MAYOR OF MODEL TOWN MUST STAND TRIAL

Valparaiso, Ind., Nov. 2.—To the court records of Porter county there are about to be added several interesting chapters that might be appropriately entitled "The Troubles of a Model Town." The cases of Mayor Thomas E. Knotts and several other officials of the city of Gary against whom serious charges are pending, are on the docket for next Saturday and it is expected the trials will begin here early in the coming week. If half that has been printed concerning the alleged corruption in the "model city" planned and dominated by the steel trust is true, then revelations may be expected at the trials that will relegate the political grafters in some of the big cities to the shelf reserved for "pikers."

The city of Gary has yet to celebrate its tenth birthday, but despite its youth it is a city in all that the word implies. Where scarcely a decade ago there was nothing but the long sweep of sand dunes on the shore of Lake Michigan there are now located the greatest steel mills in the country, together with numerous other industries that have been attracted by the excellent transportation facilities and other advantages offered by the new city.

But with the virtues also came the vices of a metropolis. For several years the newspapers have told of the moral and political corruption alleged to flourish in the "model town." Many of the vicious elements driven out of Chicago from time to time are said to have found in Gary a most desirable haven. Gambling houses are said to have been conducted almost openly. Frequent arrests by the Federal authorities have given rise to the belief that the little city has also become a centre for the "white slave" traffic.

Efforts of the better element to "clean up" the place long proved unavailing. The authorities were unmovable. At the head of affairs was Thomas E. Knotts, who held the mayoralty it is alleged, by virtue of an election in which thuggery held the winning hand. Knotts came to Gary a few years ago from Hammond, where conducted a newspaper and was prominent in town politics. So far as is known he was not overburdened with worldly goods when he stepped off the train in the "model town." Today he is reputed to be in the near-millionaire class, with heavy interests in realty, manufacturing,

public utility and banking corporations in and around Gary.

Failing to make any progress in the crusade against vice, the reformers in the town turned their attention to the political corruption alleged to exist. Their progress alone this line promised better results from the moment they hit the trail. The climax came early in September when Knotts and several members of the city council were placed under arrest charged with bribery.

It is charged by detectives, who have carefully worked up the case, that the mayor and those arrested with him solicited a bribe of \$8,000 from representatives of a utilities company to put through a heating franchise which would have entailed an expenditure of many thousands of dollars by the city and public.

Dictagraph records will play a stellar part in the coming trials. It is said that dictagraphs were connected up in the hotel rooms occupied by T. C. Dean, the applicant for the franchise, and also that one had been installed even in the mayor's office.

One extract from the dictagraph records made public purports to be a conversation between Dean and Alderman E. L. Bowser. The conversation is thus recorded:

Dean—What did the mayor say about my matter Mr. Bowser?

Bowser—I started to tell you that I told him there was \$8,000 in it for us. Right here is where he got interested. He wanted to know what I knew about you personally and if you were alright, and if you had the money to go ahead and build the plant. I told him you were, and asked him how he stood on the A. F. franchise. Tom said, "A. F., he don't get me any money. There is nothing in this matter for me. If Dean and his franchise are all right we will put it across."

Mayor Knotts was arrested in the city hall just after Dean came from the executive's office with the heating franchise in his pocket. Dean alleges he paid the mayor \$5,000. Before entering the mayor's office, Dean had himself searched by four persons as a proof that he had the \$5,000 in his pocket when he entered Mayor Knotts' room. When he left the room he had himself searched again. He told the deputies to serve the warrant, and they would find the money in an envelope in a pigeon-hole in the Mayor Knotts' desk.

DR. GRENELL HAD A SEVERE LOSS

Boston, Mass., Nov. 1.—The severe October storm which swept northern waters badly damaged the fishing fleet, according to a letter from Dr. Wilfred T. Grenell, the missionary physician, written at Red Bay, Labrador. Dr. Grenell writes that six vessels were totally wrecked, including his own auxiliary yacht Andrew McCosh, which was given to the Labrador mission by Princeton University.

The other vessels lost were schooners, four of which foundered at Lewis Bay. The crews of all the vessels escaped. The McCosh was wrecked at L'Anse au Loup while on her way to take off Dr. Harrison Webster, of Boston, who is stationed at Battle Harbor, and who was visiting a patient at Forteau Lighthouse. The yacht's crew narrowly escaped with their lives. Dr. Grenell was not on board at the time.

CALIFORNIA CLUB WOMEN

Placerville, Cal., Nov. 1.—Placerville is entertaining during the remainder of this week the annual convention of the northern district of the California Federation of Women's Clubs. It is the tenth annual meeting and from present indications it will be the most successful as well as the best attended ever held in this State. The social programme begins tonight with a reception in honor of the State president, Mrs. Russell Judson Waters of Los Angeles.

HEARINGS ON FULL CREW BILL

Trenton, N. J., Nov. 1.—The State Board of Public Utilities Commissioners today began public hearings to consider the provisions of the so-called full crew bill. The bill provides that every passenger train having five cars or more, operating in New Jersey, shall have a crew consisting of one engineer, one fireman, one conductor, one baggage man, one brakeman and one flagman. The railroad vigorously opposed the measure when it came before the legislature last winter and it was defeated. The senate, however, by resolution directed the Utilities Board to investigate the provisions of the bill and report to the next legislature.

PAYS A TRIBUTE TO HON. A. G. McKAY

Toronto, Nov. 1.—Sir James Whitney today paid a high tribute to the ability of Hon. A. G. MacKay, ex-leader of the Liberal opposition in Ontario, when asked if he had anything to say regarding the appointment of Mr. Rowell, Sir James said:

"I have nothing to say about Mr. Rowell at present, but I do want to say a word about Mr. MacKay, and it will be a good word. His capability was well known, and I always found him ready to meet me on reasonable terms in order to expedite the business of the legislative assembly. So far as my memory goes, I have no reason to complain of his treatment of me at any time. I always endeavored to reciprocate, and I think I must have succeeded."

"With reference to the circumstances which brought about Mr. MacKay's resignation I have nothing to say; but I repeat that my intercourse with him as leader of the opposition has been very satisfactory and I wish him every prosperity in the future."

TO BE SOLD

Long's Hotel, one of the best known hostilities in this part of the country is advertised for sale. It was established by the late Mr. Charles Long, over half a century ago, and has always had a liberal patronage. The late Mr. George Howe acquired the property and after carrying on the business for a number of years disposed of it to the late Mr. B. A. Everett. The latter owned the property at the time of his death, and it is now being sold to wind up his estate. Mr. P. D. McKenzie is the present proprietor.

LOWERED BOMB DOWN CHIMNEY OF DWELLING

New York, Nov. 2.—A dynamite bomb lowered by a long string down the chimney of a tenement on East Eleventh Street, early today, behind the fire place of Basil LeBarb, a well-to-do tobaccoist. The cover of the fire-place was blown through a partition and struck two sons of LeBarb, seriously injuring both. A bronze statue that was on the mantel piece was blown through another partition and injured LeBarb and his wife, who were asleep in their bedroom, adjoining.

GRANDMOTHERS USED SAGE TEA

To Darken the Hair and Restore Gray and Faded Hair to its Natural Color

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made a "sage tea" and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair and are fast following suit.

The present generation has the advantage of the past in that it can get a ready-to-use preparation called Wyeth's Sage and Sulphur Hair Remedy. As a scalp tonic and color restorer this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers.

This remedy is sold under guarantee that the money will be refunded if it fails to do exactly as represented.

If your hair is losing color or coming out, start using Wyeth's Sage and Sulphur today, and see what a change it will make in a few days' time.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

FRUIT MEN IN SESSION

(Continued from page 1)

Resolved, That this Association requests the Dominion minister of agriculture to establish as soon as possible, under his department, an experimental farm, at some point in the province typical of average New Brunswick conditions; and further

Resolved, That a copy of this resolution be sent to Hon. Martin Burrell, minister of agriculture, at Ottaw.

At 10 o'clock Prof. W. S. Blair delivered a lecture on the planting and care of an apple orchard, and at 11 o'clock A. McNeil, chief of the Federal Fruit Division, delivered a short address. Both were very instructive and were listened to with a great deal of interest.

Prof. Blair briefly outlined some of the best practices. It did not make much difference, in his opinion, where nursery stock was raised, provided it was of hardy character. He did not find high fertilizing necessary, and he believed in cropping the ground between trees while they were small. He believed that only in some parts of New Brunswick should a man depend exclusively upon apple growing, but he thought any farm might have ten acres or so of orchard, which would add greatly to the income and value of the farm.

There was an interesting discussion at the close of the lecture, and the meeting then proceeded to the election of officers.

During the afternoon Prof. Macoun, of Ottawa, spoke upon the different varieties of winter apples. He said that the Fameuse was probably among the best apples for the English market, and was superior to the Wealthy, which was thought by some to be without an end.

LOOK AFTER THE BOYS

There is a sowing time and a time to reap. The wise man said, "Bring a child up in the way he should go, and when he is old he will not depart from it." So it is with the boys of today who are allowed to run the streets till ten and eleven o'clock at night. This does not mean our town alone, as most all towns are similarly affected—for an affliction it surely proves to be many families in the after life of the boys. Parents see after your boys and the company they keep. It will be worth more than gold to you and them in the years to come.

DR. OUMET'S CASE PUT OFF FOR WEEK

Ottawa, Nov. 1.—Dr. J. Alexander Oumet, of Hull, who is charged with performing a criminal operation on Mrs. Alexander Ferguson of Carleton Place, by the Ottawa police, appeared again in the police court this afternoon. He was remanded for another week, as Mrs. Ferguson is still confined in St. Luke's Hospital and will not be able to give her evidence until next week. Bail was refused by Magistrate O'Keefe, but the application will be renewed by the defence after the evidence has been heard.

Mr. Annie Balcomb, who is held on a charge of vagrancy, but is really a material witness and the alleged proprietor of the house in which the operation was performed, was also remanded to jail for a further week. The case is attracting great interest and there was a jam in the court room when it was called.
