INCORPORATED 1820.

If you have not already started to save, open an account now with this bank. Keep adding to it steadily, and you will be astonished at the result.

It will pay you compound interest on the money deposited with us. The knowledge that you have a reserve fund available when you really need it will be one of your greatest comforts.

FREDERICTON BRANCH—QUEEN STREET

W. E. JARDINE, MANAGER

If women would only suit the size of such receptacles to their own size the fashion would gain. But instead, it seems as though the smaller a woman is the bigger she wants her bag, while the woman of good size is content with something quite moderate. It is this suiting of oneself of one's personal effects that after all distinguishes the really smart and well-dressed woman from the throng of good, bad and indifferent dressed ones.

Almost a quarter of the membership of labor unions in New York were idle during the first six months of the present year, according to the last quarterly bulletin of the State Department of Labor.

The new scale of the San Francisco Bricklayers' Union, which is to remain in force until August 1, 1915, fixes the pay at 87 cents an hour and eight hours a day for five days, with four hours on Saturdays.

A SEVERE COLD

DEVELOPED INTO

PNEUMONIA.

Doctors Said He Would Not Live.

DR. WOOD'S NORWAY PINE SYRUP Cured Him.

Too much stress cannot be laid on the fact that when a person catches cold it must be attended to immediately, or serious results are liable to follow.

There is only one way to prevent pneumonia, and that is, to cure the cold just as soon as it appears.

Dr. Wood's Norway Pine Syrup will do this quickly and effectively.

Mr. Hugh McLeod, Esterhazy, Sask., writes: "My little boy took a very severe cold, and it developed into pneumonia. The doctor said he would not live. I got some of your Dr. Wood's Norway Pine Syrup, and he began to improve. Now, he is a strong healthy child, and shows no sign of it coming back."

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper; three pine trees the trade mark; price 25 cents.

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

GOVERNMENT OWNERSHIP

OF TERMINAL ELEVATORS

Guelph, Ont., Dec. 15.—The Dominion

Millers' Association meeting, at the Ontario Agricultural College, passed a unanimous resolution this afternoon to urge the government to proceed with the taking over of the terminal grain elevators at Port Arthur and Fort William, with as little delay as possible, so that they can be operated before the movement of the next crop.

The future of Shawinigan is assured, and whether or not there is any truth in the much-discussed possible merger with the Montreal Light, Heat & Power Company, the Shawinigan concern is a huge concern and worthy of investment support.

PREPARING FOR

SCOTTISH CURLERS

Ottawa, Ont., Dec. 15.—It is probable that His Royal Highness, the Duke of Connaught will extend his distinguished patronage to the reception which the local clubs are planning for the Scottish curlers. It is intended to have games at the Rideau, Ottawa and Globe rinks, and also at Government House.

FINANCIAL and COMMERCIAL

MOVE IN R. & O. PREDICTED.

In some quarters there is a belief that Richelleu and Ontario is about to receive more attention from inside interests. The market position of the stock, according to Green-shields & Co., has undoubtedly changed considerably during the last month or six weeks, and the improvement will likely result in the insiders finding it very much easier to move the stock than was the case some time ago.

SHAWINIGAN READY FOR BIG BUSINESS.

Shawinigan stock is now participating in the advance in Power to the extent that the market has expected. This huge concern is getting into splendid shape to fulfil the power demands of Montreal.

The new hydraulic development for the production of 75,000 electrical horse power has been completed, and two pen-stocks and two units of a nominal capacity of 15,000 horse power each have been installed. The remaining three pen-stocks and generators will be installed as required, the development having been made with this end in view. A new power house has been erected for this new development, the first 15,000 horse power of which is now ready, and the remaining 15,000 of which will be ready in two weeks.

This, added to the 55,000 developed in the original power house, will give a nominal total of 85,000 electrical horse power, and leave the company in a good position to increase to its total of 130,000 horse power.

The future of Shawinigan is assured, and whether or not there is any truth in the much-discussed possible merger with the Montreal Light, Heat & Power Company, the Shawinigan concern is a huge concern and worthy of investment support.

C.P.R. MAY BUY UP ERIE.

It is now some months since the president of the Erie Railway paid a "casual" visit to Montreal, and, while here, renewed acquaintance with Sir Thomas Shaughnessy and other officials of the Canadian Pacific Railway. It was the opinion at that time, that there was some serious talk between the railway men.

Certain it is that friends of the Canadian Pacific Railway stock expressed the view at that time that Erie was a good purchase. This was accurate. It was denied, however, that there was "anything doing" between Erie and Canadian Pacific Railways.

Now, the rumor is going around that the object of making the new \$18,000,000 issue of the Canadian Pacific Railway was to pay for Erie. Issued at 150 this stock would realize \$27,000,000 which, it is claimed, would pay for some \$80,000,000 Erie common, taken in at recent average prices.

There was certainly very active purchasing of Erie for a considerable period, and it is known that much of the stock went into the hands of the friends of Canadian Pacific Railway.

C.P.R. HOLDERS GET 11 P.C.

Practically every two years in the past decade Canadian Pacific has put out a block of stock, each time yielding a substantial right to stockholders.

The following table shows the high and low prices for the rights resulting from Canadian Pacific stock issues since 1902 (not including the latest):

	High	Low
1902,	10½	9
1903,	9	6½
1904,	12½	11½
1904,	8½	5
1905,	6½	3

Assuming \$8 as the price of the new rights, that figure being the theoretical value, Canadian Pacific stockholders since 1902 have received an additional return on their investment in the form of rights averaging 4.2 per cent, per annum taking the low point for the rights, and 5.2 per cent, if the highest price were realized.

In other words, while the average dividend rate paid in the ten years was 5.6 per cent., an actual average return has been received of 11 per cent, per annum.

Furthermore, stockholders have witnessed in the interim an appreciation in the market value of their security of 100 per cent., and today own a 10 per cent. dividend payer, compared with a 5 per cent. stock in 1902.

LIBERALS OF QUEBEC AND ULTRAMONTANISM

Montreal, Dec. 12.—The interference of a considerable portion of the Roman Catholic hierarchy of Quebec in politics, their persistent though covert antagonism to the Liberal party both in the Federal and Provincial arena and their palpable alliance with the Nationalist-Conservative leaders of the Province have cost the Canadian Roman Catholics the honor of having a Canadian Cardinal to say nothing of the concomitant evils which have followed the unwise and uncalculated political activities of the anti-Laurier and anti-Liberal section of the Church.

The alliance of Mr. Bourassa and his fellow Nationalists with the ultramontane has long been an open secret in Quebec. From this alliance Mr. Borden has profited and Sir Wilfrid Laurier has suffered. The temporary political results were seen in the last election. The effect on the Church itself are not so generally known. Some inside history on this point which comes to your correspondent from an authoritative and absolutely reliable source is illuminating.

When the list of new Cardinals was announced in Rome some days ago, considerable surprise was manifested in Quebec that no Canadian prelate had been honored. It was expected that the display of Roman Catholic strength in the country made at the eucharistic Congress at Montreal last summer, and the solidarity, authority and orthodoxy of the church in Canada would be recognized by the appointment of a Canadian Cardinal. His Grace Archbishop Bruchesi of Montreal was probably the most disappointed of all for according to well defined rumor he has for some years been anticipating appointment to the College of Cardinals.

The reason for passing over his claims as well as those of other Canadian possibilities, may now be told. Some months ago the activities of the anti-Laurier, anti-Liberal and pro-Bourassa Ultramontane in the Church became so pronounced and unfair as to compel action by the Liberal leaders in self-defence. Repeated protests and sincere advice given to the partisan section of the hierarchy pointing out the unwisdom both on national and religious grounds of the course being pursued had been without avail and finally recourse was had to Rome at the last resort. A petition signed by all the Catholic Federal Ministers and their followers in Parliament, by the Quebec premier and his ministry, and by many of the

leading Liberals of the Province all of whom were faithful adherents of the Church was sent to Rome protesting against this undue interference of the Ultramontane in Canadian politics giving warning that this course if pursued would lead to disastrous results and urging that the supreme ecclesiastical authority be exerted to restore normal conditions.

Cardinal Merry Del Val the Papal Secretary who was intimately acquainted through his former residence here with Canadian Church and State problems was made fully acquainted with the facts. His clear judgment was against a continuance of the policy embarked upon by the section of the Church which had closely allied itself with the unfair attacks upon Sir Wilfrid Laurier, Premier Gouin, and Liberalism generally. But the interference of the Tory-Nationalist plotters in the Church continued right up to Sept. 21 last, and one of Premier Borden's greatest embarrassments now is how to temporize with the demands of his Ultramontane allies and at the same time not antagonize his Protestant majority.

The whole situation is plainly seen in Rome and the non-inclusion of a Canadian prelate in the list of new Cardinals is undoubtedly the direct result of the attitude assumed by Archbishop Bruchesi and his political allies in Quebec.

Wood's Phosphorine.
The Great English Remedy.
Tones and invigorates the whole nervous system, makes men and women healthy, cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhoea, and Effects of Abuse or Excesses. The Wood Medicine Co., formerly Windsor, Toronto, Ont.

BODY OF HALIFAX MAN HAS DISAPPEARED

Kingston, Ont., Dec. 15.—The body of William Coleman, a Halifax man killed while working on the C. N.R. has disappeared. After the inquest, the body laid unclaimed as there were no relatives in this part of the country. It was alleged the remains were buried in Cataragui Cemetery, but it never reached there nor can it be traced to any other cemetery heretofore.

DOCTORS GAVE ME UP

But "Fruit-a-lives" Cured Me.

MOOREFIELD, ONT., March 25th, 1910.
"I suffered from severe indigestion and dyspepsia for nearly two years. I could not take food without fearful distress. I could not do any work and became so run down and weak that I could hardly walk. I was attended by two experienced doctors and they both pronounced my case incurable, that they could do nothing more for me as they thought my disease was HEART FAILURE AND INCURABLE. The doctors gave me up and I looked forward for death in a short time."

At this time my son asked me to try "FRUIT-A-LIVES", and from the outset of taking these wonderful tablets I was better, and gradually this medicine completely cured me. I took a large number of boxes, perhaps a dozen, and now I am entirely cured and I have gained over thirty pounds in weight."

HENRY SPEERS, J.P.
"Fruit-a-lives" is sold by all dealers at 50c. box—6 for \$2.50, or trial size, 25c.—or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

WILL BE TRIED FOR TRIPLE MURDER

Boonville, Ind. 15.—The people of this section of Indiana are looking forward with great interest to the opening on next Monday before Judge Roberts of the trial of William Lee, charged with the murder of his father Richard Lee, his mother Emily Lee and his brother Clarence Lee. It is stated upon reliable authority that the prosecution as well as the defense are fully prepared for the trial and no postponement or other delay of the proceedings is expected.

The crime with which William Lee is charged was unusually brutal and heinous. The murderer who has fully confessed his deed, is a young man of twenty-one years. His father was a fairly well to do farmer near Boonville. It is said there were frequent quarrels over money matters between William Lee and his father and that the young man was considered the "black sheep" of the family. The young man was engaged to the daughter of a farmer in Newburg near here and was to be married on August 24 last. One the evening before the day set for his marriage William Lee returned from Newburg where he had made preparations for the wedding, and came to see his father. It is believed that a quarrel arose over the amount of money which William Lee claimed as his share in the sale of a certain property owned by the family.

What actually happened in the house that night can only be conjectured. Whether William Lee committed the triple murder in a fit of rage or whether, as he claims, he merely acted in self defence may or may not be definitely proved during the coming trial. The prisoner admits that he killed his parents and younger brother by crushing their heads with a small hatchet. Then he saturated the bedding and carpets with kerosene and applied a burning match. After the fire had gained a good start William fully dressed with all the money he could find in his pocket, left the house and gave the fire alarm. The firemen reached the scene of the fire sooner than William had expected and after they had put out the flames the unmistakable evidence of murder found by them led to the arrest of Lee.

At first he denied the deed and as there was a strong feeling against him he was taken to Evansville for safe keeping. Later William Lee confessed his deed, claiming however, that his father and other members of his family had threatened to kill him and that he merely acted in self-defence. Lee's parents and brother were insured for more than \$600 and as William was the closest blood relative was entitled to the insurance money. Judge Roberts refused to appoint counsel for the defendant.

INTERCOLONIAL RAILWAY

SPECIAL FARES

FOR CHRISTMAS

AND NEW YEAR.

FIRST CLASS ONE WAY FARE BETWEEN ALL STATIONS ON THE RAILWAY.

Good Going Dec. 21, 1911, to Jan. 1, 1912.

In one year 526 men were killed by accidents of employment in Allegheny County, Pa., alone; 195 steel workers, 125 railroaders, 71 miners and 135 miscellaneous workers. Of those nearly half were American born, 70 per cent. were workmen of skill and training and 80 per cent. were under forty years of age.

The present rate of mortality of the brass foundrymen is 2½ times that of the farmer. Respiratory diseases, particularly consumption, account for the difference.

SMOKERS WHO KNOW will always select
