FINANCIAL and COMMERCIAL

MARKET LETTER

(From J. M. Robinson & Sons, Bankers and Brokers, St. John, N. B.)

St. John, Oct. 27.—A short time ago this was described as a "creeping bull market" and it has during the last few weeks well justified the title for since the low point in September there has been a slow and steady upward tendency not to be noticed so much in the most prominent stocks as for example, Steel and Union Pacific but readily found by careful attention to the list and a comparison of prices of such stocks as Harvester, Norfolk and Western and American Telephone, which have advanced partly because of their own strength and partly under the cover of trading in the more popular issues. The action of the government however in giving notice of suit against the United States Steel Corporation has precipitated weakness and through the list and has stirred up once more the feeling of uncertainty which during the past few weeks of quiet had begun to die down. Already comment is largely to the effect that this action is not justified, that the Steel Corporation through the cancelling of its ore leases, the text of which we give below, has shown its disposition to meet the spirit of the Sherman law.

Except for this incident and the active liquidation which it has started, the week has been quieted, the most notable feature being the slowly returning confidence and the steadiness of prices. Railroad earnings on the whole are good and there is a feeling that Steel will continue to pay the dividend. Steel business too, is a little better though owing to the reduction in price, and orders being placed for equipment by the railroads and the smaller number of idlers indicate that the country is still doing business.

—MONEY

Ease in monetary conditions continues in the United States where funds are plentiful and the rates moderate the call from the West and South being much less than usual at this season. In Europe however discounts are reported rather high and competition for funds keen in consequence, the U.S. is quite a lender abroad the amount being variously estimated at one hundred to one hundred and fifty million dollars. Canadian money is easier than during the Spring and Summer, the increased Bank circulation has provided ample funds for the Autumn business and the outlook is for a continuance of this condition.

THE UNITED STATES STEEL ORE LEASE WITH GREAT NORTHERN.

The Steel Trust has decided to cancel its lease of the Great Northern ore deposits, which were estimated to contain from 300,000,000 to 500,000,000 tons of ore. This it has a right to do by giving notice two years before January 1, 1915. Herbert Knox Smith, the Commissioner of Corporations at Washington in his report to the President, declared that this lease as well as the control of the transportation lines on which a very high ore freight rate is charged, gave the Steel Trust a decided advantage which was of a monopolistic character. By terminating this lease and reducing the freight rates which the Trust's competitors have to pay, the Steel Trust is seeking seemingly to fortify itself against the possibilities of a Government suit for dissolution. The Trust has thus far mined only about 3,000,000 tons and paid for the ore privileges over \$8,000,000. That no more ore has been taken out is considered proof of an attempt to monopolize the raw material of the industry. Whether the Government will sue the Trust under the Anti-Trust law, still remains a guess, as Attorney General Wickersham refuses to affirm or deny all rumors of Government action have not tended to help Steel shares. What the further investigation of the Trust by the Congressional Committee will bring, remains to be seen. It is however, making the shareholders nervous. There are revived rumors in the street also that the alleged harmony in the Trust directorate is all on the surface, and that brokers representing Henry C. Frick, who is a leading director, have resumed the selling of steel.

NOMINATION BLANK

THE MAIL, Fredericton, N. B.

Gentlemen—I respectfully nominate Mrs. or Miss who lives at

No. Street

Town of District No.

as an eligible candidate in your Educational Tour Contest, and will do all in my power to help her win.

..... SIGNATURE

Give date and hour sent in,

\$20 in Gold will be presented by the Evening Mail to the first person nominating the candidate who polls largest vote of all

The following is the term of the lease referred to above.

TERMS OF LEASE

This lease provided for the mining and shipment of at least \$1,500,000 tons of ore during the year 1908 and for an additional 75,000 tons in each year thereafter until the total annual amount mined and shipped shall reach 8,250,000 tons in 1917. The lease is terminable Jan. 1, 1915 at option of United States Steel Corporation on two year's notice.

The royalty to be paid by the Great Western Mining Co. is based upon the quality of ore mined containing 59 per cent of metallic iron being the unit on which such royalties are computed. The lease fixes the royalty at \$1.65 per ton delivered at upper lake docks and the Royalty rises or falls 4.82 cents for each increase or decrease of 1 per cent in the amount of metallic iron contained in the ore, these royalties increase 2 cents per ton each succeeding year. The profits after payment of 80 cents per ton freight to the Great Northern Ry will be distributed to holders of certificates at least once a year together with any profits derived from various leases in effect prior to Dec. 7, 1906.

To insure immediate development the lease requires under of forfeiture exploration first of the lands held under leases and then of fee lands, with not less than forty drills until fully covered.

MONTREAL MARKET

Our own market still continues to hold its advance in the face of declining conditions in the New York market. During the past week Common and Preferred have both shown marked strength, the information to hand being that the earnings are considered very good. Montreal Power has been another strong feature selling as high as 178, the earnings of this Company are stated to be sufficient to provide for a 10 per cent dividend and with the prospects of such an increase in sight, we consider that the stock is still a purchase. Dominion Textile common has also moved up, the high price for this stock being 72. This Company shared largely in the distribution made by the Montreal Cotton Company in addition to which raw cotton is now at a lower figure than it has been for some time past and we expect to see the next annual statement of the Company show a much stronger position than ever before. Another cheap stock on the list is Detroit United selling in the vicinity of 73½ and paying a dividend of 5 per cent with earnings largely in excess over last year. Thiss Company is in some difficulty in making franchise arrangements with the City of Detroit, but if amicable settlement should be arrived at the stock should sell higher than the present price on account of the excellent earning power of the Company. The unlisted department Spanish River Pulp Company common stock has been largely traded in and earnings of this Company are also reported as being large Canada Light has sold off somewhat around 45 to 46 in sympathy with Montreal Street Railway. Taking the market as a whole for the past week it has shown excellent strength.

Trenton, N.J., Oct. 27.—Following New York Steel, the difficulties which have heretofore beset process servers seeking John D. Rockefeller and all other millionaires named as defendants in the dissolution suit filed yesterday against the United States Steel Corporation, were not expected to develop today in the service of subpoenas issued in the suit, the opinion prevailed at the United States Marshall's office here that the Corporation lawyers probably would accept service in New York of the entire batch of subpoenas. The drafting of subpoenas was the task of Henry Olphand of the United States Circuit Court upon opening his office today. Deputy marshalls took the documents as fast as they were prepared. They required the defendants to appear in person or by counsel at the Trenton Court on December 4, in answer to the petition. Actual presentation and prosecution of the suit probably will be the work of attorney general Wickersham and his assistants at Washington. District attorney Vreeland whose signature is appended to the petition is unfamiliar with the details of the suit. His signature was affixed to observe the legal formation but his connection with the case is believed to be purely nominal. It is the subpoenaes that will bring the defendants into court. Following the return day December 4 when the defendants must in an appearance by counsel, they have until the first Monday in January to put in their answers to the charges set forth in the government petition. The government probably will make a reply and then if the procedure of court prosecution is followed, the trust will appoint an examiner to take testimony. The examiner may sit in any city convenient to the government's attorneys and the defendants witnesses.

In view of the fact that most of the defendants live in New York and most of the papers and documents of the corporations are in vaults there, most of the hearings may take place in that city. After all testimony is in, argument will be heard by the full circuit court bench, probably in Philadelphia where the full bench of the third jury usually sits.

Winnipeg, Man., Oct. 26.—More trading took place in Winnipeg Electric yesterday than for some time. Apparently there is firmer belief in some definite action with regard to reported terms of offer made by the New York interests. The value of the stock is determined no doubt, upon what the unknown buyers are said to be prepared to pay for it. It is a stock market value and not an intrinsic one. Dispatches from the east indicate that to sustain the price, new developments are to take place, not necessarily within the area over which the civic authorities of Winnipeg hold sway. Some such schemes may possibly be underway, but at present they are "in the air." Though the new buyers regard the legal position of the corporation they hope to control with complacency, the attitude of the citizens of Winnipeg would indicate that they too, are quite complacent as to results both as to competition from their plant and from the Privy Council hearing.

It does not appear that any excitement respecting the transfer of ownership of the Winnipeg Electric originates in Winnipeg. Its home appears to be where the public have more interests in the company's dividends and share prices rather than in paying its electric light and gas bills, and otherwise in its relations to the city.

TIPPING C. P. R.

The New York Financial Bulletin says: Bull reports are in circulation on C. P. R. in houses with Canadian connections. It is asserted that the stock is to be put up to recent high prices in the course of the next few weeks. The investment demand abroad for it and its decline is reported insistent.

8. P. C. ON COMMON STOCK

Montreal, Oct. 27.—A capitalist who usually is well informed on Cement Company affairs, told this morning that the Canada Cement Company will show net earnings of approximately \$2,200,000.

This, after \$250,000 interest charges \$100,000 for depreciation, \$735,000 for preferred dividends, would leave \$1,115,000 available on the common stock or no less than 8 per cent. As no dividend will be paid on the common stock, the cash surplus will be raised to about \$1,330,000.

The net profits on the estimate made by The Herald's informant, of \$1,950,000 after interest, compare with \$1,177,697 in 1910. The company's year ends December 31.

HARRIMAN ROADS

Union Pacific Sept. gross decrease \$211,854; Sept. net increase \$75,069. Three months net decrease \$744,238. Southern Pacific—Sept. gross decrease, \$316,784; Sept. net increase, \$181,613; 3 months gross decrease \$1,002,851; 3 months net decrease, \$731,067.

BOSTON POISONING CASE

(Continued from page two)

daughter of a fairly well-to-do carpenter at Hyannis, were so marked that nobody was surprised when the girl displayed a handsome diamond ring upon her engagement finger and admitted to her friends that she was engaged to Richeson.

When Rev. Richeson left Hyannis and became pastor of the Immanuel Church in Cambridge, Avis Linnell followed him to Boston. She entered the Conservatory as a voice student and lived at the Y.W.C.A. home on Warren street. When she was informed that Rev. Richeson's engagement to Miss Edmonds, the daughter of a wealthy family in Brookline had been formally announced, Avis Linnell did not lose her confidence in her lover. She said, it must be a mistake and continued to meet her fickle minister. She frequently visited him at his lodgings and went out with him. On the evening of Oct. 14 she returned to her lodgings, and about an hour later was found dead in the bathroom. Her death was caused by cyanide of potassium and the police are said to have positive proof that Richeson purchased a quantity of the poison the day before the girl's death.

The frigidity of his reception in Copenhagen the other day must have reminded Dr. Cook of the coolness of the North Pole which he didn't discover.

It begins to look as if the winter were trying to break in.

NEWS FORECAST FOR THE COMING WEEK

Washington, D. C., Oct. 28.—Leaving Chicago Monday afternoon President Taft will end his original trip the following day in Pittsburgh, and from that point will begin his "supplemental tour."

In Pittsburgh, President Taft will witness the great national mine safety demonstration to be given under the auspices of the bureau of Mines, the American Red Cross, the United Mine Workers of America and the Pittsburgh Coal Operators Association. The President will spend Wednesday at Morgantown, W. Va., and from there will go to Hot Springs, Va., for five days.

The mobilization of the Atlantic and Pacific fleets at New York and Los Angeles the early part of the week will mark the gathering of the greatest naval force that ever floated in the waters of the western hemisphere. The Atlantic fleet to be reviewed by Secretary of the Navy Meyer will comprise 102 vessels of all classes with a total displacement of 577,599 tons and the Pacific fleet, twenty-four vessels of 116,245 tons.

The fifth international sanitary conference of American republics will assemble in Santiago Chile, Wednesday for a session of ten days. Subjects of interest to every nation including sanitary legislation, social hygiene, and the hygiene of sea, railroad and tramway traffic, will be discussed.

Important action is expected from the conference of cotton States governors which is to meet in New Orleans Monday to discuss plans to check the downward price of the staple.

Canada will observe Monday as Thanksgiving Day. The observance will take the form of a general holiday, with military parades and athletic events in all the larger cities, in addition to the customary church services.

Many important football contests among the colleges throughout the country are scheduled for Saturday. The chief interest of all the followers of the sport, however will centre in the Harvard-Princeton game at Princeton. It will be the first time the two big colleges have met on the gridiron in a number of years.
