

USUALLY ONE DOSE CURES INDIGESTION OR A BAD STOMACH

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch Gas and Eructate sour, undigested food, or have a feeling of Dizziness, Heartburn, Fullness, Nausea, Bad taste in mouth and stomach head-ache—this is indigestion.

A full case of Pape's Diapiesin costs only 50 cents and will thoroughly cure your out-of-order stomach, and sufficient about the house in case some one else in the family may suffer from stomach trouble or indigestion.

Ask your pharmacist to show you the formula plainly printed on these 50-cent cases, then you will understand why Despeptic trouble of all kinds must go, and why Diapiesin always relieves sour out-of-order stomachs or indigestion in five minutes. Diapiesin is harmless and tastes like candy, though each dose contains power sufficient to digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for Biliousness or Constipation.

This city will have many Diapiesin cranks, as some people will call them but you will be cranky about this splendid stomach preparation, too if you ever try a little for Indigestion or Gastritis or any other Stomach misery.

Get some Pape's Diapiesin now, this minute, and forever rid yourself of Stomach Trouble and Indigestion.

SPRINGFIELD

Springfield, Aug 31—Our school has opened after the summer holidays with Mrs. G. Whitehead in charge. Mrs. Whitehead has filled the office as teacher among us at different periods with entire satisfaction to all. She is receiving hearty welcome from both parents and pupils.

Mr. Chester McGowan, son and mother of Lynn, Mass., are the guest of Mr. John Timmins.

Mrs. A. Alexander of Fredericton Junction is also visiting her brother Mr. John Timmins.

Mr. Sam Ball of the C. P. R. employ of St. John, and wife are the guests of Mr. E. Howland.

Master Harold Sinnott of Lowell is spending his vacation at his uncle's Mr. E. Howard.

Dr. J. V. Pepin and Master Egri Graham of Lowell who have been the guests of Mr. J. W. Graham for the past two months, left for home today.

Dr. J. V. Pepin and Mr. and Mrs. J. W. Graham spent a few days last week with Mrs. Graham's mother, Mrs. H. Crouse of Aroostook, Maine. Mr. and Mrs. Thos. White are receiving congratulations. The occasion a son.

Mr. and Mrs. Clouse Reed also look very happy from a similar cause.

Harvesting and threshing are the order of the day and Mr. Wm. Howland is kept busy crushing the grain for his neighbors.

MR. F. D. CLEMENTS PRAISES RECIPROCITY AGREEMENT

Farmers of the St. John Valley Will Reap Untold Benefits—They have the Benefit of Cheap Water Transportation to the New England Markets—Can Grow the Finest Vegetables in the World—Mr. Flemming's Denial

(St. John Telegraph)

Frank DeL. Clements, wholesale produce merchant in the West End, in discussing the great benefits of reciprocity, on St. John and the Province of New Brunswick, said yesterday:

"With our Canadian west offering such great inducements, would it not be wise for thinking farm owners and voters in these York, Sunbury, Queens, Kings and St. John counties to consider the effect of reciprocity with the United States upon them in their unique position?"

"Liberals and Conservatives alike, who know the situation, realize the following facts: Potatoes especially, but all vegetable produce grown in these counties, have a special and superior flavor to all others in the world. This statement can be verified by all the local grocers and hotel proprietors in the city of St. John, who, if you ask them, will willingly tell you that they will give 25 cents more per barrel for potatoes grown in these counties than they will for any potatoes imported into the city from any other sections of counties.

"This, as we all know, applies equally to our winter fruits. Now, another and most important point which seems to have been entirely overlooked, is the fact that the River St. John affords an outlet for farm produce for all this section of the country, which comes up to the amazing figures of 2,000 square miles of land within five miles of a four-foot waterway to the city of St. John. Now what does all this mean? Do the voters of these counties realize what will happen if we get a market for what we can produce in these counties, not to mention other sections of the province?"

"Last Friday there left St. John for the Margerville wharf 2,000 empty barrels in one scow; these are now unloaded at that wharf and the scow is being refilled with the full barrels of potatoes, which are under contract to be delivered at the Monson boat at St. John by the 18th, ready for a sailing on the 20th.

"Now, the cost of freight from this Margerville point, or other points on these waters, amounts to from five to six cents a barrel, but I can hear you say, you are proving that we now have the market. This is the most erroneous idea that could be scattered through our farming community. Fifty farmers producing the crop that the writer of this article is directly interested in would supply the Cuban trade at its best.

"Let us try to picture the result of an unlimited market for the produce on the river. Freight to the market is the most important point to consider, before you invest in lands for the production of farm produce, as it is the most important point when considering the location for a manufacturing plant. With this five cent rate the farmers' wagons to the St. John harbor, and working on the present Eastern Steamship Company's rate, which all who know realize that it is very much higher than it would be if there was any competition, we could deliver our potatoes into the Boston market for 17 to 20

cents a barrel, covering all charges, delivered in Boston harbor. Compare this with the present rate from Aroostook County to their own market in Boston, and we have about 38 cents a barrel, which shows the advantage to all potato growers to invest in land in these three counties, of 18 cents at least on every barrel of potatoes we can produce, or in New York a difference in favor of these counties of 25 cents.

"This would apply to all other vegetables which the farmer finds his land most adapted for. It surely is unnecessary for me to draw attention to the result of the effect of a local development of this kind to the city of St. John.

"For fear some doubting Peter might think this a 'day dream,' I am open to make the statement that the people of Clements & Company have received letters daily from potato, hay and grain merchants from Mississippi, Florida, Savannah, Jacksonville, Philadelphia and all seaports to our Maine border, asking them to get in immediate connection with them should the reciprocity bill go through.

"Just consider that the St. John river, with its tributaries, draining as above stated, 2,000 square miles, the greater part of which, especially in the counties of Sunbury and Queens, are especially adapted for the growing of potatoes, and with this in your mind you surely cannot vote again this reciprocity bill, which puts this great market at your doors."

POOR MR. FLEMMING

Mr. Clements said: "In reference to Hon. J. K. Flemming's denial on Monday evening I can only repeat the statement I made at Stanley on Saturday evening, that Mr. Flemming made the statement at the Victoria shortly after the reciprocity bill came before the house at Ottawa, that reciprocity with the United States would benefit the farmers in New Brunswick. But making every allowance for Mr. Flemming, because he believed at the time that he was talking to a Conservative, who, although convinced, like himself, of the benefit resulting from the reciprocity agreement to the farmers, would not be ready to turn over at a moment's notice and follow the dictates of the party whip, no matter whether the result be reasonable from a business standpoint or not.

ENJOYED THE LARGE MARKETS

Two good instances of what a good steady market will do is shown in the case of Mr. John McElwain of Temperance Vale and Thomas Prescott of Queensbury, York County. About ten years ago these men with their families went to Caribou, Maine, being induced to do so by reports of the big market awaiting them on that side of the line. McElwain and Prescott after selling out had about \$2000 each in cash. They bought farms and went into potatoes, hay and grain-growing. Their present financial standing:

McElwain owns a property valued at \$30,000 and refused \$25,000 for it last year. He has an \$800 Steinway piano, an automobile which cost \$1,700. The finest buildings in Aroostook County are his. Mr. Prescott, who went there two years later than Mr. McElwain bought a farm closer to Caribou two years ago paying \$14,500 for it. He has a piano which cost \$400, five horses worth over \$300 each, binder and an up-to-date outfit of machinery. It is said that Aroostook farms are covered with mortgages. The Mail is authorized by a correspondent to pay \$50 if the Records show a pen against either of these places.

McElwain this year has 63 acres of potatoes. Mr. Prescott 40 acres.

Neither are selling at the present price \$2.00 per bbl. as they expect to get \$2.50 for them. The New York and Michigan crop being short. These are only two of the instances of York and Carleton farmers who with the big American market behind them did equally as good—Vote for Reciprocity and get the same chance. Don't let your little bit of politics make you satisfied to have your wife make butter and sell it at less than 20c.—which was more than you could get all summer—eggs around 15 and 16 all summer as market was over crowded. Ask your summer visitors from across the line what they pay—write them.
