ANNEXATION TALK FOR USE IN CANADA

"This annexation stuff your Canadian papers are reproducing from the anti-Reciprocity organs on our side are nothing but a clumsy 'plant' " said one of the American editors who have been touring through western Canada.

The party was composed of 170 American newspaper writers. They went through the West as far as the Rockies and up to Edmonton. There were among them stand-pat Republicans, insurgent Republicans, Democrats of various types, and Independents. For many of them this was their first close touch with Canadian politics.

"It opened the eyes and illumined the minds of some of our party," said Hon. J. Z. Lenz of Columbus, Ohio, "when we found the Big Interests in Canada putting up the very same arguments against Reciprocity that our own Big Interests had put up in the United States. Our Republican editors lost a good deal of their enthusiasm for our home food monopolies in Canada opposing free food. They all talk on both sides about losing their markets if the tariff is taken off. Most of our party began to see how the consumer would benefit if some of these monopolists went to the common people."

One of the editors said that few of the party knew much about the situation in Canada and were not interested until they found Canadian newspapers from American journals advocating annexation. They put their heads together and sized up the case.

"Why every one of those American papers from which this annexation stuff is taken is owned or controlled

by the Big Interests that fought the Reciprocity agreement in Congress. On our side they used the economic argument and failed. They yelled about Canadian competition in natural products killing their markets. The lumbermen yelled the pulp and paper men yelled. The farmers yelled loudest of all. They said they couldn't live if your Canadian wheat and barley and lumber and pulp came in free. But I guess they'll worry along.

"But now these fellows have changed their tune. Beaten at home they are fighting Reciprocity in Canada. A dozen newspapers extending from Detroit to San Francisco, are putting up this annexation talk and sending marked copies to the Conservative newspapers in Canada. Some of the stuff may be written in Canada. It was Bismarck's game when he had insulting anti-German articles published in French journals in order to have them reprinted in Germany to rouse the Germans to war with the French.

"This American annexation talk is just low politics," said Mr. Lenz, "and Canadians will have sense enough not to be caught with it. There is not one responsible public man known to any of the 170 journalists in our party who either favor or desires the annexation of Canada. We have more territory now than we have succeeded in governing perfectly. I had no interest in your Reciprocity campaign but finding how the Big Interests in both countries are fighting it, I hope Canada will carry it with a decisive majority. But this annexation talk is a 'plant' anyhow."

S. H. JONES WRITES ON RECIPROCITY

(Summerside Pioneer)
Mr. S. H. Jones, the well and widely known sheep and lamb buyer, who is also an extensive farmer in the province of Quebec, and who ships large numbers of sheep and lambs to the United States, writes to Mr. J. J. McLeod, of Bonshaw, under date of August 23rd, as follows:-

"You should send every member on Prince Edward Island who is in favor of Reciprocity and willing to support Sir Wilfrid Laurier, to the Ottawa House of Commons. We have been trying for forty years to get what is offered us now, which we can take on trial, and if it does not suit it can be changed back as it is. All farmers on Prince Edward Island should vote for Reciprocity. The people I do business for in the lamb trade, have paid out for duties on lambs exported to the United States, from a hundred to a hundred and twenty-five thousand dollars a year--just for duties on lambs bought in Ontario, Quebec, New Brunswick, Nova Scotia and Prince Edward Island. That, I am certain of, as I have reports of the same. All that should have been given to the farmers in the States are not anxious for reciprocity for they know it will hurt them in their produce selling.

WHY FARMER AND CONSUMER BOTH BENEFIT

A question and its answer.
The Question--How can it be that the farmer will receive more for his products under reciprocity, while the consumer will, at the same time pay less for them?

The Answer--In the first place the duties at present collected on products imported, amounting to a very large annual sum, will not be collected and will remain in the consumer's pocket. In the second place, the commission agents and middlemen, the meat packers, the canners, and all the rest of them, will no longer be able by reason of the American tariff to control and keep down the price at which the farmer must sell to them. At the same time they will no longer be able by reason of the Canadian tariff to control and keep up the price at which the consumer must buy from them. Thus the food monopolists, who have been able to play both ends for the benefit of themselves, will have their exorbitant profits cut down, to the advantage of both classes of their victims.

MILK WAGON DRIVERS GO OUT ON STRIKE

Boston, Mass., Sept. 11--Hundreds of empty milk bottles remain on back door steps and many families went without milk for breakfast, this city experienced the first strike of milk wagon drivers in its history, nearly two hundred employees of three of the largest milk distributors of Boston, stopping work. The strikers want more wages and working rules.

A BRAZEN CAMPAIGN FAKE IS EXPOSED

Brockville, Sept. 8--The Montreal Star of last night contained a lurid article headed: "Leading Liberal of Brockville will fight reciprocity, Mr. Thos. J. Storey gives seven reasons why he cannot support Taft-Fielding pact; Mr. Storey in the present contest is using his utmost efforts to bring about the defeat of the Minister of Railways.

Discussing this article today the Brockville Recorder points out the glaring inaccuracies of the heading, which The Star conveniently or inconveniently put on the interview. Proceeding the Recorder says in part "After all is said and done, the rest of the article is less sensational it could afford to be. It pretends to be an interview with Mr. Storey under a Brockville date of September 7. Every one who reads it knows that as an interview it is a fake. It is a deliberate attempt to falsify and misrepresent the state of public sentiment in Brockville with reference to the reciprocity agreement and it is a poor attempt at that. It is a campaign dodge, and if Mr. Storey has had anything to do with its appearance in The Star under false pretences he ought to go and hide his head in shame.

"For the sake of the Montreal Star and the individuals who do not know much about Mr. Storey, he is president of the Tory Association in Brockville and as such is chief engineer of the Tory machine here. He never was known to be a Liberal in this town never known to have cast a Liberal vote. He has taken part in elections sometimes very actively and always on the Conservative side."

Her cousin Miss Frances McCaffrey of Boston was bridesmaid and the groom was supported by his brother Mr. Clifford W. McLatchy of Sydney, N. S. Mr. and Mrs. McLatchy left this morning for Vancouver where they will reside.

RECIPROCITY MEETINGS

(Continued from page one.)
OTHER MEETINGS

There were other enthusiastic meetings held in the county Saturday night. At Benton Mr. N. W. Brown addressed a meeting which taxed the capacity of the hall to the utmost. Mr. Brown's address was well received and there is no doubt that Dr. Atherton will poll well in that district. At Lower Prince William another rousing meeting was held. The speakers were Messrs. Michael Kelly and J. D. Phinney. The speakers received an attentive hearing and the meeting broke up with cheers for Dr. Atherton.
