INTERESTING NOTES FROM THE LABOR WORLD

Forty-four States have adopted an age limit for the employment of children.

The average wage of school teachers in Kansas has more than doubled in the past ten years.

During the last two years the International Brotherhood of stationary firemen has gained 9,900 members.

Organized labor in Atlanta, Ga., has purchased a site and will soon begin the erection of a \$30,000 labor temple.

The highest oriental wages are paid in the Philippines, where the ordinary laborer gets from twenty to fifty cents a day.

Fewer women over sixteen years of age are employed in the southern cotton mills than in the mills of the New England States.

During the last year the Boot and Shoe Workers' International Union has paid in sick, disability and death benefits a total of \$89,297.23.

In the various metal industries of Belgium nearly half the men work from nine to ten hours a day, and the majority of the rest from ten to eleven.

Alabama, Florida, Georgia, Kentucky, Louisiana, South Carolina and Tennessee all have laws requiring all employers to provide seats for their female employees.

In the United States the average productivity of the workingman is \$2,400 a year, while in England the average productivity of the workman is only \$556 a year.

The American Brotherhood, an independent organization of blacksmiths in New York, has, by unanimous vote, decided to affiliate with the International Brotherhood of Blacksmiths and Helpers.

The average rate of wages paid to skilled women sewing machine operators in the United States varies from \$1.50 to \$2 a day. The same class of labor in France, Germany and Switzerland receives from 30 to 50 cents a day.

At a recent meeting of the United Hebrew Trades, in Manhattan, N. Y., it was decided to aid the tailors in the organizing campaign they are now carrying on to get all the trade in the country into the union, as a preliminary preparation for a general strike in 1912.

The action of the Cigarmakers' International Union in adopting a label to distinguish its products from those of ill-paid convict, Asiatic or child labor, was gradually followed by other organizations, until now there are seventy-nine union labels in use in the United States.

NEW STUDENTS AT U. N. B. INCREASE IN NUMBER

The following new students have registered since Monday at the U. N. B.:

G. B. MacDonnell Fraser, Chatham, Civil Engineering.

Louis J. Lockary, St. Stephen, Civil Engineering.

Clarence E. Maimann, Salmonhurst, Vic. Co., Forestry.

A. L. McNairn, Bouctouche, Civil Engineering.

Earl D. Oulton, Moncton, Arts.

Charles Victor Lynch, St. John, Forestry.

Donald A. Macdonald, St. John, Forestry.

The total enrollment of new students is thirty-two. In addition to this number Chas. S. Maclean, who graduated last year in the Arts Course is returning for a two year's course in Electrical Engineering. S. E. Renault, Campbellton, joins the second year engineering class after a year's absence.

ST. LOUIS READY TO WELCOME TAFT

St. Louis, Mo., Sept. 22—St. Louis is making great preparations for the reception of President Taft tomorrow. Public buildings, hotels and many business houses are today receiving the finishing touches of profuse decoration. The decorations along the route to be traversed by the distinguished visitor in his tour of the city will be especially elaborate.

There has been no change in the programme for the President's reception and entertainment. The programme, in brief, calls for a reception at the Union Station on his arrival, breakfast at the Mercantile Club, a trip over the boulevards and into St. Louis County, luncheon at the City Club, a visit to the ball game at National League Park, dinner at the Jefferson Hotel and an address at the Coliseum at night.

The Boy Scouts will not take part in the parade. The labor unions, which are antagonistic to the Boy Scout movement, objected, and the reception committee thought it best not to have any friction when a city entertains the President.

EXHIBITION.

FOLKS PAST FIFTY MUST USE CASCARETS

What glasses are to weak eyes, Cascarets are to weak bowels—a 10-box will truly amaze you

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm.

The only such tonic is Cascarets and they cost only 10 cents per box at any drug store. They work while you sleep.
