## THIS DATE IN HISTORY

1632—Battle of Lutzen, and death of Gustavus Adolphus.  
 1793—Philippe Egalite, who voted for the death of his brother, King Louis XIV., guillotined in Paris. Born April 13, 1747.

1814—Gen. Andrew Jackson appeared before Pensacola to drive out the British.

1816—Gouverneur Morris, statesman, died at Morrisania, N. Y. Born there, Jan. 31, 1752.

1847—First American missionary church organized in China.

1853—First Presbyterian Chinese church organized in San Francisco.

1860—Abraham Lincoln elected President of the United States.

1867—First woman's suffrage society formed in England.

1872—Gen. George G. Meade, civil war leaders, died. Born Dec. 30, 1815.

1878—Samuel Phelps, distinguished English actor, died. Born Feb. 13, 1804.

1895—Miss Consuelo Vanderbilt and the Duke of Marlborough married in New York.

1903—The United States Government recognized the independence of Panama.

Premier Flemming says that he is going to Ottawa next week and he is going to stay there until the Valley Railway contract is signed. We sincerely hope that the Premier will not find it necessary to unduly prolong his visit to the Capital.

## FINANCIAL and COMMERCIAL

St. John, Nov. 4.—At the close of last week the market situation to say the least looked precarious, the government of the United States had just announced its suit against the Steel Corporation and it was feared that in addition to this the dividend on the common stock would be reduced. At the opening of the week, however, it began to look as though the bear news was all out, the earnings of the Steel Company were reported proving very much better than anticipated and the regular dividend on the common stock was declared, in consequence a strong rally set in carrying well through the week.

This is the first rally of any proportions which the market has experienced since early in the summer and gives weight to the general belief that the trend of prices will be upward for some time; a change has come over the attitude of the public towards the market, there is a more hopeful feeling and less pessimism in evidence.

The advance has been most noted in American Smelters, Reading, Union Pacific, Southern Pacific and Steel. It has been remarkable in the case of Smelters on account of the rumors of a government suit against this Company which caused a sharp decline at the beginning of the week. The rumor proving without foundation formed a basis for a strong advance.

Steel of course has been strong since the announcement of the earnings and the regular dividend, while Reading and Union have led the railroad list, were greater strength has been in evidence for some time than in the industrials.

Money continues in good supply with no change in rates, the Bank of England statement is good, the reserve showing a slight decline from last week. The rate however is unchanged.

### STEEL

In discussing the Steel situation the New York Post says:

"The presentation to Wall Street optimists after the close of Tuesday's stock market of two and a half millions of Steel earnings, more than expected, was a full surprise. Accurate advance information of the Steel earnings have been growing steadily less accessible to speculators for a year or more past. Before that it was possible at times to know exactly what the earnings would be. The fact that the figures nowadays are filled into the printed forms from a pen and ink copy, instead of being printed in as formerly, may indicate the desire of the management to keep the matter from the 'leaking' through to Wall Street from the 17th floor of the Empire building. Earnings for the September quarter, published yesterday, were \$29,422,725, the smallest for the third quarter since 1908, when they were only \$27,106,274.

By a coincidence, \$27,000,000 was the figure Wall Street had thought rightly to approximate the earnings for the three months ended September 30th last. The unfilled tonnage on September 30th, 1908 was 3,421,977 tons against 3,611,317 tons, on September 30th last. On the day after the publication in 1908 of the earnings for the third quarter, that is on the last Wednesday in October, Steel common sold between 47 and 48 to-

**Wood's Phosphodine.**

MR. PAUL GILMORE

MR. PAUL GILMORE, who will appear at the Opera House Wednesday, November 8, in "The Bachelor."

## SAVED HER FINGER.

Mrs. B. E. Bellwell, of 337 Provencher Ave., St. Boniface, Winnipeg, says:—"Some time ago my children took diphtheria, and while attending them the poison entered a small scratch on the second finger of my left hand. This became very sore and blood-poisoning soon set in. For months after the children were quite well I was suffering from a shockingly bad finger. The scratch was caused originally by a pin, and in itself, was not at all serious. The consequences, however, of neglecting this scratch, were very serious to me. When the blood-poisoning set in I tried poultices and a salve I had in the house. These, however, did not have the desired effect. Quite on the contrary the finger became more and more swollen and discolored. It then began to fester, and I had to call in a doctor. He lanced the finger to let out the pus, and you can imagine how painful the finger was! Despite his care, however, it again festered and the ointments, liniments, and other preparations which the doctor gave me seemed absolutely unable to bring about any relief. The doctor thereupon advised me to go into the St. Boniface Hospital. I feared that if I went to the Hospital the finger would be amputated. We were told of a case similar to my own in which Zam-Buk had effected a cure when everything else had failed and the doctor had said that only amputation could save the person's hand."

"We, therefore, decided to give Zam-Buk a trial. A supply was procured, and we commenced the Zam-Buk treatment. It only needed a few days to show the wisdom of this step. The blood-poisoning and inflammation were reduced, the pain became less acute, and it was evident very shortly that the trouble was being reduced to a less and still less area. We persevered with the Zam-Buk and in the end the festering sore was thoroughly cleaned, then healed. In under three weeks from first commencing with Zam-Buk, the finger was entirely well, and I had wasted Zam-Buk in the first place, instead of trying ordinary preparations, no doubt I should have saved myself hours and hours of acute agony."

All mothers should note this case. Zam-Buk is a sure cure for blood-poisoning, festering cuts, eruptions from barbed wire, by bites, eczema, rashes, tetter, salt rheum, face sores, ulcers, piles, bad leg, varicose veins, and all skin injuries and diseases. Get a box all druggists and stores or write to Zam-Buk Co., Toronto, for price. Send 1 stamp for postage of restricted box. Refuse all imitations.

### N. Y. U. INAUGURAL WEEK

New York, Nov. 6.—The formal inauguration of Elmer Ellsworth Brown as Chancellor of New York University this week will be the occasion of a very unusual gathering of distinguished scholars, educators and public men from many parts of the country. Several hundred delegates, representing universities, colleges, and learned societies will attend the ceremony. Reunions and festivities in connection with the inauguration will occupy the entire week. The inauguration proper will take place Thursday morning in the auditorium of the library building at the University Heights. The installation will be followed in the evening with an alumni dinner at the Hotel Astor, at which the speakers will include the Secretary of the Interior Fisher, Presidents Lowell of Harvard, Hadley of Yale, Schurman of Cornell and Butler of Columbia and Senators Root and O'Gorman.

## LOST HIS LIFE IN HOTEL FIRE

(Canadian Press.)  
 Reading, Pa., Nov. 4.—The new Folsber Hotel, which was only recently rebuilt and had 75 sleeping rooms, was burned out early today and one man, Peter Rotherman, was suffocated. It is believed that the blaze originated in the kitchen.

## NELSON W. ALDRICH IS SEVENTY

Providence, R. I., Nov. 6.—Nelson W. Aldrich, who was one of the republican leaders in the United States senate for thirty years, reached his seventieth birthday anniversary today. Since his retirement from the senate last March Mr. Aldrich has devoted much of his attention to the work of the National Monetary Commission of which he is chairman.

## Which is Your Choice ?

Sloppy, leaky wooden troughs, or clean, durable Concrete ?

Wooden drinking troughs are about as reliable as the weather.

They are short-lived and require replacing every few years—not to mention continual patching to keep them in repair.

The best of wood cannot withstand, for long, constant dampness and soaking. Its tendency to rapid decay soon shows itself in leaks and stagnant pools of water around trough.

Contrast with this the durability, cleanliness and well-ordered appearance of Concrete.

Which ?

The dampness which destroys lumber only intensifies the strength and hardness of Concrete.

You can impair a wooden trough with comparatively little use; but it takes a powerful explosive to put a Concrete water tank out of business.

## Which

is your choice—expense-producing Wood, or money-saving Concrete ?

We'd be glad to send a copy of our book, "What the Farmer Can Do With Concrete,"—Free—if you'll ask for it. It tells the many uses of Concrete in plain, simple language—tells how to make
