STOCK MARKET

(From J. C. Mackintosh & Co., Bankers and Brokers.)

New York, N. Y., Dec. 21—Early advances in the market were a little too violent. It was checked in good time however, and a reaction occurred towards the end of the first hour. There was considerable activity in Union Pacific Pfd., which advanced about two points on Friday's bid price. The rise was based on the argument that the stock had a good fighting chance of participating in whatever rights there might be for Union Pacific stockholders in connection with the sale of the company's holdings of Southern Pacific.

Corn—Easier; rather free; commission house selling on fine weather.
Oats—Shade lower; commission house buying, locals selling.

McDougall & O'Gorman. It will, however, assist in relieving the present grain congestion in the west.

From Cochrane, east, for 15 miles, the National Transcontinental Railway Commission has also arranged for a train service during the winter to accommodate the settlers who have already gone in along the line and to take care of lumbering and railway construction traffic.

In addition to the operation of this western third of the National Transcontinental, the commission is also now operating with a tri-weekly train service on the completed New Brunswick section from Moncton to Edmundston, and a contract service is being given by MacDonald O'Brien from Harvey Junction to Parent, 170 miles west of the Quebec bridge.

The whole line will be completed next fall. There are now only about eighty miles of steel to be laid to complete the whole 1,800 miles from Moncton to Winnipeg. The present big gap is about half way between the Quebec bridge and Cochrane.
