

## TRIED EVERYTHING WITHOUT RELIEF

Until I took "Fruit-a-tives"

SARNIA, ONT., Feb. 5th, 1910.  
"I have been a sufferer for the past 25 years with Constipation, Indigestion and Catarrh of the Stomach. I tried many remedies and many doctors but derived no benefit whatever.

Finally, I read an advertisement of 'Fruit-a-tives'. I decided to give 'Fruit-a-tives' a trial and found they did exactly what was claimed for them.

I have now taken 'Fruit-a-tives' for some months and find that they are the only remedy that does me good.

I have recommended 'Fruit-a-tives' to a great many of my friends and I cannot praise these fruit tablets too highly."

PAUL J. JONES

"Fruit-a-tives" is the only natural cure for Constipation and Stomach Trouble, because it is the only medicine in the world that is made of fruit juices and valuable tonics. Hundreds of people have been cured, as if by a miracle, by taking "Fruit-a-tives", the famous fruit medicine.

50c. a box, 6 for \$2.50, trial size, 25c. At dealers, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

## NOTABLE SPEAKERS TO ATTEND CONVENTION

For a month past the St. John Interdenominational Laymen's Missionary Committee has been in co-operation with the Laymen's Missionary Association in Canada, preparing plans for the big convention of men to be held in the city of St. John, November 20-22.

The convention in St. John will be one of the eleven being held throughout the Dominion, beginning at Vancouver and ending at Sydney.

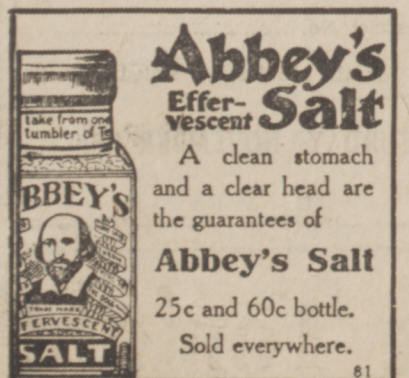

The central committee in charge of the New Brunswick convention has made good progress since it was definitely decided that the convention would be undertaken. Letters have been sent to every clergyman and a large number of laymen throughout the Province advising them of the dates and asking them for the names of probable delegates from their respective parishes. The returns from these letters have been very gratifying to those responsible for the success of the convention. Registration cards are coming in from all sections of the Province in such numbers that a very large attendance from our parishes in the Province is assured.

The committee of management is having some difficulty in deciding upon the most suitable building in which to hold the convention. The Centenary Methodist Church is mentioned as it has the largest seating capacity of any church building in St. John, but it will only seat four hundred people. The St. John Opera House is also mentioned, but some objection is raised against holding such a convention in an opera house. Whatever building is used however those delegates holding registration cards are assured of seats at all the meetings, as reserved seats will be held for them.

The chief speaker at the convention will be Sir Andrew Fraser, K. C., S.I. Lieutenant-Governor of Bengal, India, who is making this special trip from India to Canada to be present at these conventions. Another speaker of world prominence who will be at the New Brunswick convention will be Mr. J. Campbell White, just returned from Ceylon, China, where he has been making a special study of the missionary situation in the Orient.

## CHARITIES AND CORRECTION

Indianapolis, Ind., Oct. 28.—The twentieth annual meeting of the Indiana Conference of Charities and Correction, which opens this evening for a three days' session, has attracted to this city a large number of prominent visitors. Prof. U. G. Weatherly of Indiana State University will preside over the sessions.

## BATTING AVERAGES FOR THE BIG GAMES

(Canadian Press.)

Philadelphia, Pa., Oct. 27.—The official batting and fielding average of the Athletic and New York players in the world's series, compiled by Francis C. Richter of this city, and J. G. Taylor Spink of St. Louis, the official scorers appointed by the National Commission, were made public last night. For the world's champions, Baker leads at the bat with an average on the six games of .375. Barry is second with .368, and Murphy third with a percentage of .304. The team's batting average for the championship is .249. Lord and Davis are the only Philadelphia players who took part in the six games, who have a fielding average of 1.000.

Crandall leads the Giants at the bat with an average of .500, but he only took part in three games. Of the players who took part in the six games Captain Doyle leads with a percentage of .304. Meyer is second with .300 and Herzog third with .190. Mathewson has an average of .286, but he was in but three games. The team's batting average is .175. Snodgrass and Meyers each have a fielding average of 1.000 in the six games. Murray made the poorest showing of any of the Giants. He did not make a hit during the series, and his fielding is rated at .625.

The Athletics excelled in every department of the game, except base stealing, and they tied with their opponents at four in that brand.

## PUGILIST JOHNSON IS NOW A MASON

(Canadian Press.)

London, Oct. 27.—The recent somewhat hurried initiation of Jack Johnson, the negro prize fighter, into a Masonic Lodge of Dundee, has raised a storm of protest throughout the country. The Grand Lodge of Scotland, presided over by the Marquis of Tullibardine, has ordered a searching inquiry into the matter. The Dundeeites ridicule the interference of the Grand Lodge, and maintain that Johnson is as good as any Scotchman.

## ALL DYSPEPSIA OR INDIGESTION GOES IN FIVE MINUTES

Take your sour, out-of-order stomach—or maybe you call it indigestion, Dyspepsia, Gastritis or Catarrh of Stomach; it doesn't matter—take your stomach trouble right with you to your Pharmacist and ask him to open a 50-cent case of Pape's Diapiesin and let you eat one 22-grain Triangule and see if within five minutes there is left any trace of your former misery.

The correct name for your trouble is Food Fermentation—food soiling; the Digestive organs become weak; there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness or many other similar symptoms.

If your appetite is feeble, and nothing tempts you, or you belch gas, or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Prove to yourself in five minutes that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapiesin.

## SUMMER CAPITAL CLOSED

Beverly, Mass., Oct. 28.—The Taft summer home, Paramatta, was closed today and will remain shuttered and locked until the family returns next June. Mrs. Taft, and Miss Helen Taft, wife and daughter of the President, have gone to Hot Springs, Va., where they will spend several weeks before returning to Washington.

To save time in shelling peas wash peas thoroughly and put to boil in the pods. When they are done the pods will burst, and can be skimmed off, while peas go to the bottom. The flavour surpasses that of the peas shelled before cooking.

Don't allow children to contradict or interrupt any one who is speaking. Don't allow children to make comments on the food set before them.

Don't permit children to monopolize the most desirable positions and most comfortable chairs.

## MONCTON DRYEST TOWN IN THE SCOTT ACT BELT

(Montreal Herald)

"The driest place I was ever in" The commercial man repeated the query meditatively, and with thoughts drifting back to the "lid-on-tight" area, hastily ordered another stein of frothy German brew at a down-town cafe.

"No, it isn't in a regular prohibition belt," he said. "Not quite that but a lot worse. Why, Toronto a Sunday is a wide open beer garden compared to the place I'm thinking about, and Westmount is a Bachanalian revel."

## 'MONCTON'S THE PLACE

"Yes, I guess you gotta mold a few new medals and shields for Moncton New Brunswick, if you're giving out prizes for dry towns. Why say, to get a drink in that town, if you have no relatives with a pull, you gotta go to get introduced by parties who are the inside, relate your family history, show them that none of your relatives ever kept the pledge longer than the second of January, and take an oath never to tell it that makes a Free-Mason's vows on the hot sands look like the promise of a summer girl on a June evening at the seashore. Then if you made a bit with the boss, he'll lead you out through a few dark halls, lock the doors behind him, blindfold you, turn you around six or seven times, and shoot a mouthful of stuff across that you got to see a doctor about right afterwards."

## SCOTT ACT DID IT

"Moncton about the nearest little example of the way that old Scott Act can perch on the top of the lid and cram it down until things are drier'n a budget of infant class statistics look to an old maid that you can dig up anywhere north of the line across which we have decided not to do very much tradin' in future. It wasn't very long ago that they used to run the bars there wider open than a pawn shop on Monday morning. They had bar-tenders then, and mixed drinks, and things. The Chief of Police used to write a little note to his force of four gently intimating that they might drop around and see that the bars began to think of closin' up about eleven in the evening and not to let the boys make too much noise, but outside of that, the old Scott Act was a joke."

"But it's no joke now. With a chief of police who seems to have a man who has sold a drink by the way he holds his fingers the sellers are forced to work their gray matter so hard keepin' out of jail that they've invented all kinds of homes for passing out bad booze to the natives who think they've gotta have it."

## BOSTON POISONING CASE ATTRACTS MUCH ATTENTION

Boston, Mass., Oct. 27.—Not for years has Boston been so thoroughly interested and stirred up as it is at present by the mystery surrounding the death two weeks ago of Miss Avis Linnell, a young and very beautiful music student at the New England Conservatory of Music in this city, who died from poison in the bath room of the Young Women's Christian Association lodging house on Warren street, on the evening of Saturday, Oct. 14. At first but little attention was paid to the case as it was thought that the death of the girl was caused by a fatal mistake or that she had committed suicide.

But the sensational feature which at first seemed to be lacking were soon supplied when the autopsy of the girl's body by the medical examiner disclosed the fact that the girl was in a delicate condition at the time of her death. The report that Miss Linnell had for two years been engaged to Rev. Mr. Richeson formerly of Hyannisport, Mass., but now pastor of the Immanuel Baptist church, Cambridge and that quite recently the engagement of the young pastor to Miss Violet, daughter of Mr. and Mrs. Moses Grant Edmonds of Brookline had been formally announced naturally increased public interest in the case and since then the local newspapers have devoted many columns a day to the thorough discussion of every detail connected with the mysterious case and to accounts of the new developments from day to day.

From the beginning, almost, there had been hints that possibly the Rev. Clarence V. T. Richeson knew more about the circumstances surrounding the death of Miss Avis Linnell than he chose to admit. As the investigation progressed a strong suspicion arose that the young pastor had been in some way connected with the

## WOMAN CARRIED IT

"About the most original of these came to light a few weeks ago. There was a little oyster parlor in the main street of the city not more than a block away from the police station. It didn't have any oysters in stock, and little of anything else and the police noting that the number of town souses had increased by three one week, began to have their suspicions about the place, which was conducted by a jolly little French Acadian and his spouse. The lady always kept pretty much in the back-ground, and was supposed to do what little cooking was called for.

"One day, a badly pickled young man landed in the jail and told the horrified police that he'd got the stuff in the oyster shop. There was a search warrant and a search, but nothing could be found. A few days later, the very same thing happened again. The next week another young sport, who started out to paint his nose and the town in crimson tones was scopped, and when the police chief enquired where he got it, he whispered something into that dignitary's ear that made him blush. Out came another search warrant, into the oyster palace marched the police force, and the genial little proprietor, accustomed to visits, received them warmly."

## MATRON FOUND IT

"There was an embarrassed silence. Finally one of the officers demanded of the proprietor that he produce his wife, which he did cheerfully. The lady was hastily taken to jail, and kept there until a matron could be hired. Then the mystery of the booze supply was revealed. Around her neck the lady had strapped a large rubber hot water bottle. But there was no hot water in it—only a couple of quarts of a concoction which went for whisky."

"That was the most original scheme the police of Moncton unearthed. One place kept the bottles in a baby carriage, but that was found out when a searching officer brushed against the perambulator and rattled the glass ware. Another hotel kept the refreshments behind the books in a book case. When you wanted whiskey, the bar-keep would pull out a big volume of Shakespeare and take the bottle from behind. Carlyle's Essays covered the gin, and Pilgrim's Progress concealed the rest."

"Some of the hotel keepers carry the supply with them and fish a bottle out of their back pocket when they want to give a drink. But no one has ever doped out anything so original as the little Acadian—and even the man who kept two bottles underneath the pile of coal by the fire-place."

"And I'm just back from there—let's have another."

## The Ideal Reading Lamp

Opticians agree that the light from a good oil lamp is easier on the eyes than any other artificial light.

The Rayo Lamp is the best oil lamp made.

It gives a strong, yet soft, white light; and it never flickers. It preserves the eyesight of the young; it helps and quickens that of the old. You can pay \$5, \$10, or \$20 for other lamps, but you cannot get better light than the low-priced Rayo gives.

Made of solid brass, nickel-plated. Easily lighted, without removing shade or chimney. Easy to clean and rewick.

Dealers everywhere; or write for descriptive circular direct to any agency of

The Imperial Oil Company, Limited

## B. J. GRIFFITH New 5 and 10c Store

The place to buy all kinds of household goods, Tinware, Glassware, Stoneware, Crockeryware and stationery Wall Papers. We Keep Everything, our Prices are always the Lowest and our goods are the Best for the money.

## ROOSEVELT'S BIRTHDAY

New York, Oct. 27.—Ex-President Roosevelt was fifty-three years old today. He was the recipient of many congratulations, but passed the day very much according to the routine which marks his every-day life.
