

LIST OF CANDIDATES FOR THE FIVE DISTRICTS

DISTRICT NO. 1

Includes all of City of Fredericton lying above Carleton Street. One membership in tour and one second prize of \$25 to be given in this district

Miss May Ryan
Miss Mabel Miller
Miss Kate Holland
Miss Hazel Coburn
Miss Mollie Dever
Miss Alice Perley
Miss Helen MacKinnon
Miss Lulu Yerxa

DISTRICT NO. 2

Includes all of City of Fredericton lying below Carleton Street. One membership in tour and one second prize of \$25 to be given in this district

Miss Clara Ryan
Miss Lillian Corbett
Miss Beatrice Hazlett
Miss Helen Merseureau
Miss Gladys Dunphy
Miss Mary Doochan
Miss Violet Dennison

DISTRICT NO. 3

Includes parishes of St. Marys, Douglas, Marysville, Stanley, Bright, Queensbury and Southampton. One membership in tour and one second prize of \$25 to be given in this district

ST. MARYS.
Miss Mary George
MILLVILLE.
Miss Alice M. Hallett
PARKER RIDGE.
Miss Annie Boies
LOWER QUEENSBURY.
Miss Hazel V. Parent
MARYSVILLE.
Miss Kate McManus
Miss Cora Gilbert
PENNAC.
Miss Kate McSorley
ROYAL ROAD.
Miss MacDonald
NASHWAAKSIS.
Miss Susie Staples
Miss Grace Smith
SOUTHAMPTON.
Miss Mary Ingerham
Miss Bertha J. Fox
MIDDLE SOUTHAMPTON.
Miss Lila Grant
Miss N. W. Brown
Miss Callie Brown
Miss Gunter
GREEN BUSH.
Mrs. Wardell Phillips
LOWER SOUTHAMPTON.
Miss Ella Cronkwhite
UPPER SOUTHAMPTON.
Mrs. Allen Fox
STANLEY.
Mrs. Woodford Wright
Miss May Sansom
SOUTH WATERVILLE.
Miss Glenn C. Dunlop
GRAND VIEW.
Miss Lillian G. Grant
Miss Aggie Miller
Miss Edna Grant
Miss Edna Grant
NASHWAAK BRIDGE.
Miss Gertrude McGivney
McKEEN'S CORNER.
Mrs. Fred Coburn
DOUGLAS.
Miss Ada Clements
CROS CREEK.
Miss Ethel Bennett
WILLIAMSBURG
Miss Gertie Jaffrey
GREEN HILL
Miss Jennie Fox
WARD SETTLEMENT
Miss Hattie Good
DURHAM BRIDGE
Miss Maggie McLaggan
MURCHES
Miss Hazel Murch
TEMPERANCE VALE
Miss Ethel McElwain
Miss Janet Bartlett
Mrs. Adam Rutledge
EAST WATERVILLE
Mrs. Zella Fox
CENTRAL WATERVILLE
Mrs. Dora Murdock

DISTRICT NO. 4

Includes the parishes of New Maryland, Kingsclear, Prince William, Mansers Sutton, Canterbury, Dumfries, McAdam and North Lake. One membership in tour and one second prize of \$25 to be given in this district.

SPRINGHILL.
Miss Eliza Campbell
BUR EN.
Miss Ella M. Kelly
Miss Lathelia Kitchen
Miss Amy Kitchen
Miss Blanche Kitchen
LOWER FRENCH VILLAGE.
Miss Nellie Chif
FRANWELL.
Miss M. G. Killen
HARVEY STATION.
Mrs. W. E. Smith
Miss Emma Little
Miss Gertrude Donahue
Miss Lizzie Little
Miss Minnie Glendenning
HAWKSHAW.
Miss Nellie Palmer
Mrs. John Allen
Miss Bessie Whitehead
Mrs. Hansford Burden
Miss Olive Carson
Miss Mabel Sharp
THE BARONY.
Miss Fannie Pickard
SHOGOMAC.
Mrs. Willie McNelly
KINGSCLEAR.
Miss Lella Holyoke
Mrs. Hayward Kelly
Miss Carrie Turner
Miss Myrtle Keller
KINGARTH.
Mrs. C. C. Patterson
CENTRAL KINGSCLEAR.
Mrs. Saml. Gallagher
Miss Donahoe
Miss Fannie Fox
Miss A. King
Miss S. H. Gallagher
Miss Mary Gray
Mrs. Robt. Poore
Miss Etta Gallagher
NEW MARKET
Miss Etta Mills
HAMMONDVILLE.
Miss Annie Mills
PRINCE WILLIAM
Miss Hazel Hoyt
Miss Etta Fraser
Miss Edna Fraser
LOWER PRINCE WILLIAM.
Mrs. Herb. Lawrence
Mrs. Albert Smith
Mrs. Barry Courser
Miss Minnie Sawyer

A TALK ON RHEUMATISM

Telling How to Cure this Painful Malady

This article is for the man or woman who suffers from rheumatism who wants to be cured, not merely relieved—but actually cured. The most a rheumatic sufferer can hope for in rubbing something on the tender, aching joint, is a little relief. No lotion or liniment ever did or ever can make a cure. The rheumatic poison is rooted in the blood. Therefore rheumatism can only be cured when this poisonous acid is driven out of the blood. That's why rubbing and liniments and outward applications are no good—they can't reach the cause in the blood. Any doctor will tell you this is true. If you want something that will go right to the root of the trouble in the blood every time take Dr. Williams' Pink Pills. They make new rich blood which drives out the poisonous acid and cures rheumatism to stay cured. This is a solemn truth which has been proved in thousands of cases, and the following is a striking instance. Mrs. W. H. Elinor Sarnia, Ont., says: "I felt it my duty to recommend Dr. Williams' Pink Pills as they completely cured me of rheumatism after I had been almost an invalid for three years. I doctored with two skilled doctors and took electric treatment, but without benefit. On going to a third doctor he recommended mineral baths as the only thing that would help me. After taking this treatment for some time I felt that I was really growing worse instead of better, and I began to think there was no cure for me and that I was doomed to be a helpless sufferer. For some months I discontinued all treatment and then I was advised to try Dr. Williams' Pink Pills. After taking a few boxes I could notice a distinct improvement, and I continued taking the Pills for several months when the cure was complete. That is some two years ago, and I have ever since been in perfectly free from the trouble. I would therefore advise anyone afflicted with rheumatism to take Dr. Williams' Pink Pills, as they certainly made a remarkable cure in my case."

These pills are sold by all medicine dealers or may be had by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

ITALIAN LOSSES REPORTED HEAVY

Berlin, Oct. 19.—Edward Mygind, an experienced and reliable correspondent of the Zeitung Am Mittag calling his paper from Jerba, an island belonging to Tunis, and a point where he escaped the Italian censorship, says that the Italian losses in night skirmishes in Tripoli are considerable and that the Italian assertions that the Turks and Arabs are discouraged and intended to surrender, are pure humbug. Cholera, he states, has claimed many victims among the Italian troops and the residents of Tripoli.

He adds, that twenty thousand Italian troops have been landed on the Tripolitan coast, their organization is excellent though the soldiers complain that their clothes and equipment are too heavy, and that there is no thought of an advance in the interior before the present army has been re-inforced.

Electric Restorer for Men
Phosphor restores every nerve in the body to its proper tension; restores strength and vitality. Premature decay and all sexual weakness arrested at once. Phosphor will make you a new man. Price \$3 a box or two for \$5. Mailed to any address. The Seibell Drug Co., St. Catharines, Ont.

Sold in Fredericton by
A. J. RYAN.

DISTRICT NO. 5

Includes all of Sunbury County. One membership in tour and one second prize of \$25 to be given in this district.

FREDERICTON JUNCTION.

REBELS CLAIMING GREAT VICTORY

Shanghai, Oct. 20.—Still another message says that the revolutionists at Hankow claim a great victory over the Imperialists. They declare that they captured the Riverside and the Railway Station, after which all the Chinese warships retreated with the exception of one cruiser, which succeeded in other despatches from Kiu Kiang, which state that Chinese gunboats are retreating to Kiu Kiang. The conduct of the rebels at Hankow is reported to be exemplary. Martial law is being enforced. Today's advances of the rebels success at Hankow caused great jubilation among the Chinese here. Previously they had been downcast. The run on the banks here has been stopped, but the native banks are unable to pay their outstanding checks and business is at a standstill. Already \$5,000,000 has been lost in trade. Otherwise the situation here is quiet. The venerable North China Daily News, anticipating an ultimate Imperial victory, in an editorial today, recalling the awful fate which traditionally awaits rebels in China, the slaughter of innocent kinfolk with the object of blotting out tainted names, says that the powers are not intervening because of self-interest and the paper must lift up its voice in the cause of humanity. It adds that the ring leaders undoubtedly must die, but Yum-n Shi Kai, arriving with well-filled money bags and Imperial pardons ready for signature, is offering mercy to those who have been coerced into participating in the revolt.

SUCCESSION DUTIES BIG IN ONTARIO

Toronto, Ont., Oct. 20.—With the close of the fiscal year still two weeks away, succession duties paid to the provincial treasurer have already passed the hoped for million mark. The total amount received up to yesterday was \$1,027,081. Another revenue increase is expected to come from the Temiskaming and Northern Ontario Railway.

Last year the estimate was \$625,000, while receipts were but \$420,000. For this year the provincial treasurer put the estimate at \$500,000 which sum, it is expected, will be turned over to the province.

A bottle of prevention is better than a deranged stomach.

Abbey's Effer-vescent Salt

25c and 60c bottle. Sold everywhere.

TRYING TO SAVE HENWOOD

Denver, Oct. 19.—The Colorado supreme court today heard arguments on the application for a writ of superseas in the case of Frank H. Henwood, the convicted slayer of George Copeland. If the writ is denied, Henwood will be taken at once from the Denver jail to the Canon City penitentiary to begin serving his life sentence. The killing of Copeland occurred on May 24 last in the barroom of the Brown Palace Hotel. In a quarrel over the wife of a Denver banker Henwood shot and killed Tony Von Puhl, a well known aeronaut, and also killed Copeland, who was an innocent bystander.

Concrete Work in Freezing Weather

UNTIL a few years ago, although concrete had already been generally adopted throughout the country by contractors and farmers for almost all structural work, it was the practice to stop all work on this form of construction as soon as the cold weather set in.

It has been found, however, that concrete work may be carried on in cold weather successfully, and with but very little more trouble than under ordinary circumstances.

This fact is of great benefit to the farmer, as it is in the colder period of the year that he is able to find time for building and making the many articles around the farm to which concrete so readily adapts itself.

With a few simple precautions it has been found that concrete can be used, not only in freezing weather, but when the thermometer has been actually below zero.

If the concrete freezes before it starts to "set," it will not be injured, but if the freezing takes place after the "setting" action has started up, the concrete is likely to be damaged when it thaws, owing to the expansion of the melting water forcing the particles apart and making the concrete crumbly. On the other hand, if the concrete has a chance to become thoroughly "set" before freezing, no harm will be done. To give it this chance you must first of all prepare the materials as described below, and secondly, you must protect the concrete after it has been placed in the "forms."

PREPARATION OF MATERIALS.
Concrete will, on its own account, develop a certain amount of heat in

FIG. 1. SHOWING SIMPLE METHOD OF HEATING CONCRETE.

the "setting" process. But in cold weather, some outside assistance, in the form of artificial heat, is necessary. The best way to develop this artificial heat is to warm the materials before mixing. This shortens the time that it takes the concrete to "set" and lengthens the time necessary to bring it to the freezing point. Bear in mind that the less water used, the quicker concrete "sets." Therefore, it is advisable to use as little water as possible in the mixing during cold weather.

HEATING WATER.

A simple and easily-made vessel for heating water is shown in the accompanying drawing. (See Fig. 1.) A coil is made of one-inch pipe with the ends fastened in the barrel and made water-tight. A small fire built under the coil will heat the water rapidly and will keep it in circulation, thus keeping all the water heated.

For this purpose it is wise to use a length of malleable iron gas-pipe, because it is easily bent into the required coil. This is done by taking a log or fence-post about the size of the coil and bending the pipe around it. This method prevents the pipe

pipes, and will soon thaw out and become heated.

In very cold weather, the cement may be heated by laying the bags on top of the sand, but this is not absolutely necessary, as the cement itself must be kept dry until used, whether the weather be hot or cold.

TEMPERATURE REQUIRED.

Materials should not be heated to too high a temperature. A good way to judge the proper amount of heat is to make them just hot enough to be comfortable to touch. Care should be taken not to use any frozen lumps of sand.

PROTECTING CONCRETE IN POSITION.

After the concrete has been placed in "forms" it should be protected so as to keep the heat in as long as possible. This is more essential in thin structures than in massive walls and foundations; for the latter will hold their own heat longer on account of their thickness.

Wooden "forms" are non-conductors, and will retain the heat in the concrete up to a certain point, but the concrete should be protected on top by a covering of canvas or heavy paper, with a layer of ten or twelve inches of manure on top of this. Straw will also answer the purpose. If manure is used, care should be taken to prevent it from coming in contact with the concrete, as it will discolor it, and possibly even seep through sufficiently to weaken the structure.

PROTECTING THIN STRUCTURES.

In the case of thin walls where extra cold weather calls for addition-

FIG. 2. SHOWING TWO-BARREL METHOD OF HEATING WATER.

from "buckling" and makes the coils more regular in size.

Where concrete work is being done on a large scale, it is advisable to use the two-barrel heater shown in Fig. 2. This allows the water to be constantly replenished without reducing the heat of the water in the barrel from which the hot water is taken.

Most farmers, however, possess large boiling kettles, used during butchering time, or for making soft soap, etc. One of these will do equally well.

FIG. 3. SHOWING HOW MATERIALS MAY BE HEATED BY MEANS OF A FIRE IN AN OLD STOVE-PIPE.

HEATING SAND AND STONE.

Sand and stone may be very easily heated by making use of two pieces of stove pipe, one piece for the sand and the other for the stone. The pipes are laid on the ground in such a position as to allow the wind to make a good draft. The fire is then built in one end. The flames pass through, heating the whole pipe, and as fresh fuel is added, the cinders are pushed along the pipe and gradually work out at the other end. The sand and stone should be piled on top of the stove

al protection, heavy paper should be nailed to the vertical posts of the forms, (see Figure 4.) thus leaving an enclosed air space between each pair of posts. These air spaces will have about fifteen degrees higher temperature than the outside air. The "forms" should always be left on longer in cold weather, as it takes longer for the concrete to harden.

There is no reason why concrete cannot be used with complete success in cold weather if these simple precautions be followed.

FIG. 4. PAPER TACKED TO WOODEN SUPPORTS TO PROTECT CONCRETE FROM FROST.

SMOKERS WHO KNOW will always select

MASTER MASON

Cut Plug Tobacco

The reliable brand cut from our original "AMERICAN NAVY" Plug; made from the finest selected American leaf tobacco.

SOLD BY ALL DEALERS MANUFACTURED BY

ROCK CITY TOBACCO CO. QUEBEC

WISCONSIN HISTORIANS MEET

Madison, Wis., Oct. 19.—The Wisconsin State Historical Society held its annual meeting here today with a large attendance of members. The principal feature of a programme was a paper presented by Prof. Evans B. Green of the University of Illinois.

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effective Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, \$1; No. 2, 50c; No. 3, 25c. For special cases, \$5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: The Cook Medicine Co., Toronto, Ont. (Formerly W. F. Cook)

TORONTO PRINTING OFFICE LOOTED BY BURGLARS

Toronto, Oct. 20.—After a fire had been extinguished last midnight in the Taylor Osborne Printing Co. office King Street West, it was found the safe had been opened and looted of everything but an insurance policy. The fire which undoubtedly was incendiary did \$3,000 damage. A stranger who was in the building when the firemen arrived and helped to lay the house was not found after the fire.

THIRTEEN MINERS REPORTED DEAD

Rockway, N. J., Oct. 20.—A number of miners were caught by an influx of water in the iron mines at Siberia today and thirteen of them are reported dead. All are foreigners except the foreman of the gang. The men were driving in a new shaft when it is supposed they broke into a subterranean stream.

Mr. F. L. Allen of Boston is at the Queen.
