BAKER'S HOME-RUN IN SIXTH WON GAME FOR ATHLETICS

Crandall Replaced Marquard in Box for Giants in Eighth Inning--Plank Never Pitched Better Ball for Philadelphia in His Life

Philadelphia, Pa., Oct. 16.—When John Franklin Baker, third baseman, pulled a home run over the right field wall of Shibe Park, scoring Eddie Collins ahead of him today, he put the Philadelphia Athletics on an even footing with the New York Giants, and the two teams will now go to New York for the third game tomorrow in the series for the world's baseball honors. Score, Philadelphia 3, New York 1. The paid attendance was 26,286.

The big hit came in the sixth inning, with two out and when the Athletics had touched up Pitcher Marquard of the National League champions, for only three hits. Baker's smash was the last in the game for the American leaguers, but it was enough.

GREAT PITCHING.

And just as important as Baker was on the offensive Eddie Plank, the star left hander of the house of Mack on the defensive. The veteran south paw never pitched a better game in his long career. Only one of the Giants reached second base and that was Herzog, who made that bag on a long hit to centre field, which Oldring either misjudged or lost in the sun. Plank was never in trouble and in the last six innings New York went out in order.

GRANDAL SENT IN.

Marquard, on whom Manager McGraw had pinned his faith to make it two straight victories for New York, pitched a game that was almost the equal of that of Plank. He allowed the heavy hitting Philadelphia team but four hits, two in the first inning, in which the Quakers got their first run with the help of a wild pitch and two in the sixth, Collins' double and Baker's hit out of the grounds. In the eighth inning Manager McGraw changed pitchers, sending in Crandall, a right hander.

The total attendance was 26,286. The total cash was \$42,962, divided as follows:

Players' share, \$23,199.

Each club, \$7,733.
National commission, \$4,296.

The attendance was divided as follows:

17,299 at \$1.
149 at \$1.50.
1,074 at \$2.
7,764 at \$3.
