old land was decadent or was going behind on the other hand he saw signs of progress and development not only in England but in Scotland, Ireland and Wales, all of which countries he visited.

He wished to thank the Mayor and warden for the kind words of the address and the particularly kind reference to his wife and daughter. While he saw so much to admire in the old land he would prefer to live in Canada than in Great Britain, because it was his home, and he was especially glad to be back in Woodstock and Carleton county among his life long friends once more. He reiterated his thanks for the kind welcome he had been given.

Mr. Carvell with the mayor and warden was driven to his home in a barouche preceded by the Woodstock Band.

James E. Sullivan, secretary-treasurer and practically head of the A. A. U. could have been one of the New York boxing commissioners but he declined the job. Sullivan states that Charlie Harvey will be the secretary of the commission.

What action the New York boxing commission will take regarding decisions being given in bouts is the point that the promoters and fans are now anxious to know. Bartow S. Weeks, one of the commissioners appears to be in favor of giving decisions but the others have not yet declared how they stand on that point.

"There's a Reason"

COLLISION WAS DUE TO VIOLENT STORM

Grindstone, Me., July 29—Responsibility for the accident on the B and A had not been placed this morning. The collision is believed to have been due to a misunderstanding in orders and was made possible by one of the most violent midsummer storms that has swept this part of the country in years. The passenger train was bound from Van Buren to Bangor. The excursion train was returning from Kidders Point near Searsport on Penobscot Bay, bound for Presque Isle and was running a minute late. The two trains were to pass each other at Grindstone, but there was a misunderstanding somewhere, it is believed, for the Van Buren train was just pulling out of the station when the excursion train shot out of a blinding sheet of rain making for the siding. Neither engine was moving very fast at the time, but with sufficient speed to telescope the train two cars lengths.
