

## THREE COOKS AND THREE REASONS

These three cooks differ widely in ability and experience, but all are agreed that the prime essential in good cooking is the stove on which to cook, and all concede that every stove necessity is met in a

### GURNEY-OXFORD RANGE

For no matter how much or how little cooking is done; no matter what the experions given or required, there are certain prime requisites for every kitchen range. Whether the cook be a professional chef or the young bride with only "him" to please, the avore mus turnish these three essentials—steadiness and control of heat, even baking facilities, and a grate that gives plenty of air to the fire with a saving of fuel and convenience in handling. For these three problems—on which all cooks are agreed—the GURNEY-OXFORD RANGE has three answers, three good reasons why.

THE OXFORD ECONOMIZER is a small lever for the steady maintenance of heat, licensed for use only on Gurney-Oxfords. It effects a remarkable saving in fuel as well as labor. Nothing can go up the chimney but smoke and odor.

The Divided Flue Strip distributes the heat evenly, front as well as back of oven, thus securing against failure in baking. There is no better test of practical stove work than this oven control.

Are you always dusting? The Gurney-Oxford Reversible Grate saves dirt and labor; one-half turn and the ashes are out, while the interlocking teeth grind the hardest cliaker.

There are pleaty of other "reasons" for the advantage of the Gurney-Oxford, as a call on us will convince you. Come in and see our varied line, and we will demonstrate all these features to your entire satisfaction.
