FARMERS GAIN AT BOTH ENDS

The "Weekly Sun" Toronto, (Independent) says:—Merely a glance at the list of articles which will be entitled to free entry to the United States under reciprocity is sufficient to show the great advantage that farmers in all parts of Canada stand to gain by the ratification of the agreement.

Take live stock to start with. Horses which are valued at \$150 per head or less are taxed \$30 on entering the United States while those worth over \$150 are dutiable at 25 per cent. Still in the face of these heavy imposts close on half a million dollars worth of Canadian horses were sold in the United States last year.

At present calves entering the United States from Canada are taxed \$2 per head, while cattle worth not more than \$14 have to pay \$3.75. Cattle worth over \$14 each are dutiable at 27½ per cent. And yet we sold well over \$680,000 worth of cattle in the United States in 1910.

Considerably over half a million dollars worth of sheep and lambs were sold in the American market in the same year although the tax on the former was \$1.50 and on the latter 75c. per head.

Of hay, \$673,000 worth was sold in face of a duty of \$4 per long ton.

In potatoes our sales reached \$346,000 despite a tax of 25c. per bushel; in turnips of \$174,000 notwithstanding a tax of 25 per cent and in vegetables of \$150,000 after payment of the same rate of duty.

All these and many other articles are to be made free under reciprocity. It needs no argument to show that trade must expand enormously when what are almost prohibitive barriers have been removed. Farmers in Lambton and Essex will gain greatly by freedom in selling their beets to Michigan sugar factories. Kent farmers must derive profit from the opening of the American bean market. Wellington, Brant and Wentworth counties will profit from the removal of the restrictions on sales of turnips. Ontario and York counties will find a magnificent market for their horses in New York state fruit and vegetable growers all along the lake front will have new and valuable markets almost within sight, thrown open to their products. Every producer of hogs, cattle or sheep; every dairyman and every poultry producer will reap advantage from having two markets in which to sell instead of being confined to one.

Nor will the benefit be confined to the selling end. There will be something to be gained at the buying end as well. The duty on nearly all implements bought in the United States will be reduced, the reduction being two and one-half per cent in some cases and five per cent in others. There is a slight shave in cement, and salt is made free. In common with other consumers, farmers will gain, too, from the reduction in the tariff on prepared foodstuffs such as bacon and hams, lobsters, oysters, and sardines, canned meats and lards, canned vegetables, cereal foods, and biscuits.

Taken all in all the agreement is a mighty good thing to the farmers of Canada, and will cause no injury to any other legitimate interest.
