RECIPROCITY AGREEMENT DISCUSSED BY MR. CARVELL

(Continued from page two)

County of Charlotte alone and exported to the neighboring county in the State of Maine to be manufactured into sardines. Under the general United States tariff there is a duty of $\frac{1}{2}$ of a cent per pound on fresh fish, but in some way, by means of their tariff regulations, this particular kind of fresh fish are allowed to go into the United States free of duty provided they go in an American vessel commanded by an American master. In that way they go in as American fish. As a matter of fact, the Canadian fisherman catches the fish, puts them in hogheads, and then they are transferred from his vessel to an American vessel commanded by an American skipper, in which they are taken to the packing establishment, distant not more than three or four hours' sail. The result has been that hundreds of our vessels have been transferred from the Canadian register to the United States register, and hundreds of our citizens, who are the owners and managers of these vessels, have been compelled to become United States citizens, and in fact, to reside in the United States before being allowed to man these small vessels in which the fish are carried away. If this arrangement goes into effect, the result will be practically this: Our fisherman will be able to catch his fish, as he has always done; he will register his vessel in a Canadian port, so that it will become again a Canadian vessel; he comes back and becomes naturalized as a British subject; he is able to live at home; he increases our population, and he can carry on a legitimate business, catching these fish with his own labour and that of his sons, and taking them to the United States and getting the same price that he gets today. When you consider that in the present conditions we are sending \$325,000 worth of these fish from one county alone to the United States, you can understand to some extent what the free entry of fish into the United States means to the Maritime provinces.

Mr. Henderson—Would these sardines have free entry into the United States?

DUTY IS PROHIBITORY

Mr. Carvell—They would not go in free as fresh fish. They go in free now, but it is by manipulation of the United States customs regulations; but the trouble is that our fishermen are compelled to alienate themselves and their vessels from their native country in order to get them in free. The duty of $\frac{1}{2}$ of a cent per pound on these small fish is prohibitory, because the average price the Canadian fisherman gets for them does not exceed $\frac{1}{2}$ of a cent per pound, and as the United States manufacturers are dependent upon our people for their supply they have winked at the regulations, constraining them differently from what they were intended to be, and have got the fish in that way.

There are other fisheries all along the maritime coasts of Canada, and up the St. Lawrence river to the province of Quebec, and what applies to the County of Charlotte, applies to the other portions of maritime Canada, even in a greater extent because in the case I have described the people of the County of Charlotte actually get their fish into the United States free of duty, while in all other portions of maritime Canada the

fishermen are not in a position to take advantage of the regulations, and therefore, are compelled to send their fish there in the face of a duty of $\frac{1}{2}$ of a cent per pound, and when you come to consider that compared with the total price the fisherman gets for his fish, it is a terrible handicap, which in many cases is prohibitive.

QUESTIONS FOR FARMERS

Up to the present time I have discussed this question very largely from the standpoint of the maritime provinces. I would like to know what some of our Conservative friends from the maritime provinces think of this proposition. I am sorry there are none of them in their places this evening. However, I shall have to say what I intended just as if they were here, and I hope they will do me the honor of reading it in "Hansard," and possibly at some future stage of the debate reply to some of the statements I make. I would like to know what my hon. friend from the County of Kings, Prince Edward Island (Mr. Fraser) has to say about the right of his fishermen to send their fish, and his farmers to send their potatoes, their turnips, their oats, their hay and all their other products to the United States free of duty. I would like to know what my hon. friend from the County of Cumberland (Mr. Rhodes) has to say about this. I would like to know what my hon. friend from the County of Digby (Mr. Jameson) has to say about this. Surely he knows what it means to his fishermen much better than I do; he knows what it means to his farmers, his lumbermen and to every labourer in the province of Nova Scotia. If my hon. friend votes against this proposition I would like to know how he is going to square himself with his constituents. Then I come to my own province. My hon. friend from the city of St. John (Mr. Daniel) will no doubt vote against this proposition, because he has no fishermen in his constituency. He seems more interested in the negro question than in reciprocity. But I come to my hon. friend from York (Mr. Crockett), who represents an agricultural constituency which bounds mine for 25 or 30 miles, and is vitally interested in this question. I would like to know what he thinks about it. I am sorry he is not here, because I shall be compelled to read something that affects him particularly. While he may possibly screw up his courage to the point of voting against these resolutions on the broad ground that they are disloyal and will lead to annexation, I want to show the House what was the opinion of the hon. member for York only a short year ago on one very important item in these schedules—I refer to shingles. In the last fiscal year the Dominion of Canada exported to Great Britain shingles to the value of \$1,274, and in the same year she exported to the United States shingles to the value of \$2,298,055, and I think I am safe in saying that nearly two-thirds of all the shingles exported by Canada to the United States went either from the maritime provinces or from eastern Quebec. Only one short year ago, when my hon. friend from York had no idea that there was going to be reciprocity with the United States in natural products, when he had no idea that his manufacturing friends in the city of Toronto, who control him, would be able to dictate how he should vote, he wrote the following letter to the Minister of Finance:

Pan-Dried A Food—Not a Fad

The flavor of Tillson's!—well just taste it and describe its deliciousness if you can. Tillson's is made to meet the most exacting demands. Made of choice, selected oats. Beautifully clean—free from black specks or hulls. You'll be proud to serve such oats on your table.

JUST ONE WOMAN IN THOUSANDS

Who Can Say "Dodd's Kidney Pills Made Me Well!"

Mrs. Louis Delorme who was Always tired and Nervous and Suffered from Backache, Tells How She Found a Cure.

St. Rose de Lac, Man., March 10.—(Special)—The story of Mrs. Louis Delorme, a well known and highly respected resident of this place, is identical with that of thousands of other women in Canada. It is all the more interesting on that account. She was tired nervous and worn out. Dodd's Kidney Pills cured her.

"I suffered for years from Backache and too frequent urination, which destroyed my sleep," Mrs. Delorme states. "My head would ache, and I was always tired and nervous. My limbs were heavy and I had a dragging sensation across the loins. Dodd's Kidney Pills made me well. I used in all ten boxes but they fixed me up."

Thousands of other Canadian women who have not used Dodd's Kidney Pills are in just the condition Mrs. Delorme was before she used them. Thousands of others who were in that condition and who used Dodd's Kidney Pills are now well and strong.

We learn from the experience of others, and those experiences teach us that the weary and worn women of Canada can find relief in Dodd's Kidney Pills.

PUBLIC DRINKING CUPS TO BE ABOLISHED

Toronto, March 10.—The enactment of by-laws abolishing the public drinking cups in parks, public schools and on the streets, prohibiting the exposure of food stuffs to dust and flies in the warm weather by merchants and compelling proper ventilation of public buildings and small theatres will be considered by a committee of the board of health.

The population of the Commonwealth of Australia places the total number of people in the six States 4,474,000

House of Commons, Ottawa, March 11, 1910. Honourable W. S. Fielding, Minister of Finance, Ottawa.

Dear Mr. Fielding,—I have a communication from the Scott Lumber Company, Ltd., who operate two or three mills in my constituency, requesting me to lay before you, in connection with the recent negotiations between the Canadian and the United States governments upon the tariff matter, the representation that the recent increase in American duty upon shingles has seriously affected the business of Canadian mills particularly in the maritime provinces. They claim that the rate of 50 cents per thousand is unreasonable and almost prohibitive, and that in the interest of this trade, our government should at least endeavour to have it reduced to the old basis of 30 cents a thousand.

I trust that if the question of revision of the two tariffs is taken up, you will hear this communication in mind.

Yours truly,
OSWALD S. CROCKETT.

My hon. friend from St. John (Mr. Daniel) this afternoon wanted to know what evidence I had that lumber was worth any more on the other side of the line, or who paid the duty. Let me refer him to the hon. member for York (Mr. Crockett) who is an authority with the hon. gentlemen opposite. He says that fifty cents per thousand on shingles is almost prohibitive. I say so too. I know something of the shingle business, because I have clients who are probably the largest shingle producers in the maritime provinces, and I tell my hon. friend that there will be no boon which the lumber manufacturers of the maritime provinces will prize so highly as a reduction of twenty cents a thousand on shingles. And what is true of shingles is true of laths and boards and scantlings and hay and oats and almost everything which these provinces produce.

(To be Continued)

HON. MR. CAMPBELL ACCUSED OF GRAFT

Winnipeg, - March 9.—In the Manitoba House yesterday, The Hon. Colin Campbell, Attorney-General, was charged by Mr. T. H. Johnson, Winnipeg West, with graft. Johnson alleged that Campbell had been using criminal labor to his own benefit, and produced an affidavit from a former turnkey of the provincial jail to the effect that Campbell had had squads of prisoners doing chores at his private residence, cutting wood, shovelling snow, beating carpets etc. The official mentioned said he himself had charge of these squads during the five years he was connected with the jail from 1902 to 1907, and affirmed that none of the prisoners had received any remuneration. All the pay he himself got was official salary. The Attorney-General listened to the charges in silence making no defence. An investigation was asked for, but the house went into committee of supplies and no steps were taken.

LIBERALS SOLID FOR RECIPROCITY AGREEMENT

Ottawa, March 9.—The reciprocity agreement will be confirmed by parliament as soon as we are able to reach a final vote," was the decision reached by the Liberal supporters of the government who met in caucus today for the purpose of discussing the situation.

Sir Wilfrid Laurier and the other members of the government were present and it is understood were heartily commended for the agreement which they had made with the American authorities.

William German and Lloyd Harris, two of the Liberal bolters from the agreement, attended the party gathering and stated that while they were against reciprocity they were loyal on all other issues and would continue their support to the government.

"Sir Edmund Walker, a leading Canadian banker, has declared against the agreement on the ground that it would result in annexation through closer trade relations with the United States," said H. H. Miller, a leading Liberal, in continuing the reciprocity debate. "I would ask Sir Edmund Walker and other Canadian bankers opposing the agreement, how they explain the fact that for the last twenty years the chief business of Canadian banks has been to collect the money of Canadians as savings deposits at three per cent and loan it for thirty per cent. In New York to aid American stock operators in their speculations, and why annexation has not resulted from this?"

Mr. Miller declared the day of the farmer and the consumer had dawned in Canada and the United States, and the trade agreement for reciprocity was the franchise which would lead to his eventual relief.

Mr. Goodeve, of British Columbia followed with a condemnation.

HAREM SKIRT BANNED

Springfield, Ill., March 9.—Harem and hobble skirts were the subject of a bill presented in the Legislature today by Representative Murphy, of Chicago. "Hobbles," measuring less than one and one-half yards and not more than three yards at the bottom are prohibited. An absolute band is placed upon the "harem" skirt by the bill, which prohibits women appearing in the public in the garb. Heavy fines for violation of the proposed law is provided.

"Pneumonia"

Pneumonia is nothing more or less than "Lung Fever," or as it used to be called, "Inflammation of the Lungs" and the results come entirely from a local source; such as taking a violent cold.

There is more or less difficulty in breathing; a cough, at first dry, but soon accompanied by raising a thick, sticky, rusty-colored matter, composed of a mixture of phlegm and blood.

There is only one way to prevent Pneumonia, and that is to cure the cold just as soon as it appears. Dr. Wood's Norway Pine Syrup will do this quickly and effectively.

Mrs. G. W. Bowman, Pattullo, Ont. writes: "Three years ago I caught a cold which ended in a severe attack of Pneumonia. Since that time, at the beginning of each winter, I seem to catch cold very easily. I have been so hoarse that I was unable to speak loud enough to be heard across the room. Last winter, however, a friend advised me to try Dr. Wood's Norway Pine Syrup, saying it had helped her. I bought a bottle and before it was half used I was completely cured. I also find it a good medicine for the children when they have colds."

Dr. Wood's Norway Pine Syrup is pine trees the trade mark; the price 25 cents.

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Citizens' Ticket

To the Electors of the City of Fredericton, Ladies and Gentlemen:

The undersigned, at the request of a very large number of the electors of this City, very largely representing the business interests of the community, have consented to become candidates for Aldermanic honors in the Civic Elections to be held on Monday next.

In placing ourselves before our fellow citizens, we desire that they understand our position thoroughly. Our purpose will be in every particular to promote the best interests of the City of Fredericton and our actions will in no way be guided by any faction or party. If elected we assure you that our sole purpose will be to the end of upbuilding the industries in the community, and in doing so increase the population as well as for the commercial importance of this, the most beautiful City in the Maritime Provinces.

We believe Fredericton has a great future and there is no reason why under judicious management of our civic affairs, the desired end so long delayed could not be accomplished, and Fredericton made BIGGER, BETTER, BRIGHTER and BUSIER.

WELLINGTON WARD.

Hugh Calder Thos. C. Allen.

To the Electors of the City of Fredericton

Ladies and Gentlemen: The candidates on the Good Government ticket ask for your votes on Monday next.

This is a FORWARD time, a spirit of PRIDE IN OUR CITY and optimism prevails.

The Council of the past year by close attention to the business of the City has made most marked improvements, so much so on the financial side that an actual reduction in taxation may be looked for.

Having been earnestly solicited to carry on the work for another year and being deeply interested in the welfare and PROGRESS of the City, the undersigned are willing, if elected, to serve you faithfully.

It has never been—It surely will not be in the interest of the Citizens generally to have a majority at the Council Board who have the support of the illegal liquor sellers, and voters are respectfully asked to remember the conditions that obtained in the year before last.
