PROMISES OF 1908 AND PERFORMANCE OF PAST 3 YEARS

A Review of the Planks of the Hazen Platform of 1908 and the Record of the Government--An Interesting Comparison for the People--How Many Pledges Have Been Kept?--Contrasted Facts to be Considered by the Electors of York.

HAZEN'S PLATFORM IN 1908.

(From the Fredericton Gleaner of Jan. 2, 1908.)

1.--The honest collection of provincial revenues and the management of loans, not so much in the special interest of the moment or of the temporary needs of the government as upon a basis permanently of most advantage to the province.

2.--The keeping of the ordinary expenditure of the province within the ordinary revenue.

3.--The appointment of an Auditor General independent of the government, who shall have power to insist upon the accuracy and honesty of accounts before they are paid.

4.--The putting up of all public work to tender, and the giving of the contract to the lowest bidder.

5.--The cutting off of all needless extravagances in connection with the administration of the various departments and an absolute rule that public money shall not be paid out unless a proper voucher is first presented.

6.--The repeal of the present highway act and the enactment of a law which, without diminishing the amount of provincial money given to the roads, shall vest the management of the roads and the appointment of all officials in the county councils.

7.--The survey and valuation of our crown lands, so that the interests of the province may be conserved and the lumber operators both large and small have encouragement and fair and honest treatment.

8.--The inauguration of an agricultural and immigration policy as well as the promotion of the settling of our own lands by our own people.

9.--The improvement in quality and the reduction in price of our school books so that our people shall not be robbed of hundreds of thousands of dollars but shall get the best possible value for their money.

10.--The extension and encouragement of local schools so that every man in the province who has a family may have an opportunity to give his children an elementary education.

11.--An increase in the provincial allowance to school teachers.

12.--The secrecy of the ballot and an honest carrying out of the election laws, believing that every citizen of the province entitled to the franchise should be free to vote as his conscience directs.

HAZEN PERFORMANCES SINCE 1908.

1.--The revenue still collected in the way followed by the old government and the mismanagement of loans so that in one case it cost the province over \$40,000 paid to the Bank of Montreal and its lawyer-friends for commission, etc.

2.--Annual additions to the public debt which total over \$600,000 since 1907, and the carrying over of accounts from year to year to avoid the necessity of paying all the bills incurred in a certain fiscal year in that year.

3.--The frequent over-ruling of the Auditor General by the Treasury Board, composed of three members of the government, even in cases in which the Auditor General declared accounts to be "Excessive" and declared that no attention was paid to the provisions of the Audit Act; and a present attempt to bring about the dismissal of the Auditor General because he has protested against the government's method of handling the public accounts.

4.--The adherence to the day's work system in regard to public works, the letting of contracts being the rare exception rather than the rule; seven pieces of contract work being done on York bridges in 1910 out of about sixty-three.

5.--The increase of the salaries of several of the Hazen ministers and the increase of the expenses of the ministers, their office staffs, etc., as compared with the similar expenses of 1907; and the payment of money under improper vouchers and for work done absolutely without departmental authority--facts proven in the Public Accounts Committee at the last session of the Legislature.

6.--The enactment of a highway law that has almost doubled the taxation for roads and places the real control of the highway affairs in the hands of the government through its appointment of the secretary treasurer of each Highway Board.

7.--Absolutely no steps taken whatever to have the promised survey and valuation made; and unfair treatment for the operators by practically compelling them in many cases to provide board and lodging for government scalars and counters for days at a time.

8.--The adherence along general lines to the agricultural policy of the former government; the appointment of a medical doctor for Commissioner of Agriculture; the expenditure of about \$7,000 of the people's money on a useless agricultural commission composed of friends of the government; the increase in 1910 over 1909 of the expenses of the staff of the Agricultural Department.

Noteworthy increase in the cost of the Immigration Department by thousands of dollars--\$4,500 in 1910 alone--and the appointment of a lawyer as Immigration agent; the encouragement of settlers from other countries to take up lands here with no similar encouragement for our own young people.

9.--Some reductions in the prices of school books and the imposition of an accompanying burden upon the people of the province by the creation of offices for friends of the government such as Mr. A. D. Thomas and the son of a defeated government candidate in Carleton county, and others.

10.--Practically no extension of local schools and the creation of a state of affairs whereby the number of vacant schools in the province in 1910 was several hundred.

11.--Some slight increase in the allowance to school teachers, but an increase not as large as that to have been given by the old government had it continued in power.

12.--Absolutely no action in regard to the ballot and the election laws in addition to that taken by the former ministry though at last session a committee was appointed on motion of the government to consider the election laws, but did nothing.

YES! THIS IS THE DAY.

Tiny Williams is at the Bijou today and no doubt will draw capacity houses. She is more clever than ever. See the picture features, "The Broken Trail," an Indian-cowboy story, and "Jean Rescues." Jean, the dog, is very clever in this story. Remember you can see this splendid show afternoon or evening. Evening program starts at 7.30. Orchestra. 5 & 10 cents.

PRESIDENT DAIZ'S HOME WAS STONED

San Antonio, Texas, Mar. 19--That the official residence of President Diaz in Mexico City was recently stoned by insurrectionists sympathizers was an important item of news that came out in San Antonio yesterday. The attack on the presidential palace was made about 9 p. m., while Diaz was giving a reception which was attended by a large number of foreigners. The demonstration was entirely unexpected and before the police could disperse the mob, over half the windows in the palace were broken. The aged Mexican president, it was said, was the coolest person in the palace during the demonstration and personally saw to the issuing of orders that caused the mob to disperse.

MANY LIVES LOST ON NEW ENGLAND COAST

Boston, Mass., March 20.--Fully 125 persons perished in accidents which befell New England, Canadian and Newfoundland vessels or other craft which met with disaster in the upper north Atlantic during the fall and winter season. It is impossible to announce the exact number of lives lost, as a missing Gloucester schooner, the Ella M. Goodwin, with her crew of ten men, may be yet afloat in northern icefields and as statistics of lost Newfoundland fishermen are incomplete. In all one hundred vessels were ashore, sunk, abandoned, burned or in collision during the past six months. Of the number 75 were schooners, 7 steamers, 7 barges, 3 barkettes, 2 barques, 2 brigantines, tugs and one \$25,000 auxiliary steam yacht and one power boat.

The Maritime Provinces were remarkably free from fatalities, although many natives of that section of Canada were lost in wrecks elsewhere or perished on several craft long posted as "missing."

The combined financial loss is estimated at nearly \$1,000,000. Some hope is still entertained that the ten men, nearly all Nova Scotians who sailed from Bay of Islands Nfld on the Gloucester schooner Ella M. Goodwin for home January 1 are safe. A vessel believed to be the Goodwin was sighted in a dense icefield in the northerly part of the St. Lawrence several days after she sailed. If the Goodwin is still afloat she will not be released probably before April 15.
