Mrs. S. S. Johnston, Ochre River, Man., writes:—"About four years ago I gave Dr. Fowler's Extract of Wild Strawberry a good test.

"My oldest son, five years old, got very bad with cholera infantum; two days after my next son took it, and the third day my little girl also took it. I doctored with all kinds of things, but they kept on getting worse and the doctors could do them no good. I then started the Dr. Fowler's Extract of Wild Strawberry, and after two or three days could see a difference, so kept on with the treatment, but they were so bad it took about two weeks to complete the cure. Different people have asked me how I saved my children's lives that time, and I always say it was Dr. Fowler's Extract of Wild Strawberry. I am now never without it in the house."

**THE PARAMOUNT ISSUE
BEFORE CANADIANS**

(Toronto Globe.)

Since the day, four and forty years ago, when the scattered British colonies and possessions in North America were consolidated into the Confederation of Canada, there has been no time when the future of the Dominion was more assured than it is at this moment. Canada has become a nation within the Empire. Holding in fee half the continent, connected by ties of the strongest affection to the world's greatest Empire, Canadians are content with their status among the nations of the world.

The great enterprise that lies before them occupies all their thoughts and engages all their energies. As one man they seek to establish on the northern half of this continent a state great in population and material wealth, and no less great in its devotion to peace, justice, internal order, equality of opportunity and simplicity of manners. Canadians look forward with confidence to the day when a hundred million people will find "homes" in this land, free from the fear of war, of living poverty, of gross and overbearing wealth, and of physical privilege.

The future of Canada is not at issue in this election. When crafty politicians declare that the United States desires to annex Canada we should admit it smilingly as a compliment. Our neighbors have been desirous of annexing Canada for a century and a quarter. It is almost a century since they tried it last by force of arms, and even then, feeble and few though the people of the Canadas were, they hurled the invader back over the border. Canada is mistress of her own fate. If she wishes to remain within the Empire none can hinder it. If she should at some future day desire to become an independent nation she would do so with the blessing of the motherland.

The men who seek to convince the people of Canada that an increase in the export of Canadian farm produce, and fish, and lumber, and paper to the United States will result in the annexation of Canada to the United States are unworthy the name of Canadian. Theirs must be a spineless and poor-spirited patriotism. Their statements may properly represent their own mental attitude to their country, but it does not represent the spirit of the buoyant young Canadian who is as devoted to his native land and as proud of it as any American could be of the United States.

The issue before Canadians is purely and solely a tariff issue. The pressure of increasing city population and of a prohibitive tariff have combined to so increase the cost of living in the United States that, with the approval of Congress, President Taft offers to wipe out the tariff on practically all foodstuffs and other natural products from Canada in return for the removal of the corresponding duties levied by Canada on similar articles from the United States.

Under these conditions Canada, which has still great tracts of fertile unused land, will sell more foodstuffs to the United States than that country will sell to Canada. The enlargement of the cultivated area will in turn increase the prosperity of the cities and towns that produce farm implements, and furniture, and stoves, and pianos, and all the comforts and luxuries that the farmer of today demands. While the question is therefore primarily one for the farmer, every manufacturer and wageworker is interested in it also. Prosperity in this country rests on the farm.

Here are some of the articles that will pass duty free into the United States from Canada if the electors vote approval of the arrangements made for the simultaneous removal of duties on natural products:—

Article	Present U.S. Rate	Article	Present U.S. Rate
Cattle, over \$14,	27½ p.c.	Cod, haddock, pound, ..	½
Horses, over \$150,	25 p. c.	Halibut, pound,	1
Hogs, each,	\$1.50	Mackerel, pound,	1
Sheep, each,	\$1.50	Salmon, fresh or salted	
Wheat, bushel,	25	pound,	1
Oats, bushel,	15	Salmon, canned, pound,	30 p.c.
Larley, bushel,	30	Timber, hewn, sawn,	
Hay, ton,	4.00	squared or sided, cubic	
Straw, ton,	1.00	foot,	½
Potatoes, bushel,	25	Planks and deals, sawn,	
Onions, bushel,	40	prt M,	\$1.25
Apples, bushel,	25	Posts and poles,	10 p.c.
Peaches, bushel,	25	Mica, unfinished, pound, 5 & 20 p.c.	
Butter, pound,	6	Feldspar, ground,	35 p.c.
Cheese, pound,	6	Flourspar, crude, ton,...	\$3.00
Fresh milk, gallon,	2	Talc,	35 p.c.
Fresh cream, gallon,	5	Wood pulp, pound,	½
Eggs, dozen,	5	Print paper, pound,	3-10

That list of articles really represents the issue before the people of Canada. There are a few other proposed changes such as a reduction of from 2½ to 5 per cent. on agricultural implements, farm waggons and supplies, but in effect the elector is asked this question:

Do you approve of the removal of all duties on natural products passing from Canada to the United States and from the United States to Canada?

If you do, vote for Laurier and larger markets.
