Fredericton, N. B., Nov. 10, 1911

THE RIGHT SPIRIT

The citizens of Medicine Hat, a flourishing city in the Province of Alberta, propose expending the sum of forty thousand dollars in advertising the cheap power offered by the natural gas wells in that vicinity. The citizens have already subscribed twenty thousand dollars to the fund, and the town council propose to vote a like amount, making the total forty thousand dollars for publicity and advertising purposes. The matter was recently discussed at a public meeting, at which one of the speakers was Mr. Nelson Spencer, who, by the way, is a former resident of Bloomfield Ridge York County. He is reported to have said:

"We must show that we have faith in our city by investing our money in this new enterprise. The man who is secured for the job of publicity agent must be one who can talk business. I believe in advertising. You cannot pick up the paper today and believe otherwise. For instance look at the Maritime Provinces as compared with the other provinces. The Maritime Provinces did not advertise and they stood still."

As The Amherst News well says, it is not pleasant for Maritime Province people to be held up to westerners as being the Rip Van Winkle portion of the Dominion. If our province and towns are to grow, our town councils and our local assembly, assisted by federal aid, must begin to advertise and must enter upon a progressive and spirited policy to bring new settlers to take up our vacant lands and to begin the cultivation of our abandoned farms.

It is very pleasing to know that the Fredericton Board of Trade has already entered upon a publicity campaign, and it is up to the city council and citizens generally to co-operate in the work. The proposal to take a new census is one which should not be taken seriously. If we have any money to spend, let us spend it in an effort to make our splendid attractions known to the outside world. If our public bodies take hold and work as they should work and receive the support that they have a right to expect, the end of the next decade should find Fredericton with a population of ten thousand people.

LEARNING SLOWLY

The market reports continue to tell their story to the Canadian farmers who previous to the election were told, among a great many other things, that the opening of the United States market would be of no benefit to them. The farmers have an opportunity now from week to week of seeing how much sincerity there was in this election fable.

Another thing that may help farmers and others interested to size up the situation is that while hogs, cattle, lambs, etc., have dropped in price there has been no drop in the prices they have to pay for their bacon, their beef, their lamb or any of the other necessities they are obliged to buy for their table or their home consumption.

Do the electors, who, on the day after the election, thanked Heaven that Canada was saved, now understand why and by whom and for whom it was saved?

Kingston Standard (Conservative)—So far as the Conservatives in this Province are concerned they will welcome a stronger opposition. A Government does not thrive best when it has no one to fight it. Opposition in politics is like competition in trade—the life of the thing.

A Toronto Exchange has the following: Mr. Borden is still receiving hundreds of letters daily, many of them from "cranks," with suggestions as to how the country should be run. One enthusiast sent him a Bible with various passages carefully marked for his guidance. A little girl down in Cape Breton wrote for his photograph, adding naively: "Father is a Liberal, and I did not know what to give him for his birthday, so I thought your picture would please him!" The great proportion of the letters, however, are from those patriotic Canadians who want jobs. Many want financial assistance, just ten or twenty to tide them over until the government job comes along. One man asked for a hundred, and as a P. S. added: "I shall await it with patience." He is more than likely to have the opportunity of exercising that attribute.

Lethbridge Herald—That all is not peace and harmony in the Conservative ranks is evident from the difficulty the new Minister of Finance found in securing a seat, and the opposition openly offered by Tory newspapers and leaders to his inclusion in the Borden Government. They see in him a representative of the corporate influences, and they fear that the mergers and combines will dominate the new government. Leading Conservatives, are independent enough to speak out and denounce the choice of Mr. White.

Port Arthur Chronicle—Now is the time to reform the Senate by abolishing it. The red chamber is filled by many young and husky Grits who may live a long time and hold the Senate as a scotch on the movements of the Tory legislative wagon. They can if they so desire, and they can give Mr. Borden an awfully uneasy time of it if they rise up on their hind feet and paw the air in opposition. Let the Tories now apply the reform methods with which they taunted the Grits for these many years.

Ottawa Journal—So far as can be judged from surface straws, the policy of the Borden Government seems likely to be to consult the Imperial authorities as to what the latter would best like Canada to do. We doubt if in that case the Imperial government would ask for either money or ships. If either were to be invited, why—we suppose Canada might as well let it go at that. But meanwhile, we venture to think that common sense and Imperial interest are alike on the side of Canadian naval effort.

The Right Hon. A. J. Balfour, who has resigned as leader of the opposition in the Imperial parliament, has for years been the most outstanding figure in the Unionist party. His retirement at this time will be a serious blow to his party. The names of Hon. Austin Chamberlain, son of Right Hon. Joseph Chamberlain, is mentioned as a possible successor.

Ottawa Free Press—And not a word from the Premier about the navy in the naval city of Halifax. Could it be that Mr. Bourassa has not yet given the requisite permission?

PERSONAL

Mr. F. J. McKenna of Montreal is at the Barket House.
Dr. O. E. Moorehouse M.P.P. of Upper Kewick is in the city.
Mr. E. S. Winslow of Montreal is registered at the Queen.

Mr. T. G. Murphy of Fraserville P. Q., is in the city.

Mr. Charles C. Thomas is in the city.

Hon. James Barnes of Buctouche arrived in the city last evening. He is registered at the Queen.

Mr. W. F. McLaren of Montreal is at the Queen.

Mr. F. H. Palmer arrived in his motor boat yesterday from Douglas Harbor Grand Lake, accompanied by his aunt Mrs. F. B. Cooper of this city.

Mrs. John Moore has returned home from a visit to Boston.
Standard—Vancouver News-Advertiser, Nov. 3: Mr. J. J. McCaffery, of Fredericton, N.B., has just arrived in the city on a combined business and pleasure visit to the Coast. Mr. McCaffery is the manager of the Queen Hotel at Fredericton. He is a guest at the Hotel Vancouver.

ACCIDENTALLY SHOT

Charles Flett, son of Mr. William Flett while cleaning a self-cocking revolver last night was shot through the leg the bullet entering the calf of his leg near the knee and lodging near the ankle. It was removed by a doctor and the wound dressed.

PREMIER ASQUITH PAYS TRIBUTE TO BALFOUR

(Continued from page one)
immediate danger. Ships had been sent to the principal scenes of disturbance merely for the protection of the British subjects and of other foreigners if they were unprotected. "We have no disposition to interfere in any way in the internal affairs of China," said Mr. Asquith. "We wish her a peaceful and progressive future."

INDIAN-TURKISH WAR

"Nearer home the peace of Europe is unhappily disturbed by the war between Italy and Turkey in regard to which we have declared and intend to pursue a policy of strict neutrality. Many have strongly desired that we should make an effort at mediation. None were more anxious than the government, if the opportunity arose. (Loud cheers.)

"Other powers share this desire. We are in constant communication with them in regard to this and mediation is more likely to be fruitful coming jointly from the powers than would it be if the isolated action of one." (Cheers.)
He emphasized the fact that it would be useless to submit proposals for mediation except upon a basis acceptable to both combatants.

WELCOMES MOROCCAN SETTLEMENT.

It was a satisfaction to turn to the welcome and happy conclusion to the two great countries of the negotiations regarding Morocco between France and Germany. The settlement was a relief to Europe, for it removed perhaps the greatest obstacle to the smooth working of European diplomacy.

"Our own gratification at these happy results is none the less profound and sincere because we had been suspected in irresponsible quarters of looking coldly upon the negotiations and even of a disposition to tamper with their success."

The Premier declared, with great emphasis, that nothing could be further from the truth.

"There was no secret about the aims and methods of British policy. Where British interests were involved it was our business to safeguard them where treaty obligations came in, it was our duty to fulfill them, where we established friendships and understandings we sought to maintain them loyally and intact, but our friendships are neither exclusive nor jealous."

"We have no cause of quarrel with any nation, nor, with such a history and empire as our own, had we any disposition to curtail or fetter the natural and legitimate aspiration of others."

"We rejoice sincerely in our settlement which removed upon honorable terms outstanding differences which cleared the mists of misunderstanding from the international atmosphere, which broadened the foundations of peace and good will in Europe and the world at large." (Loud cheers.)

BIG MILLING PLANT WIPED OUT BY FIRE

Chicago, Ill., Nov. 10.—Fire last night destroyed the plant of the Chicago Flour Mills Co., causing \$800,000 damage. The mill proper, two brick storage warehouses filled with flour and a four-story grain elevator partly filled with wheat, were burned.

TO BE CUBAN GIANTS NOW

New York, Nov. 10.—A baker's dozen of the New York Giants bade adieu to Broadway today and set sail for the land of cigars and senoritas. The contenders in the recent world's series plan to spend a good part of the winter in Cuba playing exhibition games with the Cuban league team.

The United Hatters of North America report that most all of the manufacturers who in 1909 banded themselves together and decided to dispense with the union label on their products are now using the label.

NOT ONE WOMAN IN TWENTY HAS A STRONG BACK

The Kidneys are to Blame
Nine Times out of Ten

Women are coming to understand that weak, lame and aching backs from which they suffer are due to wrong action of the kidneys.

The poisons that ought to be carried off are sent back into the blood, taking with them a multitude of aches and pains. There is no use of expecting relief until the kidneys are restored to health.

Doan's Kidney Pills are the quickest and most reliable remedy. Mrs. Ed. Baxter, Upham, N.B., writes:—"I take a good deal of pleasure in telling you what Doan's Kidney Pills have done for me. I was troubled with my kidneys for a number of years and my back was so lame I could not sweep the floor. A friend of mine advised me to try a box of Doan's Kidney Pills, which I did and after using three boxes I am as well as ever. I highly recommend them to anyone suffering from lame back or kidney trouble."

Doan's Kidney Pills are 50 cents per box, or three boxes for \$1.25 at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited Toronto, Ont.

When ordering direct specify "Doan's."

HAS MADE A SUCCESS OF FARMING AT KINGSCLEAR

So many have come to this Province from across the water, bought farms and settled thereon, and after a time got discouraged, sold out and returned home again, perhaps to give New Brunswick a bad name as an agricultural country, it is a satisfaction and pleasure to be able to point to some who have made a success of farming here although they were born and had their early training in the old land.

Three years ago Mr. S. J. Darcus came to this province from Ireland and bought the Fern Hill place from Mr. Bodkin, quite an ordinary high land farm. He and his good wife went to work thereon and by tact and ability to adapt themselves to the altered conditions of life of which they found themselves surrounded in their new home, and by industry and the application of intelligent methods of farming and more especially in raising poultry and fruit, they have we are informed, not only been able to pay all the expenses of operating their farm, but have something to the good.

Mr. Darcus took six prizes for fruit at the recent fruit exhibition in St. John and several prizes were awarded to Mrs. Darcus for fruit and berries and vegetables at the Fredericton exhibition held in September last.

The appearance of what these people put in the market week after week, shows the superior methods of the farmer as well as skill and industry of his wife.

If by any means skilled farmers such as Mr. Darcus could be settled upon the vacant farms of the Valley of the St. John it would soon become what nature intended it to be, the garden of the Maritime Provinces. Not only has Mr. Darcus and his family found New Brunswick a good country to live and prosper in, but they find the people kind and agreeable.

Mrs. Staveley his mother-in-law who has been making him a visit is soon to return home again and will carry away with her many pleasant recollections of New Brunswick and its people.

PRINTERS' COST CONGRESS

Oklahoma City, Nov. 10.—The South west Printers' Cost Congress began a two days' convention here today with a large attendance of employing printers from New Mexico, Kansas, Missouri, Arkansas, Texas and Oklahoma. President G. M. Booth of Wichita is presiding over the sessions.

"Why will the horse not survive the automobile?"
"Because he gets in its way."

FISHERIES EXHIBITION IN PARIS

Paris, Nov. 10.—Many countries are represented in the international fisheries exhibition which opened in Paris today. The exhibition is under the control of the French Government. It will continue until the end of the year.

ATLANTA TO ENTERTAIN A. F. OF L.

Atlanta Ga., Nov. 10.—The labor bodies of Atlanta are making elaborate preparations for the entertainment of the annual convention of the American Federation of Labor here next week. The convention will be attended by representatives of organized labor throughout the United States and by fraternal delegates from Canada and England.

There are strikes in the building trades and in the textile industry in several towns of Brazil. The building trades obtained the eight hour day several years ago and are now striking for higher wages.

Sight Restored

Science points out the way to the restoration of sight.
If your vision is defective we can by scientific methods measure the defect and supply the necessary glasses to restore it.

Waldron W Maxwell
YORK STREET

A woman would rather have a tailor or one day a year than a dressmaker every week.
