## SHIRLEY

Nov. 10—We are having some very fine weather here at present and it is very good for the farmers for getting fall ploughing done.

Quite a number of the men have gone to the woods for the winter and some are working for the company on their farm at Burton.

We understand the St. John Valley Lumber Co., are about to put up a portable saw mill on the Hamilton road to saw the lumber they intend getting out there this winter.

This place can I think claim the youngest grandmother on record in the person of Mrs Isaac N. Hunter at the age of 82 years. Mrs Charles Estabrook and child of Swan Creek are

Seal has not the prestige it enjoyed last winter, yet there are many handsome long coats of French seal, the genuine seal being now too costly to be worn except by the extravagant few. Caracul is still a favorite among the less expensive coat furs and moleskin is in high favor, and being as pliable as velvet or plush, affords the furriers opportunity for the exhibition of skillful workmanship.

the daughter and grandchild. Mr. and Mrs William Lindsay of Burton are the great grand parents.

The farmers are about done shipping potatoes for this fall the crop was good this season and the prices good also.

## THE FEMALE WAGE-EARNER

"Is it possible for a female wage-earner to save from her monthly wage an amount which in the aggregate will be sufficient to provide her with an income from the time her earning days are over?" was recently the subject of an interesting discussion at a Woman's Club, and the conclusion came to was, that if the wage-earner were earning \$500 a year this would be extremely difficult. For the purpose of illustration, the period of accumulation was assumed to be from 23 to 60, and the amount of capital required \$6,000, in order to yield an income of \$300 a year, which was considered to be the minimum amount on which she could maintain herself with comfort and respectability. All this may be quite true. But there is another plan of investment of which the ladies had evidently not heard, namely, the Canadian Government Annuities system, which is not only absolutely safe, but which will give a much larger return for a much smaller investment, and larger it may be said than any other plan available will give as a means of making provision for old age.

For example, if a woman of 23 were to deposit with the Government yearly the sum of \$39.24 until she was 60, which she could do by weekly or monthly instalments if she preferred, or a total of \$1451.88 only, the Government would pay her \$300 a year or \$75 every three months so long as she might live from and after 60. If she died before attaining that age, the total payments made with 3 per cent. compound interest would be refunded to her heirs. If she died at 58 they would receive \$2425.77, or \$1052.37 more than she had paid in up to that time.

If she had no one dependent upon her and was concerned about herself only, she could secure under the "B" plan the same quarterly income of \$75 for an annual payment of \$29.67.

## THE DOUBLE CROSS

(Continued.)

Meantime, the judge had sat down and was now again consulting with the Alcalde—the Aztec mayor—who pointed first to his tribesmen in the patio and then to the mountain ten miles away, atop of which loomed Guanajuato.

De la Torre, having listened to the earnest speech of the Indian Alcalde, now got to his feet again. And this time he began speaking in tones of profoundest solemnity:

"Prisoner, the time you ask for shall be given you. You shall pass that time in a place which will serve the more speedily to unleash your tongue. I now order and direct that you be taken, as soon as possible after sunrise tomorrow, to the Pantheon at Guanajuato, and there be cast into the dark and terrible corridors of the underworld, among the entombed, yet unseparated dead—there to roam at will, in the cavernous and shuddering—Catacombs."

Groans of dismay, mingled with cries of satisfaction, came from the gentry and peons.

"And there, prisoner," the judge continued, "in the silent and dreadful chambers of death—awful charnel-house of the visible dead; there, in Golgotha most horrible, where the lead stand as the sentinels of the walls, watching you day and night with eyes that do not see, and deciding you with laughter that has no sound; there, amid the mouldering, ghastly forms of men and women whence the soul of each has fled; there between the dead ranks of a stark, staring jury of implacable reminder of death never for an instant suspended; there, prisoner, you shall be confined, solitary and abandoned of all living men—till both Don Justino and his daughter in body or person, dead or living, shall be produced. The hearing is over."

## CONTRACTED HEAVY COLD

Was In Bed Two Months.

DOCTORS DID NOT SEEM TO DO HER ANY GOOD.

A cold, however slight, should never be neglected, for if it is not treated in time it will, in all possibility, lead to bronchitis, pneumonia, asthma, or some other serious throat or lung troubles.

Dr. Wood's Norway Pine Syrup contains the lung healing virtues of the Norway Pine tree, which, combined with other absorbent, expectorant and soothing medicines, makes it without a doubt the best remedy for all coughs and colds.

Miss N. McCumber, St. Martin's N.B., writes:—"In January last I contracted a heavy cold which kept me in bed nearly two months, and the doctors didn't seem to be able to do me any good. I tried several proprietary medicines, but all in vain. One day a friend advised me to try Dr. Wood's Norway Pine Syrup, and when I had taken three bottles I was completely cured, and I feel as well to-day as I ever did, and I am sure my lungs are once more sound. Thanks to that wonderful remedy."

Dr. Wood's Norway Pine Syrup is put in a yellow wrapper; three pine trees the trade mark; price 25 cents.

Manufactured only by The T. M. L. Co., Limited, Toronto, Ont.

or for a total paid in of \$1097.79, a yearly return for life no matter how long that may be of nearly 30 per cent. of the sum invested.

Mark the enormous difference: On the one hand she would require at 60 a capital of \$6000 invested at 5 per cent. to yield her an income of \$300, with all the accompanying anxiety of making safe investments, while on the other hand she could provide the same income for about one-fifth of the purchase money spread in easy payments over the accumulating period. In ninety-nine cases out of one hundred she would not, having regard to the recurring temptation to use the money, have the capital at 60 which would be necessary to give the income. You have only to write (postage free) to the Superintendent of Canadian Government Annuities, Ottawa, to obtain full information in regard to this provident scheme.
