Give your servants **GOLD DUST** to clean with, treat them rightly and you will have few occasions to insert a "help wanted" ad

They say a good workman is known by his tools. You cannot expect your maid to keep everything ship-shape unless you give her every modern help. To keep house without **GOLD DUST** is to do work by hard, old-fashioned methods. For cleaning everything and anything about the house—from cellar to attic—**GOLD DUST** is worth its weight in gold. It cuts grease and dirt like magic, does away with scouring and scrubbing, and saves time and tempers.

Your servant can do more and better work and keep sweet with the aid of **GOLD DUST** in all household cleaning.

## THE FARM STANDS FIRST.

(Toronto Globe.)

The amount of misinformation that is being spread abroad throughout the country in connection with the reciprocity discussion is amazing. The blind are leading the blind on a thousand highways. Take the case of The Guelph Herald, which stated the other day that "the one article of farm produce of which there is more than the home market needs is wheat."

The Guelph Herald is a pretty decent paper. The man who wrote that statement probably believes it. He would not feel comfortable were he presenting to the readers of The Herald what he knew to be untrue. But it seems incredible that a man writing in Guelph, in the heart of a stock-raising and dairying region, with a famous Agricultural College library within reach, should know so little of the conditions of farming as to tell his readers that "the one article of farm produce of which there is more than the home market needs is wheat."

Were Canada's exports of farm products confined to wheat the grass would be growing in the streets of Guelph, and the editor of The Herald would be in full flight toward a land of greater opportunity. The very foundation-stone of Canada's prosperity is its export of farm produce. Great Britain has taken over a hundred and ten million dollars' worth of Canadian cheese in the past five years. Of animals and their produce, a classification which has nothing at all to do with wheat, the United States took almost forty million dollars' worth in the same period. Here are the chief items of imports and exports of farm produce in the year ending March 31, 1911, as taken from the Trade and Commerce report. The exports are in each case Canadian produce:

	Exports	Imports
Living animals, .....	\$12,107,971	\$3,118,217
Grain of all sorts, .....	56,750,571	17,698,534
Flour and other grain products, .....	17,897,571	570,619
Fruits, green and ripe, .....	4,722,157	5,738,789
Hay, .....	1,805,849	138,423
Provisions, butter, cheese, lard, eggs and meat, .....	30,806,680	4,406,363
Seeds, .....	4,602,797	1,181,173
Vegetables, .....	1,584,228	1,813,631

The Guelph Herald owes an apology to the readers it deceived with the statement that "the one article of farm produce of which there is more than the home market needs is wheat." There is practically not a thing animate or inanimate grown on Canadian soil except Indian corn and tobacco, of which Canada does not export more than she imports.

Canada's exports of farm produce are increasing so fast that the need for larger markets is imperative. It is of the greatest significance that the exports of agricultural produce, which does not include animals and their products, are increasing far more rapidly than any other class of Canadian exports. In 1882 they ran up as high as thirty-one millions, but by the time Mr. Foster had finished his work as Minister of Finance in 1896 they had sunk to fourteen millions. In the fiscal year ending March, 1910, they totalled over ninety millions. In the present year, that of 1911-12, they will total over a hundred millions. Is it any wonder that the Liberal campaign cry is "Laurier and Larger Markets"?
