

SAVED HERSELF YEARS OF PAIN

If she had used Dodd's Kidney Pills First

Mrs. McRae suffered for over two years, then two boxes of Dodd's Kidney Pills made a new woman of her

Previl, Gaspe Co., Que., Oct. (Special)—That she might have escaped two years and seven months of suffering had she tried Dodd's Kidney Pills in the first place is the firm conviction of Mrs. John McRae, an old and respected resident of this place. And this is the reason she gives for believing so:

"For two years and seven months I was a sufferer from Kidney Disease brought on by a strain and a cold. My eyes were puffed and swollen, my muscles cramped and I suffered from neuralgia and Rheumatism. My back ached and I had pains in my joints.

"For two years I was under the doctor's care, but he never seemed to do me any lasting good. Two boxes of Dodd's Kidney Pills made a new woman of me."

To save yourself suffering cure your kidneys at the first sign of trouble. Dodd's Kidney Pills are the one sure cure.

Among those who attended the Fredericton Exhibition were Misses B. Kirk, Mildred and Willie Davidson, Joseph Rosborough, W. B. Ebbett and sister, Mrs. J. H. Gerow of Meductic. All report a good time and very fine exhibition. Miss Kirk succeeded in capturing a prize on butter.

The home of Mr. and Mrs. John Anderson was the scene of an interesting event on Wednesday, Sept. 27th, when Miss Margaret L. Charney became the wife of Reverdy F. Price of Hartfield. The bride looked charming in a white muslin dress with valenciennes trimmings.

As the bridal march was being played by Miss Nora Gunter, the bride entered the parlor on the arm of Mr. John Anderson, Sr., who gave her to the groom, who was waiting with the officiating clergyman, Rev. Wm. Girdwood. Nearly one hundred guests witnessed the impressive ceremony. The halls and dining room were very prettily decorated for the occasion, and the numerous and costly gifts, testified to the popularity of the bride. Presents were sent from St. John, Andover, Fredericton, Scotch Lake, etc., and included furniture, silver, china, linen and glass.

An elaborate supper was served immediately after the ceremony and then the younger of the guests enjoyed some outdoor games, in which Mr. Anderson, although ninety-one years of age, entered with as much enthusiasm as many of the boys.

At 6 o'clock the bridal party left amid showers of rice for their future home in Hartfield carrying with them the warmest wishes of their friends. Mrs. Price will be much missed in both home and church, as she took an active interest in the Sabbath School, being secretary and treasurer ever since it has been organized two years ago.

CANTERBURY STATION

Canterbury Station, Oct. 11.—We will again make known to our friends in other localities the happenings of our prosperous little village and community adjourning.

Many of our farmers have been busily engaged hauling potatoes to our village, where cars are loaded for the export market. We had hoped for more than the old time stir after our recent election but fate has decreed differently.

Mr. Flewelling preached a very impressive sermon last evening. It being a Harvest Sermon. The church was beautifully decorated in a suitable manner.

Mr. Dongville also held service in the Methodist church at Skiff Lake in the afternoon at the village in the evening with more than usual attendance.

WORDS OF ADVICE FOR PREMIER BORDEN

(Montreal Star.)

Mr. Borden is happily possessed of a philosophic temperament. Otherwise there might be danger that he would turn cynic in these piping times of power. It is not so very long since he had few enough friends in the world. As the leader of what was regarded as "a forlorn hope," he found himself fighting alone, with precious little encouragement and few faithful allies. As for the place-hunters and contract-seekers, "the rich men, the beggar men and the thieves," they gave him a wide berth. They were to be found nearer to the honey-pot.

But today armies of "friends" are pouring in on him from every point in the compass. Life-long admirers, of whom he never heard before, are claiming his attention. Total strangers are improvising a well-established appreciation of all his best qualities which they have held without wavering ever since they learned to distinguish the fact that there were two Bordens in public life. Newspapers, which almost ignored him "in the empty-handed past," now crowd up to the trough.

He must be amazed at the far-flung scope of his popularity. The men who guessed right and even the men who guessed wrong on the 21st ult., vie with each other in telling him how "we won the battle." He may not have noticed their presence on the battlefield; but that was possibly because so many of them were fighting in the ranks of the enemy. However, he is assured of their support now; and he can depend upon it so long as the feeding-trough remains full.

Our politics are always cursed with the mercenaries who will follow any army and feed from any hand with neither conscience nor political principle. They can change their allegiance with a swiftness which must fill "the lightning change artists" of vaudeville with envy; and they cannot who governs the nation, so long as they can fatten on its public contracts or reelin; in its snuggest bellies. The "axe brigade"—the mob with axes which perpetually need grinding—are indifferent as to who turns the grindstone; but they are rightly concerned in convincing the man at the crank that they alone can keep him his job.

Much will depend upon the new premier's ability to distinguish public spirit from "private snap." He must keep his stomach from being turned by sycophants—and also his head. He could not do better than put himself in imagination once more in opposition—without power and almost without hope—and ask himself how many of these new-found friends would then be filling his ante-room. It takes a big man not to grow cynical as he watches others prostrate themselves before power.

When I Tried "Fruit-a-tives"

HARDWICKE, N.B., Jan. 17th, 1910.

"I feel it my duty to give you a statement in respect to the wonderful cure I received by taking 'Fruit-a-tives'. Chronic Constipation was the complaint I suffered from for years. My general health was miserable as a result of this disease, and I became depressed and alarmed. I was treated by physicians without the slightest permanent benefit, and I tried all kinds of pills and tablets.

"I saw the strong testimonial in favor of 'Fruit-a-tives' by New Brunswick's 'Grand Old Man' Senator Costigan, and I knew that anything he stated was honest and true and given only to help his fellow-men. I tried 'Fruit-a-tives' and the effects were most marvellous, and now I am entirely well from all my Chronic Constipation that I suffered with for years." A. G. WILLISTON.

ITINERARY OF THE TOUR

So many inquiries have been made as to the itinerary of the tour to be given the winners in the voting contest, that a rough sketch has been drawn up. Its general outline will be followed, with few if any important changes.

Its members will be taken to Boston from Fredericton by rail, where one day will be spent in sight-seeing. From Boston to New York over the Fall River line. On arrival at this, the greatest city of the U. S., our party will board a large ocean steamer bound for the famous and beautiful Bermuda Islands, some 700 miles away.

A competent conductor from one of the big tourist firms of New York will meet the party in Boston and accompany them on all their travels to look after their comfort and pleasure.

Two delightful days will be spent on the ocean. At length the Islands rise into view, emerald green and sparkling white in a placid sea of richest turquoise. The colored pilot comes aboard and guides the ship through the coral barrier that protects the land. Inside the reef the ship speeds along; the coast for many miles, while the passengers enjoy a panorama of low, rolling, verdure-crowned hills, white houses nestling among the richest foliage, palms and cedars and tropical flowers, changing with every mile. At last the capital of Bermuda, (Hamilton), is reached, a charming picture as the steamer reaches the wharf. On the pier are gathered many people, for the arrival of the New York steamer is an event in Bermuda. The formalities of the customs house are quickly and courteously transacted and serve chiefly to remind the visitor that he is in another land, but still within the realms of His Majesty King George V. Carriages will be provided to take the Mail's party to the big Hamilton hotel, where headquarters will have been reserved for them in advance.

Six days will be spent in Bermuda.

The many places of interest on these beautiful islands can be thoroughly explored. The scenery is diversified and the vegetation luxuriant; palms and many brilliant flowering trees and shrubs, the brilliant plumage of the birds, and the picturesque coast line, with its coral reefs, forming a constant succession of lovely pictures. Bermuda is an important naval military depot of Great Britain, and the presence of the garrison contributes greatly to the social attractions of the place, while the red-coats and bluejackets add variety to the street scenes.

Carriages will be provided on one day for the drive to St. Georges, a picturesque old town, once the capital of the Islands. Visit en route to the Devil's Hole and view the remarkable collection of many species of beautiful tropical fishes. A steamship trip to the reefs is made to view the "Sea Gardens"—coral grottoes. A trip in glass-bottomed boats is provided that our party may view the beautiful aquatic plants, anemones, seafans, fish, etc., in their native element at the bottom of the sea. The royal dockyard is visited on the excursion, also the celebrated Bermuda aquarium, one of the world's finest collections.

Other entertainments and excursions are being arranged for the party, so that their stay in the Islands will be one round of pleasure and profit, from an educational standpoint. The visit to Tom Moore's house, in which he lived in 1804, will be of special interest to lovers of the great Irish bard. Mr. Moore wrote of Bermuda:

Could you but view the scenery fair,
That now beneath my window lies,
You'd think that nature lavished here
Her purest wave, her softest skies.

ON TO NEW YORK.

Leaving Bermuda our party will be taken to New York on the Quebec Steamship Co.'s fine new steamer, "Bermudian," a trip requiring two days and nights. In New York two days will be profitably spent, the mornings in riding about the city in the great touring cars, the afternoons in visiting the shopping districts, the art galleries and museums of natural history. On both evenings one of the famous Broadway theatres will be visited, members of the party being allowed to choose the play they would most like to see. Among the most notable places to be visited while in New York are: Wall Street, Trinity Church, the Battery, the Aquarium, Flatiron Building, Singer Building, Madison Square and the famous Metropolitan Life Building, Central Park, Grant's Tomb, etc.

Leaving for Washington on the night train, our party will have three delightful days in that city. The itinerary includes visits to Congressional Library, the Mint, Senate Chamber, all Government Buildings, Mount Vernon, and a drive along this famous Potomac.

Returning by way of New York again, our party will visit Boston and then return home by rail, tired out but happy and full of bursting with delightful reminiscences of a splendid tour with which to regale their friends.
