TO USE CONCRETE FOR QUEBEC ROAD

A portion of the King Edward Highway is to be built of concrete, the contract for its construction having been let on Sept. 11th, by the Honorable J. E. Caren, Minister of Agriculture and Highways of the Province of Quebec. The King Edward is the Canadian section of the International Highway connecting Montreal with several large cities of the United States. Ultimately, it is expected that this road will continue as far south as Miami, Florida.

It was the original intention that the entire highway should be built of macadam, but the Honorable Minister, who has under his jurisdiction the Canadian branch of the work, has become interested in concrete roadways and has decided upon this important undertaking as a good place to try it out. Governments and municipalities are gradually coming to recognize the necessity of a more permanent form of roadway construction. That concrete is the material which best fulfills all the requirements of a permanent roadway, is a fact that will ultimately obtain world-wide recognition.

RICE INSTITUTE OPENS ITS DOORS

Houston, Texas, Sept. 23.—The William Rice Institute, said to be the seventh richest college in America, opened its doors today for the reception of students. The institute was founded with an endowment of \$10,000,000 left by William Marsh Rice, the great capitalist for whose alleged murder in New York twelve years ago Albert T. Patrick was tried and convicted. The formal inauguration and dedication of the institute will take place next month.

CATHOLIC CHARITIES

Washington, D. C., Sept. 23.—The biennial meeting of the National Conference of Catholic Charities began its sessions at the Catholic University today with the Rt. Rev. Mgr. T. J. Shahan, rector of the university, in the chair. Notable clerical and lay representatives of the church throughout the country are taking part in the conference, which will last three days. Among the subjects scheduled for discussion are the convict and his family, desertion and non-support, the education of dependent children in public institutions, child labor, mentally and physically defective children, the poor in city environments, the protection of young girls who go to large cities, recreation, and the co-operation that should exist between organized societies.

SHANG AGREEMENT

DECLARED ILLEGAL

Cincinnati, Sept. 20.—The Philadelphia Club of the National League and Buffalo of the International League asked the National Baseball Commission to decide who was entitled to the services of Player Schanz, each claiming that the other had not kept faith.

The Commission in deciding the case here today pronounced the agreement entered into between the two clubs antagonistic to the laws of the game and for that reason declared it null and void. The Commission also warned all National League clubs that a severe penalty will be imposed on any club that becomes a party to an agreement which is antagonistic to the laws of the game and injurious to the interests of ball players.

Player Schanz was obtained by draft from the Philadelphia Club by the Philadelphia American League club and the above ruling removes all doubt as to the draft being valid.
