DR. W. W. DOHERTY
COMMITTED FOR TRIAL

Campbellton, N.B., Sept. 29.—The preliminary trial of Dr. W. W. Doherty, who on election day committed the assault on D. J. Bruce which resulted in the death of the latter, was held here today before Judge F. F. Matheson. After a review of the evidence the prisoner was sent up for trial on the charge of murder. It is likely that he will be tried at the present sitting of the Supreme court now open at Dalhousie. Messrs Gilbert of Bathurst and Richard of Dalhousie appeared for the crown, and H. A. Powell, St. John, for the prisoner.

The Supreme court sitting at Dalhousie before Judge Barry in circuit for Restigouche, is having a pretty strenuous time. The first case tried has already been running four days and is likely to last until Tuesday next. The case in question is that of Guimond and Couillard & Co. and the Bank National, plaintiffs, versus the Fidelity Phoenix Insurance Co., defendants. Action is being brought to recover the sum of four thousand dollars insurance on lumber destroyed in the fire at Campbellton on August 21, 1910. Messrs Guimond, Couillard & Co claim that they had about three million feet of lumber in their yard situated near the International railway station at Campbellton. The insurance companies claim there was no more than one and a half million feet of lumber in the piles and have refused to pay the loss. Messrs Guimond Couillard & Co. have brought suit against seven insurance companies altogether for failure to pay the fire loss, making seven separate cases to be heard before Judge Barry. The insurance companies are attempting to prove that the lumber was set on fire and are denying liability on that account as well as on the question of over-valuation. Hon. J. D. Hazen and F. R. Taylor are appearing for the plaintiffs, and M. G. Teed, K.C., H. A. L. Fairweather and A.E.G. MacKenzie appear for the defendants. The evidence of one of the witnesses went to show that bundles of rags soaked with gasoline or kerosene were found by workmen two or three days before the fire under some of the lumber piles in the yard.

In all probability the Doherty will also be tried at this sitting of the court. The grand jury have already been warned and summoned by the sheriff.

THOUSANDS INVADE
PRAIRIE PROVINCES

Montreal, Oct. 2.—The extraordinary influx of United States farmers into the Canadian West during the past year or so has been emphasized in a striking manner by a statistical statement from Mr. J. Bruce Walker, chief commissioner of immigration for the Dominion government, Winnipeg, which was made public last night by the Canadian Northern Railway, having been sent them in response to a recent enquiry. Last year, if Mr. Walker's estimates are correct, a record was made in this rush of American farmers, the number of actual settlers from the Western States having considerably surpassed all expectations, and the amount of capital brought in by these men being so large as to cause incredulous amazement among people in the East. The majority of the new citizens, it is said, have settled down to extensive farms along the Canadian Northern lines, bringing mechanical power into play for breaking the virgin prairie and harvesting their crops.

Mr. Walker's statement declares that no fewer than 65,264 United States settlers crossed the border between April and August of last year, divided as follows: April, 20,443; May, 14,194; June, 10,943; July, 9,199, and August, 10,490. During the same months in 1911 the statement shows an even larger total of 66,974, divided: April, 16,397; May, 15,414; June, 12,035; July, 11,012; August, 12,116. It will, therefore, be noted that, while the flood in April this year was lower by about 3,000, the four later months all show substantial increases over the same months in 1910. Mr. Walker further points out that "the total estimated wealth brought in, in stock, cash and effects, by American immigrants, April to August, inclusive, 1910, was \$65,500,000. This year the total estimated wealth brought in for the same period was \$66,700,000. This implies, it will at once be seen, an average wealth of about \$1,000.

It is not generally known that this trek of the Western United States farmers is causing no little worry in their former country. Several representative journalistic parties have toured the Canadian West this summer to try to find the reason why. One and all, they have gone back to their newspapers and magazines impressed with the tremendous possibilities of the new land, and they are coming to realize the futility of attempting to stem the tide. Information coming from Chicago makes it appear that the movement has now attracted the executives of the States of Colorado, Idaho and Wyoming. Governors John Shaforth, James A. Hawley and J. D. Carey are said to have held a conference with A. B. Hullitt, commissioner, general of the National Association of Immigration, in Illinois City, and they are stated to have discussed plans for stopping the flood into Canada, and to have expressed willingness to expend a million dollars to advertise the advantages of various sections of the United States for home-making purposes.

RELIEF IS QUICK;
BUT CURE IS SURE

Napoleon Vaillancourt speaks of Dodd's Kidney Pills

They soon cured his Kidney troubles, and in six months there is no sign of their coming back

St. Anne des Monts, Gaspé Co., Que., Oct. 2.—(Special)—"It is six months since I was cured, and I have had no return of my trouble," in these words, Napoleon Vaillancourt, a well known resident of this place, gives evidence that Dodd's Kidney Pills not only give quick relief to sufferers from Kidney Disease, but clean that disease out root and branch and cure it permanently.

That Mr. Vaillancourt had Kidney Disease everyone here knows. That he is cured is also established beyond a doubt. Dodd's Kidney Pills did it.

"My back bothered me, also my heart and my kidneys, and my limbs would cramp," Mr. Vaillancourt states in giving his experience. Now all that is gone and he is a sound healthy man. Do you wonder that he recommends Dodd's Kidney Pills?

Dodd's Kidney Pills cure quickly and permanently because they go right to the root of the trouble. They act directly on the Kidneys. They never fail to cure.

THIS PETTICOAT HAD
TWENTY-FIVE POCKETS

New York, Sept. 29.—A rubber stocking and a petticoat with twenty-five pockets in it are the means by which Rudolph Newman a Chicago jeweler and his wife are alleged to have tried to smuggle diamonds and other precious jewels into this country today. The couple, arrived on the steamer Nieuw Amsterdam, of the Holland-American line, accompanied by two small children. Newman when arraigned furnished \$2,000 bail, while Mrs. Newman was paroled on her own recognizance on account of her two children, who needed her care.

There has not been such a flagrant case of alleged smuggling reported at the Customs House in months past in fact, since the rigid system adopted by Collector Loeb went into effect. In the rubber stocking which Newman wore tied about the lower portion of his body the Customs officials found a quantity of uncut diamonds, valued at \$1,580 while the pockets of his wife's petticoat contained numerous packages of small jewelry, including a number of garnets and other stones, said to be worth about \$5,000. All the jewels were seized.

Had it not been for the fact that Newman was under suspicion because of his frequent trips to Europe the gems would have probably remained undetected, the officials said, so artfully were they concealed.

MASHED POTATOES
SPOILED HAPPY HOME

New York, Sept. 30.—Mashed potatoes as a household weapon instead of for food figured prominently in the suit for separation of Mrs. May Weinbaum against Joseph Weinbaum in the complaint which was filed with Justice Gavegan in the Supreme Court yesterday.

Describing the mashed potato episode, Mrs. Weinbaum said that shortly after the birth of her child friends called at their home. Her husband, she declared, withdrew to play cards and when she remonstrated with him and asked him to help her entertain the visitors he first threw at her everything that was within handy reach. Then, she asserted, he plunged both hands up to the wrists in a steaming bowl of mashed potatoes and flung the food into her face. One splurge struck a picture on the wall and broke it.

When the visitors tried to quiet him, she continued, he flung her against a Morris chair, injuring her so severely that later she had to undergo an operation at Roosevelt Hospital.

In the summer of 1909, Mrs. Weinbaum said, her husband held her against the wall and beat her until she fainted. Another cause for complaint, she said, was that when her husband came home exhilarated he insisted on going to bed fully dressed.

Mr. Weinbaum denied his wife's allegations and declared that they drew up a contract two years ago whereby each agreed to let the other alone upon his promise to pay her \$10 a week for the support of herself and her child.

Justice Gavegan issued an order that the summons be served by mailing a copy to Weinbaum at his place of business, No. 80 Forsyth Street.
