FINANCIAL and COMMERCIAL

DOMINION STEEL CO.

Sydney, C. B., Oct. 25—While the steel product of the Dominion Steel Company may not break any records this month, there is every reason to expect that the open hearth output will reach the 30,000 ton mark. During the past week the average was about a thousand tons daily, an achievement that has pleased the management.

The rod mill is working continuously, and other departments are well up to the high mark, so that the month's shipments promise to make a strong showing.

The construction work is also proceeding in all departments, and the huge plant is one great centre of activity and life. It will be a profitable year for the Dominion Steel concern.

DECLINED TO PAY LOSSES IN STOCK

Wall Street, Oct. 26—J. Thomas Reinhardt, whose office overlooks the Broad Street curb market, is still the centre of a storm.

He now accuses the crab crowd of bad faith, while Franklin Leonard declares that Reinhardt has broken the curb rules.

Reinhardt is the artist who jumped Porcupine Central stock from 40 cents to \$3.60, catching a number of brokers short of the stock and forcing them to settle. It appears that a number of these refused to make good their contracts, and the matter was taken up with the association, which ordered them to pay.

This they refused to do, and, furthermore, brought an injunction to restrain the posting of their names on the black-board as being in default.

One of them took the matter to court and charged the manipulation of a corner by Reinhardt. Pending the court decision, one of the other defaulting brokers, who owed Reinhardt nearly \$6,000, disappeared. The others, although they have violated their contracts, still persist in trading on the curb, regarding themselves as members of the association in good standing.

LA ROSE

(Montreal Star)

La Rose directors were at it hammer and tongs all day yesterday, talking over the question of giving the shareholders a bonus. They met at 11 a.m. adjourned for lunch at 1, and then held another session that broke up shortly after dark. There will be no bonus just now but the following resolution was passed:

"The directors are still of the opinion that a portion of the cash surplus should be distributed among the shareholders at an early date, but upon mature consideration they are of the opinion that the payment of any portion of the cash surplus to shareholders should be accompanied by full reports of the president, treasurer and general manager on the condition of the properties and reserves as of December 31, 1911 which is the end of the fiscal year and they have accordingly deferred action thereon until they shall be put in possession of the above report."

Those present at the meeting were: Messrs D. Lorne McGibbon, president E. P. Earle, D. Fasken, R. B. Watson, R. T. Green, Shirley Ogilvie, Alex. Pringle and V. E. Mitchell, K. C.

MR. MCGIBBON EXPLAINS

Mr. McGibbon is speaking of the decision said:

"Two years ago when we cut the dividend in half, we gave the shareholders a full report of the mine. They are entitled to the same consideration now. Our fiscal year ends December 31st and immediately following that they will be given full reports by the president, treasurer and general manager and will there-

by be fully informed regarding the mines condition. I am still in favor of further increasing the surplus and of building up the mine by proper constructive methods but the majority of the directors favor a fuller participation in the surplus we have built up. This will come only after our shareholders have been fully informed of the mine's condition.

The result of the meeting should not prove disappointing to shareholders who fully understand the Cobalt situation. The Cobalt camp is not what it was and most mines have a problem to face. La Rose is being worked in a business like way, and the action of the directors will rebound to the ultimate welfare of the property.

WHO IS BUYING?

The Montreal Star asked Sir Max Aitken this question. He smiled but failed to supply an answer.

Charlotte, N. S., October 24—P. P. Heath, of Charlotte, one of the wealthiest and best known cotton brokers in the South, with branches in all important Southern cities, has filed a petition in bankruptcy.

The liabilities, it is said, are more than a million dollars while the assets will not reach one-quarter of that amount.

Mr. Heath is ill at his home in this city and efforts to secure a statement from him so far were unsuccessful.

Among the foreign creditors affected by the failure are the Carpenter-Baggett Co. and C. E. Ritch & Co., of New York, and Shute & Richardson, of Liverpool, Eng.

(By direct private wire to J. C. MacKintosh & Co., Queen Street)

New York, N. Y., Oct. 27—While Wall Street had expected and also had largely discounted the filing of a suit to dissolve the Steel Corporation it was nevertheless caught off its guard when the announcement was made after the close of business yesterday. It would be surprising if the immediate effect of the government's action were not unfavorable from a market standpoint. Thousands of small stockholders will become alarmed and throw over their holdings while bear operators will hardly fail to take advantage of the opening thus afforded. It is doubtful, however, if any decline occasioned by this news, will be of very long duration.

In the first place, as has been said, the action of the Government has been long anticipated: in the second place, the Steel Corporation of its own volition has removed one cause of complaint viz: The Great Northern Ore lease. Unbiased judges, after reading the Government's indictment expressed sincere doubt that a case has been made against the Steel Corporation. It should be remembered also that it will take at least two years or more to bring the question to final issue and that in the meantime, a period of prosperity for the Steel Industry will likely intervene. Moreover, it has been demonstrated that under the terms of the Sherman Act, as interpreted by the highest court, means a just regard for the rights of stockholders. Finally the Steel Corporation since its organization has diverted hundreds of millions from earnings to up-building of the property so that in the remote event of a drastic dissolution there seems every reason to expect that the common holders would realize as much or more than the present selling price.

RELIGIOUS MOVEMENT SWEEPING THE COUNTRY

New York, Oct. 26—"We are succeeding in getting Christianity out of coldstorage; the men and religion forward movement is sweeping the country. Results so far, have been highly satisfactory." This is the gist of a statement made here today by Henry Rood, publicity secretary of the men and religion forward movement which was recently launched in Minneapolis and which will be carried through seventy cities in Canada and the United States, between now and next May. According to Mr. Rood who has just returned from the west. There are interested in the movement as nearly as can be estimated between five and six million men and boys, a larger number than have taken part in any other one effort of the kind since the Crusades of the Middle Ages, with the single exception of the Reformation.

Head Office: St. John, N. B.

In offering the above stock to Canadian investors we draw attention to the following points.

The Bank of New Brunswick, established in 1820, has always been noted for the conservation of its management, and stands to-day one of the strongest of Canadian chartered banks.

It is the only large bank that is, in the full sense of the word, a Maritime Province Institution—its head office is situated at St. John and its branches, with the exception of the one in Montreal, are all located in the Maritime Provinces.

The strength of its position is attested by its statements. They show that the Bank's reserve is 80% greater than its capital—the savings deposits are nearly seven times larger than the capital—the average earnings for the last nine years have amounted to 18.58% on the capital.

It is one of the few Banks in Canada which has established a rule of having an independent audit.

From 1886 to 1908 it paid dividends at the rate of 12% per annum; since 1908 it has paid 13%.

As the Bank of New Brunswick is now the only bank with headquarters in the Maritime Provinces, every investor in Eastern Canada should take pride in having an interest in it.

Price: \$260 per share to net 5 per cent on the investment.

Stock is tax exempt in city of Fredericton.
