MR. L. P. BRODEUR DISCUSSES IMPERIAL CONFERENCE

Quebec, Que., July 10.—The importance of the Imperial Conference in its bearing on problems involving Canada's interest was brought strongly home today by the Hon. L. P. Brodeur who returned on the Empress with Sir Wilfrid Laurier. The minister of marine and fisheries shared the enthusiasm of his fellow passengers concerning the coronation. He outlined the principal resolutions adopted by the Congress of Colonial premiers, and laid especial stress on the value of this conference meeting every four years to discuss questions of great imperial moment.

"We adopted a resolution for the shipping laws, said Hon. Mr. Brodeur, "giving wider legislative powers to the overseas dominions to deal with their own merchant shipping. Our present legislation is based on the old law of 1854 and from time to time amendments have been added by the Imperial parliament lately certain provisions, and declared that some parts should apply to the overseas dominions thus overriding our legal rights. The conference has brought about uniformity in the shipping laws."

"The favored nation treaty question was most important. We passed a resolution asking the government to open negotiations with foreign nations having treaties with overseas dominions, so that they can withdraw from the conference without damaging the treaties for the other parts of the empire. His majesties answer guaranteed to open negotiations so that each overseas dominion shall be bound to these treaties by its own free will."

Que., July 10.—"The question of cheaper cable rates was important, the conference decided to take all possible means to reduce the rates, and in event of a reduction not forthcoming soon, to undertake the lay-

ing of a state owned cable between England and Canada."

"Declaration of London has been a step in the right direction. I cannot understand the resolution of the Montreal Board of Trade condemning it. It laid down principles of international law to be followed by the courts and by the Hague in war time. It practically constituted an independent court which will decide in time of war as to seizure of vessels and goods, until today if a seizure is made the only redress was in the court of the seizing vessel. Now in appeal to independent judges at the Hague is possible. Nine countries signed it, Germany, France, Austria, Italy, Spain, England, Japan, Russia and United States. It is most important for England in its bearing on neutral shipping goods for England has 75 per cent. of the world's shipping. Thus in the Russo-Japanese war there were British vessels seized and there was no redress in the court of Russia. The question is very important, now a resident in England becomes a citizen of England or of the empire after five years. Hon. Mr. Brodeur said that it had been expressly decided to make the King's birthday an empire holiday. This may result in the abolition of Empire Day. It will likely be considered that legislation would be made in Canada to have Empire Day coincide with the King's Birthday."

"Canadian autonomy was completely preserved in the conference" said Mr. Brodeur in conclusion, "As Mr. Asquith said at its opening, whether in the United Kingdom or in any of the other great dominions, we each have, and each intend to remain master in our cause, and Sir Wilfrid Laurier voiced the spirit of the conference when he said that the great secret of the power of the British Empire lay in imperial unity based on local autonomy."

STYLISH WEDDING AT LOWER HAINESVILLE

Lower Hainesville, July 8.—On Wednesday, July 5th, the residence of Mr. and Mrs. J. P. White was the scene of a fashionable wedding when their only daughter, Ruth Evelyn, was united in marriage to Mr. Adolph Ernest Nixon of Hartland, in the presence of about eighty-five guests. As the clock struck one the bridal party descended the stairs to the strains of the wedding march, beautifully rendered by Mr. H. Seely. Rev. E. W. Lester performed the ceremony, assisted by Rev. S. H. Clark and Lic. Handley Mullin. The bride was given away by her uncle, Mr. Arthur Chute, and was unattended. She was becomingly attired in white mull with lace and insertion trimmings and carried a beautiful bouquet of white carnations and sweet peas. After the usual congratulations the party repaired to the large orchard adjoining the house, where tables stood groaning beneath the load of dainties provided and every want was attended to by a staff of competent waiters and waitresses. After the wedding dinner the company enjoyed themselves with various amusements and music until 4.30 p. m., when they took their departure for Burnside Station, going from thence to Beulah Camp Grounds to spend their honeymoon. They were accompanied to the station by a host of friends and amid showers of rice and best wishes they boarded the 6.25 train for Fredericton. The bride's traveling costume was blue cloth with hat to match. The beautiful display of wedding gifts goes to show the popularity of both bride and groom. The groom's present was a gold brooch set with pearls.

Following is a list of the presents:
Mr. and Mrs. D. H. Nixon, \$20 in gold.
Mr. and Mrs. G. B. Nixon, \$10 in gold.
