## RECIPROCITY AGREEMENT MAY YET BE TAKEN UP

Senator Stone Gives Notice of Motion in Regard to the Measure in the U.S. Senate--Wants McCall Bill Taken up after Sundry Civil Bills are Disposed of--President Taft Considering Dates for an Extra Session of Congress--Meeting of Senate was Lively

(Canadian Press.)  
Washington, March 3.—Senator Stone gave notice that upon the completion of the consideration of the sundry civil bills he would move to take up the McCall bill to carry into effect the terms of the Canadian agreement. He had previously failed to obtain unanimous consent to take up the reciprocity measure at such time.  
Washington, March 3.—Canadian reciprocity seems to have been finally banished from the thoughts of Washington politicians as a possibility at this session of Congress and the other senate business pending is being rushed as fast as the almost hourly filibusters in the grand game of politics will permit.  
After practically an all night session marked with acrimonious debate, wrangling, ill feeling, filibustering by the Democrats against the post office appropriation and tariff board bills and a sensational clash between Vice-President Sherman and Senator Stone of Missouri, over a question of personal veracity, the senate adjourned at four o'clock this morning to meet again at eleven o'clock.  
The only thing agreed upon was that there would be a vote on the tariff board bill tomorrow a.m. at 8.30 o'clock.  
During the night the post office, tariff board and naval bills occupied the attention of the weary senators, without any of these measures getting through the legislative mill.  
The senate leaders agreed to leave reciprocity unconsidered and put the responsibility of an extra session on the President. They do not intend to adjourn before disposing of all business except Canadian reciprocity so that the President cannot say that the extra session was necessary to dispose of remaining business which had to be carried over to another session. That was the program mapped out last night, and includes the discussion of the tariff board and the cleaning up of all the business except Canadian reciprocity, which will not be touched. The most sensational incident of the night session was a clash between Vice-President Sherman and Senator Stone. When Senator Stone, at two o'clock this morning, took the floor to continue the debate

## FARMERS MAY HAVE INDEPENDENT PARTY

Dissatisfied with the Meagre Representation Which They Have in the Present Legislature--Strong Resolution Adopted Urging the Nomination of Independent Candidates in Rural Constituencies--Mr. J. E. Porter of Andover Scares Tory Delegates with a Resolution on Reciprocity, which He Withdrew after expressing his Views on the Question--Col. H. M. Campbell New President of the Association

The meeting of the Farmers' and Dairyman's Association on Thursday evening was of especial interest. Col. H. Montgomery Campbell of Apohaqui was elected president for the ensuing year. Mr. Walter Limerick of St. Mary's was proposed by the nominating committee but objection was made to him on the ground that York County had the presidency last year, and he was compelled to stand aside.  
Mr. J. E. Porter, ex-M. P. P. of Andover introduced a resolution, endorsing the reciprocity agreement, but Commodore Stewart and some rabid Tories who hold jobs under the Hazen government raised the objection that it was introducing politics, and being afraid of the results they were able to induce the mover of the resolution to withdraw it.  
Mr. F. A. Dixon submitted the report of the committee appointed to draw up a resolution on the question of representation. The report advised the farmers to put up candidates of their own and give them their support regardless of party. It was unanimously adopted.  
EXHIBITION GRANTS  
A resolution moved by G. E. Fisher seconded by B. M. Fawcett and adopted.  
Whereas, the present policy of the Dominion Department of Agriculture re the annual grant to the Maritime Exhibition brings to the Maritime Provinces \$60,000 once in four years; and  
Whereas we believe that great good would come to the agriculturists of the Maritime Provinces by a more even expenditure of this grant;  
Therefore resolved that this New Brunswick Farmers' Association make application to the Hon. Minister of Agriculture of Canada that \$60,000 might be divided to the Maritime Provinces to an annual grant of \$3,000 to P. E. Island, \$6,000 to New Brunswick and \$6,000 to Nova Scotia.  
Mr. Morris Scovil moved that a committee be appointed to wait upon the government and ask that an act be passed to provide for the licensing of pure bred stallions.  
It was moved that the matter be allowed to stand over until tomorrow morning.  
Mr. Scovil said it was important that the matter be dealt with at once so that the committee could wait upon the government.  
The amendment was put and declared carried, but one objection being taken a motion for a reconsideration was carried.  
Mr. Porter moved that the matter be referred to the committee on stock which motion was carried on division.  
The following resolution was unanimously adopted.  
"Whereas it has been clearly demonstrated in all parts of the country, particularly in N. S. and Ontario where exceptional results have been obtained that tile draining is the foundation on which we must build our farm improvements; and  
Whereas it is practically impossible to secure labor to carry on the work.  
Therefore resolved, that we support the accompanying petition and ask the government to provide the necessary means to carry on the work as suggested.  
The petition asks the government to introduce a modern power ditcher and use the same in illustrating the most economical method of draining land.  
A THIRD PARTY  
Mr. F. A. Dixon from the committee appointed to consider the question of the representative in the local and Dominion Parliament, submitted a report, embodying the following resolutions:  
1. Whereas the farmers of the province are not represented in the country by men of their own occupation.  
Therefore resolved that in the opinion of this association this fact is a discredit and an injustice both to the farmers of the province and the people as a whole, and that the blame if any attaches entirely to the

## A BEAUTIFUL PRINCESS VICTIM OF MURDER

Shocking Tragedy in Rome the Outcome of a Love Affair--Princess Trigona, Lady in Waiting to Queen Helena Shot and Stabbed by a Young Italian Cavalry Officer--Took Her Life at an Obscure Hotel after she had refused to Flee with Him

(Canadian Press)  
Rome, Mar. 3.—Queen Helena is prostrated with grief over the tragedy of love and jealousy which yesterday cost the life of her favorite lady-in-waiting, Princess Trigona, who was shot and killed by Baron Paterno, a dashing young Italian cavalry officer. The police stated this morning that Baron Paterno had died from the wounds he inflicted upon himself after murdering the beautiful court lady in the obscure hotel Rebecchione, but another report was that he had been secretly immured in one of the royal fortresses. The body of the slain noble woman, was still lying at the hotel today pending the result of an official investigation of the crime. It will be taken back to Sicily for burial by her brother, Prince Tasco di Cuto, a socialist deputy in parliament.  
A court scandal had for some time connected the name of the pair. That the Princess was murdered because she had decided to end a love

## STOCKS ARE SHOWING GREATER STRENGTH TODAY

New New, March 3.—The stock market today was active and partly recovered from the slump which characterized the afternoon trading yesterday.

## BANK OF NOVA SCOTIA NOW PAYS 13 P. C.

Montreal, March 3.—The Bank of Nova Scotia has increased its dividend by declaring a quarterly dividend of 3½ per cent, being at the rate of 13 per cent per annum. This bank and the Bank of New Brunswick enjoy the distinction of paying the highest rate of dividend of the Canadian Chartered banks each now paying 13 per cent per annum. The old rate was 12 per cent.  
The change was forecast at the annual meeting of the shareholders, but the actual increase was not mentioned at the time.  
The payment will be made on April 1. Books close from March 17 to March 31, inclusive.

## C. P. R. EARNINGS FOR JANUARY

Owing to severe weather in the west and similar causes during January, the net earnings of the Canadian Pacific Railway show a material decrease over those of the same month of last year.  
The gross for January was \$5,740,206, and operating expenses \$5,084,088, which leaves net profits at \$656,117. This latter, compared with \$1,316,546 for the first month of 1910, points to a decrease in January of the present year of \$660,429.  
The showing for the seven months ending January 31, is much better. Gross earnings aggregate \$61,527,858, and with working expenses of \$37,255,032 deducted, leaves net earnings at \$23,272,826.  
Compared with the net for the same period of the preceding year, an increase of \$1,886,352 is shown in favor of the later period.  
The program of extensions of the Canadian Pacific has added numbers, and the management of the big railway will be kept very busy during the next two or three years in viewing the many-sided activities of this progressive road.  
PERSONAL  
Hon. Senator Domville of Rothesay, is among the visitors to the city today. He is looking exceedingly well and is receiving a warm welcome from many old friends.

## WILL APPLY FOR BOARD OF CONCILIATION

Toronto, Ont., March 3.—The formal application for a board of conciliation under the Lemieux Act, in the case of the Great Northwestern Telegraph operators' petition for higher wages, was forwarded to the labor department at Ottawa yesterday.  
CANADIAN MINERALS NOT  
GOING TO WASHINGTON  
Ottawa, Ont., March 3.—The Canadian Ministers are all in Ottawa and none of them have any intention of going to Washington in the near future. It was announced here when the treaty was explained by Hon. Mr. Fielding to Parliament, that both countries would adopt it without change. This is the attitude of Canada at the present time.  
Victoria, B. C., Mar. 3.—Advices were brought by the steamer Empress of India last night that orders have been given by the Japanese Admiralty to the Mitsubishi Co., and the Kawasaki dock yards for two battleships of 22,000 tons. The two Japanese companies have sent four experts to the Vickers-Maxim yards in England where a Japanese warship is being built.

## JAPAN TO CONSTRUCT LARGE BATTLESHIPS

Tokio, March 3.—Official announcement was made today of the ratification of American-Japanese treaty by the Imperial government. An accompanying note says:  
"The government is convinced that the treaty will consolidate the bonds of true international friendship between the two countries."  
FELL WHILE CARRYING  
LOAD OF DYNAMITE  
Ottawa, Ont., Mar. 3.—Carrying a heavy box of dynamite on his shoulder, John Hall, employed at the Canada Cement Works plant in Hull stumbled on a round stone in the pathway and fell to the ground. In falling he went down sideways and the box slipped from his shoulders alighting on his left leg. When he was picked up by a fellow workman it was found that the limb was fractured.  
Hall's escape is little else than miraculous, considering the dangerous load he was "packing."

## FELL WHILE CARRYING LOAD OF DYNAMITE

If your needle work gets grimy in the making, grease with a little clean lard and let lie over night. In the morning rinse, starch and iron while quite damp.  
(Continued on page four.)

HERE'S A CHANCE.  
The Daily Mail will be sent by mail to any address from now until the close of the ensuing session of the Legislature, for only twenty-five cents. It will contain full reports of the debates and committee meetings and as this will in all probability be the last session of the present Legislature, the proceedings promise to be of exceptional interest. The paper will be sent from the date the order is received.
