## FARMER DEALS WITH DR. CROCKET'S COMPLAINT

Points out that the Farmers are the Real Sufferers from Bad Roads and not the Idle Rich--Dr. Crocket Helped Put the Hazen Incompetents in Power and he Must Put Up with Their Bungling

To the Daily Mail,

Mr. Editor,—I see that Dr. A. P. Crocket of St. John, is so dissatisfied with the condition of the roads and the work being done on them by the Hazen government that he had himself interviewed by the Daily Telegraph, and through the columns of that paper gives vent to his indignation and threatens to turn the government out unless they at once mend their ways. And why? It seems this gentleman owns an automobile and that because of the scandalous condition of the roads, it took him six hours to make the run from St. John to Fredericton, which he says should be made in four, and he sheds bitter tears because, as he says, if the roads are not at once macadamized with stones taken from the farms along the way, at a cost of three quarters of a million to one million dollars, "motoring will have to become a forsaken pastime." In that event he threatens that the forty auto owners in this province "will unite and take up arms against the government."

All this is very alarming. But what has Dr. Crocket and his political friends to say about the serious losses and inconveniences that are being suffered by the thousands of farmers in this province (who cannot afford to run automobiles) because of the scandalous condition of these very roads? Not a word. The poor farmers can be contemptuously overlooked in spite of all the fair promises made them by Mr. Hazen and his supporters, to bring about a marked improvement in the condition of the roads if they were given power. But when the "pastime" of the wealthy forty autoists is interfered with, look out, says Dr. Crocket, for a political uprising, which will sweep Mr. Hazen and his government into outer darkness. If forty farmers had made such a threat, the Crocket "Gleaner" would have been filled with columns abusing them. This gentleman further says that the government derives quite a revenue from the autoists in licenses, etc., and therefore they "deserve some consideration."

But what will he say, Mr. Editor, of the increased road taxes levied upon the farmers by the Hazen road law (which falls heavier upon them than the paltry licenses upon the autoists) for which the countrymen are receiving no "consideration" whatever?

The farmers have to stand the imposition just as long as Hazen and his friends sit on the government benches and bungle things as they are doing; and Dr. Crocket and his thirty-nine autoist friends, for whom he undertakes to speak, will also have to grin and bear it. They helped to put these incompetents in power, now let them put up with their bungling in the management of the roads and almost everything else—including the valley railway.

Years etc.

FARMER  
Nackawick, July 28th, 1911.

## ONTARIO TORY MEMBER IS IN A VERY BAD FIX

(Toronto Globe)

One of the most worried men in the anti-reciprocity ranks today is Mr. Joseph Armstrong, the Conservative member for East Lambton. The exigencies of politics compel him—as they have compelled Mr. Perley, the party Whip—to declare against closer trade relations with the United States, although his own personal business interests and those of his constituents would profit greatly by free trade in natural products.

Mr. Armstrong is President of the Petrolia Creamery Company, which built a creamery to make butter in the winter and cheese in the summer. When by inadvertence in the framing of the Payne-Aldrich tariff the duty on cream entering the United States was reduced from five cents per pound to five cents per gallon the Petrolia Creamery promptly quit cheese and butter making, and instead shipped the cream it collected to the United States. How profitable this was for Mr. Armstrong may be gathered from the following extract taken from a publication of the Lambton Publicity Association which is entirely non-political in its membership:—

"Dairying which is becoming one of the most profitable of the specialized lines of mixed farming is, of course, influenced by all the factors which go to make stock production successful. The reduction in duty on Canadian cream entering the United States from 5 cents a pound to 5 cents a gallon on August 5, 1909, has had a

particularly gratifying effect in the border counties, and in none more so than in Lambton. The price paid for the cream (twenty-seven cents per pound of butter fat) and the convenience of having the product called for has encouraged an increase in the dairy herds, particularly on the part of those whose other farm interests prevented them from making and marketing butter in the past, or who were not conversant to a cheese factory. Hogs are the natural concomitant of the dairy industry and especially in a county where the corn yield is so heavy. Whether the farmer elects to finish to butter or to ship cream to the States he retains the skim milk.

Mr. Armstrong is now confronted with the task of proving to the farmers of East Lambton that while the reduction of the American duty on cream to five cents a gallon has "a particularly gratifying effect" in Lambton and on the business of which he is President, the removal of the duty altogether will be a national calamity against which he is warranted in resorting to obstruction. It is said that some time ago Mr. Armstrong spoke in favor of reciprocity in natural products before member of the Grange in Lambton county. He has a hard proposition before him and unless he can wiggle himself free from the knots he himself helped to tie, it will be found that the electors of East Lambton "knew not Joseph" when last they cast their ballots, and that now they know him too well.

## BANK EMBEZZLER SURRENDERS HIMSELF

San Francisco, July 29—A man who says he is Garri A. Mander, former president of the Bank of Pearl at Pearl, Ill., surrendered here last night to the police, declaring himself a fugitive from justice. He said he had gambled away \$300,000 of the bank's funds, stole \$10,000 more and fled. He surrendered he said because he was starving.

## COL. G. W. JONES LOSES PERSONAL FORTUNE

(The Telegraph.)  
The sensational nature of the rumors regarding the recent financial reverses of one of St. John's leading citizens, and the fact that the names of other business men and establishments have been included in the stories, led The Telegraph to secure an authoritative statement regarding the matter last evening.

While it is understood that Colonel George West Jones has suffered the complete loss of his personal fortune, it is declared that he bears the loss alone and that there is no foundation for the stories that other individuals and institutions are seriously involved.

A gentleman who is in possession of the facts of the case and who was in a position to do so, consented last night to talk for publication.

The first thing which he wanted to make clear was that Colonel Jones himself would be practically the only one involved in the loss.

The story that the brewery business of Simeon Jones, Ltd., would be affected, was declared utterly groundless, although it was true that some of those connected with the business had endorsed paper which would, however, be taken up when due.

The losses said to have been sustained by the banks were also declared fictitious. The Bank of New Brunswick has been freely credited with having lost heavily, but The Telegraph's informant said that he believed that when the matter is fully settled the bank would have a surplus rather than a deficit. The Bank of British North America, also mentioned freely in connection with the affair, was said to be in an equally good position.

Regarding the extent of the losses nothing definite could be said except that \$300,000, the amount most frequently mentioned on the streets, is in excess of the actual figure. The rumors of an assignment are also incorrect, as matters will be adjusted without recourse to such a step.

The trouble was due to the uncertainty of the cotton market and the recent severe slump which included a drop of forty-one points in one day, was the final blow. All over the city very great regret is expressed over the affair, particularly as the chief loser is a public spirited and popular citizen with a host of friends.

Mr. G. E. Theodore Roberts and wife, who have been summering at Oromocto, arrived in the city by boat yesterday.

Mrs. W. F. Glidden and Miss Glidden, of Woodstock, are at the Barker.

## UTILITIES COMMISSION HANDS DOWN DECISION

(Continued from page 4)

would accept the ruling and at the expiration of the present quarter, would have the new schedule of rates calling for a decrease of fifty per cent. in the rates charged for extension sets, go into effect. The price charged for extension sets at present ranges from \$5 to \$12 per annum, and one of the lawyers interested in the case estimated last night that the decrease in the revenue in St. John as a result of the decision would amount to about \$2,000.

AN IMPORTANT OFFER.

In discussing the judgment yesterday after the meeting Mr. Powell, counsel for the complainant, said that an offer had been made to him, on behalf of the Tri-State Company, of Minneapolis, to install in St. John a telephone exchange with a larger switch board than the one now here, with everything new and up-to-date, the equipment fully capable of handling all present business and being expanded to meet all future needs, and the cost of the whole plant to be \$250,000. Mr. Powell pointed out that the earnings of the St. John exchange, according to the testimony heard before the commission, were \$51,000 last year. If an independent St. John exchange were introduced to meet the needs of telephone subscribers, the New Brunswick Company would be compelled, under the present law, to give St. John subscribers long distance service whenever they needed it.

Associated with Mr. Barnhill, K. C., as counsel for the respondents, were J. B. M. Baxter, K.C., and M. G. Teed, K.C.

kets of the Maritime Provinces have hindered the prosperity of the farming community. A sure and steady market is better than an occasional high price. Water communication will place the lake section of Queens county on an equal footing with Aroostook for the American potato market.

Dr. Hay thinks the Conservatives will have difficulty to place a candidate in the field in opposition to Colonel McLean.

"He has more than fulfilled every election promise and won the general approval and popularity of the electorate."
