Fredericton, N.B., Sept. 20, 1911.

DOMINION ELECTION

Polling - - - Sept. 21st
Reciprocity Candidate for York

ALFRED B. ATHERTON, M. D.

THE OUTLOOK BRIGHT

The Mail is not much given to boasting, but we may be excused if we express the candid opinion on the eve of one of the greatest political contests since confederation, that all signs point to the triumphant return to power of Sir Wilfrid Laurier and his government, who have done so much to place Canada in the proud position she occupies today among the younger nations of the world.

The Tories have a big campaign fund and there has been a great deal of bluff and bluster on their part, but it will be dissipated when the electors go to the polls tomorrow and cast their ballots.

The government stands to achieve even a greater triumph than it did three years ago, and New Brunswick will be well up to the head of the Liberal procession.

Men in close touch with the situation declare that Laurier and Reciprocity will make almost a clean sweep of the Maritime Provinces. The Nationalist campaign may cause the loss of a few seats in Quebec, but whatever is lost in that province will be more than offset by gains in Ontario, Manitoba and British Columbia are expected to break even, while in the two prairie provinces the Tories will do well if they pull out with a total of two seats.

The Liberals never went into a campaign with such a worthy cause. Reciprocity is a measure designed for the good of Canada and all classes of people will rally to its support tomorrow.

No constituency in New Brunswick has more to gain from the ratification of the Reciprocity agreement than the County of York. Agriculture and lumbering are the great industries which in this county give employment to labor. It is admitted that Reciprocity will greatly benefit those industries and that being so it is the duty of all classes to support it. The farmers who are satisfied with the home market should vote for a policy that will help the lumbermen, and those who want a larger market can well afford to vote for Reciprocity.

This is a crucial time in the history of York County. Let the farmer, the lumberman, the merchant, the trader and the artisan march to the polls tomorrow with a common purpose. Let them rise above party politics and vote to put the old County of York on the road to prosperity.

Mr. Henri Bourassa recently invaded Ontario and addressed a meeting of French electors at Sudbury. His visit has aroused a storm of indignation and will likely mean the loss of half a dozen seats to the Tories.

The Tories of Sunbury and Queens have issued notices offering a reward of \$100 for information that will lead to the conviction of any person using illegal methods in this campaign. The notice is signed "Chairman of Vigilance Committee" but no name is mentioned. This looks like another one of Mr. Slipp's little jokes.

The merchants of Fredericton, the men who have their all invested in this city, should remember that without reciprocity the sum of \$100,000 now paid out annually to the men who drive and raft logs on the St. John River, will be cut off. Can you afford to get along without it? If not vote for reciprocity.

Why should working men and mechanics find it necessary to go outside of the province to secure employment while we have natural resources of our children, O. S. Crockett will sources undeveloped. Vote for reciprocity.

The workmen of Fredericton do not indulge to any great extent in the luxury of early fruit and vegetables. Why? Because the price is too high. If you want to see the price go down 30 per cent vote for reciprocity.

Those who make a canvass of the situation declare that Dr. Atherton will take the biggest vote out of Fredericton ever given to a candidate for parliamentary honors. Why should it not be so?

The removal of the duty on vegetables, fruit, eggs and a substantial reduction in many other articles of household consumption is certainly not going to increase the cost of living.

For years New Brunswick has been exporting her sons and daughters to the United States. Under reciprocity we are going to start in exporting our natural products. We will then need our sons and daughters at home.

Go to the polls tomorrow and vote for Reciprocity. If your political affiliations are with the Conservatives keep your own counsel and nobody will be any the wiser as to how you mark your ballot.

In previous campaigns Tory bar-stormers in York denounced Sifton and Bourassa from every platform. Why have they been so silent on the subject this time? It is because of the unholy alliance.

When reciprocity wins out at the polls tomorrow watch our grocers and provision dealers get busy establishing connections with the United States houses.

It was the protest of the working men of the United States against the high cost of living that made it possible for Canada to secure the measure of reciprocity.

Electors, remember that the ballot is absolutely secret. No returning officer or agent has a right to look at your ballot after you have marked it.

ELECTORS, DO NOT SPOIL YOUR BALLOTS. MAKE THE CROSS ON THE WHITE SPACE OPPOSITE THE NAME OF DR. ATHERTON.

ELECTORS, REMEMBER THAT ONCE YOU GET THE BALLOT IN YOUR HANDS YOU CAN VOTE REGARDLESS OF ANY INTERFERENCE ON THE PART OF AGENTS.

If every elector of York County goes to the polls tomorrow and votes for his own interest and the interest of his children, O. S. Crockett will forfeit his disposal.

Are the electors of York going to allow political four flushers to go about boasting that they hold the County of York in the hollow of their hand?

Electors of York, don't allow yourselves to be intimidated tomorrow by Tory jingoes, but go to the polls and vote for Atherton and Reciprocity.

THE YOUNG MEN WHO WORK IN THE LUMBER WOODS ARE GOING TO VOTE TOMORROW FOR HIGHER WAGES AND BETTER TIMES.

The restaurant keepers of Fredericton, who import such a large quantity of oysters from the United States will be able to get them free of duty under reciprocity.

THE YOUNG MEN OF FREDERICTON ARE GOING TO VOTE TOMORROW FOR RECIPROCITY AND BETTER TIMES.

No man who has a stake in Fredericton can afford to go to the polls tomorrow and vote against reciprocity.

Atherton and the Larger Market.

Cook's Cotton Root Compound.
The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, 2, 3. No. 1, 10 degrees stronger; No. 2, 20 degrees stronger; No. 3, 30 degrees stronger. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (Formerly W. L. Cook)

The farmers of York who grow potatoes can land them in the New England market much cheaper than the farmers of Aroostook. Then why not vote for reciprocity and the larger market?

Can the farmers of York see a four dollar bill on top of a hay stack? Surest thing you know. That is why they are going to vote for reciprocity and the larger market.

We are surprised that our old friend Commodore Stewart of Chatham should palm off a made to order political supplement as part of the Chatham World.

Can anybody see any good reason why the Hazen government should oppose a policy that will bring prosperity to the lumbering industry?

Franklin Smith who is opposing Mr. Carvell in Carleton is described by the Woodstock Press as the "Empire candidate." Saints preserve us.

A government that has been in power for fifteen years is scarcely likely to pin its faith to a policy that will ruin the country.

One of the most momentous questions that ever confronted the electors of Canada will be decided at the polls tomorrow.

The working men of Canada and the United States see in reciprocity a measure of relief from the high cost of living.

The electors of Canada will have an opportunity tomorrow to vote for a measure which both parties have striven for for nearly fifty years.

Dr. Atherton has put up a manly fight for reciprocity and it looks as if he was going to give the Tories the greatest surprise of their lives.

A VOTE FOR CROCKETT IS A VOTE AGAINST THE INTERESTS OF FREDERICTON AND THE COUNTY OF YORK.

The cost of living in Fredericton is already high enough. If you want to bring about an improvement vote for reciprocity.

What does reciprocity mean. More dollars for Fredericton and York County.

Reciprocity will probably mean the establishment of a pulp mill in Fredericton in the near future.

The working men of York will get cheaper food under reciprocity and the farmers will get a larger market.

Workmen of Fredericton, cast your votes tomorrow in favor of the free breakfast table.

It looks as if the friends of reciprocity will do most of the cheering tomorrow night.

It looks as if the independent electors of York were going to take a fall out of O. S. Crockett tomorrow.

The electors of old Canterbury want reciprocity and the larger market.

The Fredericton man who is doing business for fun is the only man who can afford to vote against reciprocity.

The man who casts his vote tomorrow for Dr. Atherton will never have reason to be ashamed of it.

It is a case of choosing between Laurier and Bourassa, Atherton and Crockett.

Has anybody heard O. S. Crockett repudiating Bourassa during the campaign?

If the men of York do their duty at the polls tomorrow Dr. Atherton will be our next M. P.

ELECTORS OF YORK, DO YOUR WHOLE DUTY TOMORROW.

Vote for Dr. Atherton the friend of the poor and afflicted

Electors give the Crockett-McLeod junta a bump tomorrow.

Keep your eye on the Parish of Stanley tomorrow.

Do you see any safe seats for the Tories in New Brunswick?

WIDE AWAKE FARMER
ENDORSES RECIPROCITY

Mr. Donald Innes, a leading farmer of Tobique River, is among the exhibitors at the Exhibition. He has a fine display of seed grain and as usual made almost a clean sweep of the prize list. The judging in this department was completed yesterday and Mr. Innes quietly gathered in thirteen first prizes, four seconds and one third.

Mr. Innes is one of the wide awake and progressive farmers, who believe in patronizing exhibitions and he is always in attendance at meetings of the Farmers' and Dairymen's Association. He is a native of Scotland and came to New Brunswick in 1873, along with a party of colonists which included Mr. Donald Fraser, Mr. A. S. Murray, the late James Tennant and others who are well known throughout the province.

In a pleasant chat with a Mail representative yesterday Mr. Innes expressed himself very strongly on the subject of Reciprocity.

"I cannot for the life of me see how any farmer can oppose it," he said. "In our district we are ten to one in favor of Reciprocity, and why shouldn't we be? We are near the United States boundary and can raise produce just as good and just as cheap as can the farmers of Maine. A larger market will mean greater production and greater prosperity. The majority of the people in New Brunswick are farmers and I am not able to figure out how a class of people in the majority can expect to get rich raising food products for a class that are in the minority. I am for a policy that will develop New Brunswick and keep the young men at home."

ARTIC McMANIGAL
BREAKS WITH WIFE

Los Angeles, Calif., Sept. 20—With the trial of John J. and James McNamara accused of murder, by dynamiting, two weeks off, Artic MacManigal, chief witness for the state announced today, that he had broken with his wife, Mrs. MacManigal. Mrs. MacManigal is claimed by the defense as a strong witness.

"What got me," said MacManigal, "was her selling McNamara defense buttons at a picnic in Chicago on Labor Day. I read about it in the papers. If she wants anything more to do with me, she'll have to come to me first."

According to Clarence Darrow, chief counsel for the McNamara defense, less than \$100,000 has been contributed to the defense fund and at least two or three hundred thousand is urgently needed. Some plan of contributions or assessment on labor unions, he said, must be devised at once.

Lerompte Davis, one of Darrow's associates, characterized as false the charge that the defense had offered money to any of the state witnesses.

TORY CAMPAIGN YARN
GETS FLAT CONTRADICTION

After searching the county with a fine tooth comb for a Liberal who is going to vote against reciprocity, the hack organ last evening made the announcement that Mr. John McSorley, an aged and esteemed resident of Penniac, could not see his way clear to support his party. In less than an hour after the organ appeared on the streets, Mr. Henry McSorley, a son of Mr. John McSorley, called up the Mail by telephone and authorized an emphatic denial of the report. He said that his father was not only going to vote for Dr. Atherton, but he was going to the polls to work for him.

The farmers of Penniac have not yet forgotten the insulting cartoon which the hack organ published after the last local election, on Mr. C. N. Goodspeed. It depicted Mr. Goodspeed at work in a manure pile, and said that he was better qualified for that work than any other. So much for the hack organ's pretended friendship for the farmers.

THERE ARE ONLY FOUR OUT OF THIRTEEN SEATS IN NEW BRUNSWICK IN WHICH THE OPPONENTS OF RECIPROCITY HAVE EVEN A LIGHTING CHANCE.

SIR HIBBERT TUPPER'S
OPINION OF SIFTON

The following despatch was published by the Tory press of Canada, during the campaign of 1908.

"Calgary, (Oct. 13)—Sir Hibbert Tupper arrived on the Imperial Limited at 9 o'clock and a procession was formed and marched with Sir Hibbert to the Opera House. Sir Hibbert in his speech said 'The man I have taken much interest in is Clifford Lighton. His own party repudiates him. The President of the Vancouver Liberals on April 1, 1900, said 'Purge the party of men like Sifton.'"

Montreal, Sept. 28—From the best information obtainable here it is certain that the Liberals will carry at least fifty seats in Quebec. In many of the constituencies the Tories have put up men of snow—Bourassa is the hope of the Tory party in this province.

MR. BOURASSA AND THE NAVY.

Mr. Bourassa, on the navy, at Victoriaville (report of the Montreal Gazette, Conservative): "Mothers," he cried, addressing himself to the large number of women who occupied the grand stand, "you have a right to see that no government be permitted to pass laws destined for death those children whom you brought forth for the country." (Prolonged applause)

Mrs. Joshua Cowan and little daughter Marjory, of St. John, are visiting Mr. and Mrs. McConnell. Miss May Rowley is spending a few days in St. John.

There was a confirmation service held in All Saints church on Sunday afternoon, when five candidates were confirmed by His Lordship Bishop Richardson.

Mrs. Medley Richards and son Alan, of Edmundston, are the guests of Mr. and Mrs. Alex. Gibson, Jr.

BOYS

Before going to the woods stock yourself with a good pipe, tobacco, a pack of playing cards, and one of Hohner's mouth organs. Don't forget the place

D. H. CROWLEY
Opposite Mail Office

In the collision, the Olympic was struck on the starboard quarter and a large hole was stove in. When the vessels separated after the impact it was seen that the Olympic was crippled and Captain Smith immediately ordered her beached. The vessel was run into a mud bank. The Hawke was able to keep afloat, but was badly damaged, her bows being crumpled and her plates torn to the waters edge.

Later the Olympic was floated and started back to Southampton. The Hawke was also able to get away and proceeded southward under her own steam.

Major W. H. Laughlin of Milltown is in the city.

Mr. John McAdam of St. John is visiting friends in this city.

Mr. and Mrs. Randolph DeGrass of Waterville, and Mr. N. DeLong of Charleston, Carleton Co., are in the city for the exhibition.
